DEDICATION

This book is dedicated to God and the Lord Jesus Christ, for without them this book would never have been written.

This book is also dedicated to the thousands of men and women who have been directly affected in similar ways to what is described here. And to their families and friends who have been indirectly affected by association.

And to all of us who have suffered unknowingly from the negative work of people in authority.

THANK YOU

from Michael Relfe

I want to thank the LORD JESUS CHRIST, my saviour for His mercy and blessings and for removing me from the hands of the enemy. It is only by His love and grace that I am on the road to recovery from the effects of mind control and manipulation.

I want to thank my mother for her love, selfless devotion and sacrifice in teaching me to always fight for the truth and to never give up or quit. After suffering severe hardships in her young life and having to live with a mind control influenced husband and raising a mind control influenced son, I pray the Lord Jesus will continue to bless her with His peace and love.

I want to thank my beautiful wife and soul mate Stephanie for her love and affection for me. Without her strength and determination it is doubtful that this book could ever have been written or that I would ever have been fortunate enough to become married. My situation in this life is unusual and God had to create someone especially for me. Stephanie is the result of that decision.

I want to thank Joyce C. in Missouri for her friendship and prayers these past twelve years. Joyce is the strongest Christian that I have ever met and it is her courage and determination in battling the enemy that is a strong example for me.

I want to thank Robert H. in Georgia for his friendship. Robert is the strongest patriot that I have ever known and is made from the same material as that of our founding fathers. He has the godly spirit of the warrior and I would not hesitate to put my life in his hands.

I want to thank Terry Cook for his friendship and guidance. I had the privilege of assisting Terry during the beginnings of his ministry and watched as he sacrificed his time, money and career to expose the enemy. After doing great damage to the forces of darkness I then watched as he was betrayed by those he once trusted. But like a bull terrier, Terry never gives up and continues to expose the enemy. You can buy his books at any Christian bookstore (see the resources page). Terry is an ordained minister and has the spirit of Elijah and the calling of God and I would not hesitate to put my life in his hands, as well.

THANK YOU

from Stephanie Relfe

Thank you to God, Jesus Christ and Sathya Sai Baba for their guidance, strength and protection. Thank you for making my life joyful and meaningful.

An especial thank you to Mary-Jo Thomas for saving my life by her work with me ('Ethics Handling'). Before I worked with Mary-Jo, my life was a mess. After three years of work with her working on myself, my relationships and my relationships with groups of people, my life turned around for the better.

I want to thank all those who were involved in teaching me clearing. In particular Paul B., Allen Wright, Lynn P. and Marianne Hagen.

Thank you for all of those involved with the "Money & You" seminar for all of the wonderful things I learned. Thank you for helping me to learn how we can each make a difference. Thank you for showing me how we can ALL have abundance.

Thank you to Shazar R. and David Bridgman for giving me a series of kinesiology trainings, and for doing it so successfully. Thank you, too, to David for inventing the "Wernicke's Correction", as these sessions would not have been possible without it.

Thank you to my mother for all of her unconditional love and support. Thank you to my sister Catherine for giving me support in metaphysical matters when none other could help me.

Thank you to my Twin Soul Michael for making my life complete, for making my life a joy, and for his total love and support. Thank you for being willing to learn and grow and make our marriage so wonderful.

Special Mention

We would like to take this opportunity to offer a special Thank You to Duncan Roads of Nexus Magazine. In addition to his continuing fight to expose the hidden things of this world, Duncan acted as a guardian for the draft copy of **The Mars Records**. It was our hope that in the event something unfortunate happened to ourselves during the production of this book, that Duncan would have published his draft copy on the internet. That service was never required. However we thank Duncan for his support during this project.

NOTE FROM THE AUTHOR

Perfectionists in the art of clearing may have objections to how some of these sessions were conducted, as they were not always run as smoothly as text book style would dictate.

I make no apology for this. At different times I encountered situations that I had not been trained for. I did the best I could with what I had.

There may be some people who say that in publishing these sessions I broke the Clearing Practitioners code of ethics. I point out to them that in this case it was the client himself who requested that I type up and later publish the sessions.

There will be other people who will claim that I have proved nothing in this book. They are right. I did not set out to prove anything. The aim of this book is merely to provide evidence and observations.

It is to be hoped that this book will inspire others to seek for additional evidence and information in the areas described in this book.

MORPHEUS

We are trained in this world to accept only what is rational and logical.
Have you ever wondered why?

As children, we do not separate the possible from the impossible,
which is why the younger a mind is, the easier it (the mind) is to free.
While a mind like yours can be very difficult.

NEO

Free from what?

MORPHEUS

From the [Matrix](#).^{*}

Do you want to know what it is, Neo?

It's that feeling you have had all your life. That feeling that something
was wrong with the world. You don't know what it is but it's there, like a
splinter in your mind, driving you mad, driving you to me. But what is it?

The Matrix is everywhere, it's all around us, here even in this room.
You can see it out your window, or on your television. You feel it when
you go to work, or go to church or pay your taxes. It is the world that
has been pulled over your eyes to blind you from the truth.

NEO

What truth?

MORPHEUS

That you are a slave, Neo. That you, like everyone else, was born into
bondage, kept inside a prison that you cannot smell, taste, or touch.

A prison for your mind.

Unfortunately, no one can be told what the Matrix is.

You have to see it for yourself

NEO

How?

MORPHEUS

(In Morpheus' right hand, a red pill.)

This is your last chance. After this, there is no going back.

(In his left, a blue pill.)

You take the blue pill and the story ends. You wake in your bed and
you believe whatever you want to believe. You take the red pill and
you stay in Wonderland and I show you how deep the rabbit-hole goes.

Remember, all I'm offering you is the truth.

Quote from the movie: The Matrix.

^{*}The Matrix. In the movie this is an artificially constructed virtual-reality system used to
enslave the population of earth.

Preface by Stephanie Relfe

In December 1996 I began doing one-on-one Clearing sessions in Australia with an American man in his early 40's named Michael. I am an Australian. I had known Michael for a year prior to this. His life prior to 1995 had been spent in the USA.

During these sessions we came to discover a vast number of astounding things that he had done, and which had been done to him, of which he had been totally unaware. These things included having worked on Mars for the US government, remote viewing, time travel, age recession by 20 years, being given false memories to cover his time on Mars, abductions and other experiences.

Michael is a successful professional working in the information technology industry. He previously worked in the U.S. Navy. He is of sound mind and body, is highly intelligent and healthy. He has never taken recreational drugs or alcohol. Before the first clearing session, one would have considered that he had lead a perfectly normal life.

The first clearing session was carried out because Michael had memories of seeing spaceships as a boy, and he wanted to determine whether these memories were real, or a dream, or if they were something else entirely. In fact, the sessions uncovered a whole range of suppressed memories.

When I first met Michael I felt that he might be the man for me. And yet sometimes when I looked behind his eyes, there seemed to be an unusually large amount of suppressed rage. This would erupt occasionally and we would then have large arguments. After knowing him for a while, I offered the sessions to him, in an attempt to rid him of this anger.

After a number of sessions, his anger reduced so much and his personality improved to the extent that when he asked me to marry him, I accepted. We married in August 1997 and moved from Australia to the USA. We returned to Australia at the end of 1999.

When we discovered what you are about to read, Michael asked me to type up my written records. When I finally accepted that we should publish these records, my original desire was to do so under a pseudonym. However, something happened to change that. We are not totally sure that an attempt was not made on Michael's life in November 1999, two weeks after we booked a flight to return to Australia from the USA. This event is described in Chapter 49 – A Strange Accident. After this event, and much praying for guidance, we decided to publish using our real names.

We made this decision because it is our understanding that generally the people who have been murdered for what they knew, were those who did so under pseudonyms. The 'bad guys' can always find out who wrote what. However, usually whenever some one is willing to use his real name when he comes forward with unusual information, he is left to live – because his death gives credibility to his information. (A notable exception to this was the late Phil Schneider. See Appendices IV and V).

An example of this working: After Dr Joseph Puleo wrote a trial publication for "Healing Codes for the Biological Apocalypse", an attempt was made on his life. Men in black clothes aimed a lazer gun through his kitchen window, which should have given him a fatal heart attack. However, God looks after his people. At the moment the lazer was fired, Dr Puleo picked up a bottle of olive oil – which took enough of the blast to enable him to survive. Dr Puleo then agreed to use his real name in the final publication.

The Mars Records is the record of what was discovered in Michael's sessions. This record is unlike any other that you have ever read. Firstly, we believe some of this information is unique. Secondly, these sessions were done on a biofeedback meter – and all of the readings from the meter have been recorded here. The readings back up the truth of this amazing story.

Summary by Michael Relfe

When reading **The Mars Records** you will be exposed to many new concepts and ideas, some of them from the areas of what we commonly think of as “science fiction”. Before dismissing these concepts as impossible, ask yourself one question.

Do you believe that the technology level you see in the “modern” world of television, magazines, trade publications, professional journals and university courses is “state of the art” ?

If you answered **YES** then this book may not be for you. Your reality framework is possibly such that you believe television and the media. You may not enjoy this book as it may disturb your strongest beliefs. In addition you most likely have never been connected to the military and have little comprehension of projects that go on without the knowledge of the general public.

If you answered **NO** to that question then this book **IS** most definitely for you. Study closely and you will note that the ramifications of the technology described in this book is nothing short of fantastic. You will conclude that history as we know it is a LIE and that technology has been in existence for at least 25 years that could change this planet for good, but is being suppressed for reasons unknown.

The Beginning

The experience of being involved in the creation of **The Mars Records** over these past few years has been interesting to say the least. If anyone had ever suggested that I had been involved in black projects during my time in the military, I would have thought they were a “bit strange”. As time goes by I am learning just how wrong I would have been.

The following summary will help those using this book as a research tool to get a “big picture” idea of what has transpired during my involvement with the military arm of the “shadow government” that runs these programs. It is clear that these projects continue to function and that many thousands of people are participants, their involvement unknown to their conscious minds.

It is our hope that this document will be a blueprint for those wanting freedom from the effects of these ongoing mind control programs. The three technologies involved, namely Deliverance as taught in the King James Bible, Clearing Technology and Kinesiology, are effective and **FREE** (once you have learned how to do them). It is the responsibility of the person affected to continue to seek out, learn and practice these techniques.

Definitions of Healing Therapies Used

by Michael Relfe

- **Deliverance** : The process of the removing or the “casting out” of demonic entities using the power and authority of the Lord Jesus Christ, as Jesus did in the bible.
- **Clearing** : A technology for finding truth¹ by using a biofeedback meter. It works with a person’s mind and spirit while he is conscious. Clearing removes negative emotional charge and subconscious sabotage. It increases a person’s abilities and awareness.
- **Kinesiology**: A technology which improves a person’s health and wellbeing by working on the body’s electrical systems. It is different from all other technologies in its use of muscle testing. Muscle testing enables a kinesiologist to communicate directly with the body’s brain, which is like a super-powerful computer.

I believe from personal experience and from researching the work of others (such as Bill Schnoebelen and Fritz Springmeier) that the mind control technologies used in these government programs are **demonically** inspired and contain physical, metaphysical and spiritual components. Each component must be dealt with individually, using the three technologies of deliverance, clearing and kinesiology.

Without the help of GOD, it is highly doubtful that any person can be freed of these mind control effects, so constant prayer is a must.

If the mind control victim cannot bring themselves to call on God or the Lord Jesus Christ for help, ultimately they will find limited freedom using the other technologies. They will get a great deal of help from clearing and kinesiology but will only be able to proceed so far. Only deliverance will remove demonic entities. Technology and procedures will not. Deliverance clears the way for everything else. More detailed information concerning the deliverance ministry is provided in Appendix VI.

When utilizing The Mars Records for research, please take special note of the format of the sessions as well as the explanations of the technologies. This document is unique in the field of alternative science (UFO, Paranormal Research, New World Order Expose, Government Coverup, etc) in that it contains the actual readings from the clearing biofeedback meter.

This biofeedback meter “truth detector” cannot be fooled. The contents of this book are not opinions or speculation. In addition hypnosis was never used in any form.

These sessions are compelling evidence that the effects of mind control can be reversed, and that those that use mind control can be defeated.

Feel free to distribute this document to every abductee, contactee, researcher, therapist, mind control victim, ritual abuse survivor and member of the military so that they too can begin the road to recovery from the effects of traumatic incidences.

Here let it be noted that we are not here to “convince” anyone of the truths of these sessions. We do not argue or coerce. We are not in the UFO business. I am not a “celebrity” and have never spoken publicly concerning these experiences (April 2000). I am a Christian and I believe that everyone deserves freedom from oppressive systems.

Deliverance

In hindsight, it is clear to me that my involvement with the military “changed” me in many ways. It is also clear to me that the bad side effects of mind control procedures stay with a person for the rest of their life and if not fixed, can have disastrous results with one’s health, relationships and employment.

A couple of years after leaving the Navy, I knew some things were wrong with my life. I was supposed to be a “Christian” but was not acting like one in my everyday life. I became a Christian about two years after joining the navy (This was after returning from Mars). Because of the things that I had been involved in on the Mars “time line” as well as the lack of a church life and absence of deliverance, I had little spiritual advancement. These unseen influences in my life were holding me back in my walk with God.

I always enjoyed taped sermons and so I ordered three tapes by a pastor named Win Worley of Hegewisch Baptist Church near Chicago. At Hegewisch I was able to receive hands-on deliverance from fellow Christians who cared for my well-being. Here I learned what a real Christian church is... believers moving in the power of the Holy Spirit without concerns for politics and money. These tapes on deliverance started me on the road to a better Christian walk. Becoming free of demonic influence increased my prayer life as well as helped me learn to say “no” to the sin in my life.

Ultimately, ten years later I was free enough to accept help that was offered through kinesiology and clearing. Hidden mind control effects can take years to discover and I am blessed that God put me in the position, seventeen years after leaving the military, to begin getting free of them. Remember that God will use whatever technology he wants to free his children.

Please see the Appendix VI for more detailed information on the deliverance ministry as well as sources for more research.

Understanding the Time Line

by Michael Relfe

The Mars Records sessions can be difficult to understand because :

1. They are not in chronological order.
2. They include concepts such as advanced technology and “time travel” not considered “normal” for the average person.

To provide somewhat of a background on the technology described in the sessions, please read Appendices IV and V. Phil Schneider was a government employee murdered shortly after going public with information concerning covert government projects involving non-human life forms. One key revelation during Phil Schneider’s lecture was that **for every twelve months**, the government’s technological level increases by **44 YEARS**. This explains much of the technology referred to in **The Mars Records**.

Appendices II and III detail information given in lectures by Dr. Al Bielek, a survivor of the original “Philadelphia Experiment”. His information covers many ongoing covert projects, in particular the origin of the time and space travel “jumpgate” technology that allows current Mars project operations to be possible.

The Mars Records describes various events in the twenty year tour of duty of one Navy enlisted man (me!) stationed on Mars Base. It starts with the technology described by Dr. Bielek as having been perfected and in general use in black projects for several years.

When trying to understand the “flow” of the sessions it helps to see a time line depicting the events described, especially as the events are out of chronological order. The following events are an extract of the sessions. As you read the sessions, please try to fit them into the following order.

Chronological List Of Events

Clearing

by Stephanie Relfe

Clearing is a method of discovering truth.¹ It is vastly more efficient than other technologies for finding hidden truth because of its use of the following:

A) Clearing Biofeedback Meter.

The Clearing Biofeedback Meter is a simple Wheatstone Bridge¹ which measures the resistance of the body as influenced by the electric field around it. It is fairly simple electronically. However, it is what is done with it in the hands of an experienced Clearing Practitioner that gives it its power.

To some people the Clearing Biofeedback Meter looks like a lie-detector. But it is in fact a 'truth detector'. It is many, many times more efficient and reliable than a lie-detector. As you will learn, the needle on a biofeedback meter gives a wealth of information. It does not react to the amount of sweat on the hands of the person as some seem to think. The Clearing Biofeedback Meter compares to existing devices as the electron microscope compares to looking through a magnifying glass.

When a person (the 'client') contacts a memory with negative charge², the electric field around his body is affected and causes a reaction (a 'read') on the meter's needle. The meter gives certain reads when the truth is being said. If a person makes up a story, or tells a false story which he believes to be true, the needle on the meter will read differently from when the person is telling the truth.

¹ Wheatstone Bridge: An instrument or circuit consisting of four resistors, or their equivalent, connected in a loop, with a galvanometer* linking the junction between one pair and the other. Used to determine the value of an unknown resistance when the other three resistances are known. (*A galvanometer is a device for detecting or measuring small electric currents by means of mechanical effects produced by the current to be measured).

² Charge: Charge is a mental energy phenomenon felt by anyone who experiences something unpleasant, dangerous or lethal. Charge is manifested by negative emotions such as anger, fear, grief, apathy or death wishes.

B) Acknowledgements.

An acknowledgment is a word or words that lets the client know that what they have said has been UNDERSTOOD and that THE COMMUNICATION IS NOW COMPLETE. It puts a “full stop” on what has been said.

‘Thank you’ is a common acknowledgement. Other acknowledgements could be ‘I understand’, ‘well done’, ‘I get it’, ‘great’. It is not WHAT you say so much as HOW you say it.

This is an extremely powerful technique. It enables a person to finally drop what they have been carrying. They can then see the next ‘layer of the onion’ underneath.

Charge is a mental energy phenomenon felt by anyone who experiences something unpleasant, dangerous or lethal. Charge is manifested by negative emotions such as anger, fear, grief, apathy or death wishes.

Acknowledgments help to take emotional charge off a person. This gives them the strength to face the truth. Also, once a story has finally been told, acknowledgments enable the client to finally put the past behind them and begin to change their life.

Acknowledgments also help to give a client certainty. If a person has memories, and they are sufficiently acknowledged, eventually they will come to realise the truth about their memories. They will realise that either (1) they really are true or (2) they are false – and they will realise then what really happened.

A Clearing Practitioner answers EVERY question with an acknowledgement. And gives an acknowledgement every time the client does what they are commanded to do.

Traditional psychology, however, never uses acknowledgements. Instead, the psychologist answers each answer with ANOTHER question. The client is left with hundreds of open loops. This keeps him stuck with his problems – and keeps him coming back to the psychologist, as he hopes to finally get a “full stop” to his answers.

In The Mars Records acknowledgements are not recorded, as they are not relevant to the session. One merely assumes that an acknowledgement was made for an answer from Michael, or for anytime that Michael did as I told him to do.

C) The client is fully conscious throughout the session.

There is no hypnosis^v, or induced trances involved. A client is free to leave the session whenever he wishes. The success of the session depends on his full conscious support.

Personality change and improvement is not simply brought about by the practitioner acknowledging the client, but by the CLIENT acknowledging whatever it was that he found in the depth of his mind.

More on the Biofeedback Meter

A battery inside the meter sends a very low voltage current (9 volts) through a wire which is attached to an ordinary tin can which the client holds in one hand. The current interacts with the body's electro-magnetic fields. Only two volts actually arrive at the client.

A gross simplification of how the meter works is that the meter measures the resistance of the body as it is influenced by the electromagnetic field around it. It does not react to the amount of sweat on the hands of the client (as some may think).

When a person locates a memory with charge on it, the electric field around his body is affected and causes a reaction which registers as an INSTANTANEOUS needle movement on the meter. The more painful the memory, the more resistance there will be to the client remembering what happened – and the more resistance there will be, which will show up on the meter.

The meter measures **one level below consciousness** (i.e. on a pre-cognitive level). When working with a skilled Clearing Practitioner, a client can locate a particular event, the nature of that event, the location of that event in space and time and the amount of force contained within it – and the meter gives feedback.

A person can recall ANYTHING, no matter how deep. However, it can be easier to remember memories with **charge**.^v

Volney Mathieson presented his ideas about a biofeedback meter to Ron Hubbard, the inventor of Dianetics in 1952. A version of the meter known as the E-Meter (Electro-psycho Meter) was later put into widespread use in Scientology and Dianetics.

The modern Clearing Biofeedback Meter is designed to measure mental state and changes of mental state accurately and quickly. It is a modern version of what is known to psychologists as the psycho-galvanometer.

Reading a biofeedback meter properly takes extensive training and experience. To start with, the Clearing Practitioner should have received a minimum of 40 hours of clearing themselves, before giving it to others.

The Clearing Practitioner must also be trained in the ability to stay 'Present', no matter what the client says or does. To "Be Present" means to "Be here, Be now, Do nothing". Have you ever talked with someone and you knew that while they were physically present, part of their mind and spirit was elsewhere? Or in another time? Many people are not present for at least some of the time. They particularly tend to not be present when they hear things which they don't like hearing – either because the things being discussed are too unpleasant, or are outside the person's reality³. It is crucial for a successful clearing session that the Clearing Practitioner be 100% present at ALL times.

To the beginner the needle seems like a madly wiggling wild thing. But to the expert each needle motion allows exact conclusions regarding the client's attention. The meter does not tell the practitioner what picture the client sees. But it does tell him when the client is approaching a "hot area" (an area with a lot of charge), when he is backing off from it and when there is no charge left and no more information to be gained from the session.

Occasionally the client has memories which he has picked up from another source. He might have accidentally or intentionally gained false memories or memories belonging to someone else. When this happens, the meter reads in a different way. Therefore a good Clearing Practitioner will soon ask "Is it possible that these are not your memories?".

The client will then realise whether or nor they are his. The truthⁱ of his answer will be confirmed by the meter. Further questioning soon finds the true source of where any false memories come from. The proof of this is again indicated by reads on the meter.

The validity of the truth of what is discovered during a session is confirmed by the client having many changes during the session. Sudden body movements may manifest. The client may go from feeling light and happy one minute to VERY heavy and tired the next. And later back again to feeling light and happy. The client may suddenly burst into tears, or shake. Often pains suddenly appear and then disappear in various parts of the body. And each of these physical changes is usually congruent with what has been said during the session.

The client usually makes changes for the better after a good session. Things that are discovered by the meter, and looked at and talked about thoroughly, will not trouble the client again. Often the client will have large positive improvements in their happiness, wellbeing and ability to "make things go right".

³ Reality: Agreement to what is. For example, two people have the same reality if they both like dogs. They have different reality if one likes dogs, but the other dislikes them.

If memories are hidden from us, there is a reason for this. Sometimes the memories are too painful for a person to look at straight away. This is one problem with **hypnosis** - a person is dumped into painful memories, whether they are emotionally strong enough to face them or not.

In addition, hypnosis **does not remove** the electrical / emotional 'charge' on the memory. This can cause problems because the person now has activated memories with the charge fully intact and close to the surface – whereas previously the memories and charge were further away and less likely to affect the person as often.

One of the many advantages of the biofeedback meter is that the Clearing Practitioner asks the client **ONLY** about things which are reading. Anything which does not read is either:

1. Not a problem
2. Not true
3. Too big for the client to look at, at that time. However, these things occur in layers, like an onion. Once we take off the outside layer, the next layer is smaller. Once a person has looked at the less painful things, they can go back to the other issues which were originally too big to be looked at, and they will find that they can then face them easily.

Another important aspect to getting results is that the person doing the talking must feel totally safe. They must feel that the person they are talking to will believe them, and not be threatened or upset by what they are saying.

The Mind

What is the mind?

The mind is an energy field. It is partly made up of what are called 'pictures'. Mental image 'pictures' are often visual. But they are not always visual. Mental image 'pictures' can **ALSO** be in the form of unwanted thoughts, emotions, physical sensations and pains.

The mind is not the brain. The brain is a physical 'switchboard' between the mind and the body.

We are not a body. We are a spirit (or soul) which lives in a body. We, (the spirit) communicate with the mind, which communicates with the brain, which communicates with the body.^{vi, ii}

Where is the mind? Part of it surrounds our body. It is not all 'in our head'. A simple experiment will prove this. Ask someone to close their eyes. Tell them not to open their eyes until you tell them to. Then tell them to visualize the dashboard on their car. Ask them to let you know when they have done that. Once they have done that, tell them to **physically touch the picture** of their dashboard **with their finger**.

Every single person who does this touches an area IN FRONT OF THEIR BODY. They do not try to touch their head. This shows that the pictures that form our mind are OUTSIDE us. We look at the outside world THROUGH our mind.

This is one reason why different people view the world differently from others at times - because their mind is full of pictures from their past, which can affect their view of the present **when the pictures are activated**.

We record EVERYTHING that happens to us. Even when we are asleep or unconscious. This has been shown many times, for example, by people remembering in Clearing sessions what happened to them during operations and at their birth.

The mind has different levels of activity. On a lower level people are controlled by the pictures in their mind. They are activated by these pictures which they experience energetically.

On a higher level is rational thinking.

But there is an even higher level than thinking. There is KNOWING. It is much more powerful to KNOW something than to THINK it. Ultimately, Clearing works to improve a person's knowingness.

The File Clerk

There is a part of each mind which has been called "the file clerk".^{vii} When it is told to go and get a memory from the person's mind, it does so if the memory is there. If the person is told to remember their last birthday, the file clerk goes straight to the files and gets out the last birthday. If told to remember what the person was doing on a certain date, it will do that as well. People who have a clearing session are usually amazed at how quickly long-forgotten memories will resurface. They do so because the Clearing Practitioner gives **precise, carefully worded** commands to the File Clerk.

The File Clerk gives answers as long as the client has the power to confront what's comingⁱⁱ. Otherwise it's hypnosis when the person is "switched off".

Sometimes the memories that are remembered are so unusual that the client may doubt the truth behind his memories. In that case, all he has to do is "make up" something that is equally strange. The "made-up" memories will not register on the meter. Only what is TRUE will read on the meter.

The Clearing Practitioner will then get the person to look deeper at areas that are registering on the meter, by commanding them to do so, which activates the file clerk. This will get to the whole truth extremely quickly. The meter measures one level below consciousness. It reacts to signals from the client that are so subtle that they aren't perceptible to the eye.

To “As is”: How Negative Thoughts and Emotions are Cleared

In the physical universe, two things cannot exist in the same space at the same time. This also applies to the invisible universe of mental charge.

A memory exists as an energy in a person’s mind called a ‘picture’⁴. It is not the memory that causes the problem, it is the NEGATIVE CHARGE associated with the pictures that causes negative emotions, thoughts and behaviour.

When we get a client to remember EXACTLY what happened to him, he creates a perfect copy of the original picture. When he creates the perfect copy this vanishes the charge on the memory. The person then knows what happened, but the pictures and charge which were affecting him negatively have now gone.

Ron Hubbard called this process to “as-is” something. The person looks at a memory exactly as it is, at which moment it vanishes and ceases to exist. The memory will remain as a gentle knowingness, but without the painful charge that caused him problems.

You yourself have probably “as-ised” things at times without realising it. Think of a time when you had an absolutely BRILLIANT idea. But a few moments later you couldn’t remember what it was. No matter how much you thought, the memory never came back. You as-ised it. After creating the first thought, you then created another perfect copy. Two things cannot exist in the same place at the same time – and so your thought vanished.^{ii, iii}

⁴Mental image ‘pictures’ are often visual. But they are not always visual. Mental image ‘pictures’ can **ALSO** be in the form of unwanted thoughts, emotions, physical sensations and pains.

The Language of the Clearing Biofeedback Meter:

How To Understand the Notes from the Sessions

Tone Arm (TA)

As the current of the meter runs around the client's body, it meets resistance. When the client begins to remember painful past memories, the resistance of his body increases. The needle of the meter moves to the left. In order to keep the needle on the "set" position on the dial, the clearing practitioner has to move the needle to the right. To do this, he turns a knob on the face of the meter clockwise. This allows more current to flow out in order to match the increased resistance.

This knob is called the Tone Arm. It measures resistance in the following amounts:

Tone Arm (TA)	Ohms (resistance)
2	5,000
3	12,500
4	30-40,000
5	150,000
6.5	10,000,000

A person who is in a happy state of being would probably have a tone arm between 2 and 3.5. TA measures the mental tenseness of the client. TA of 5 and above is *very* high.

Note that TA goes up EXPONENTIALLY, not linearly. If a person gets TA of 5 and above, they will generally feel quite 'heavy. I describe this sometimes as feeling like a block of concrete. When the needle is between 2 and 4, when they will generally feel light and happy.

TA is one of the two things to look out for when reading the records of the sessions. TA is recorded as numbers throughout the sessions, in the right hand column.

Notice when TA goes up.

This means that mass is being pulled in. This generally means that a memory is brought in which the client does not want to remember now. High TA can also be caused by other things such as drugs, tiredness or pain in the body. It can also be caused by looking at the wrong areas. Or by a person lying. Or for there being something the person does not want to tell the Clearing Practitioner.

Most importantly, notice when TA goes down.

Two things cannot exist in the same place at the same time. When the client remembers what happened, he creates a perfect copy – which cannot exist in the same place as the original memory. He “**as-ises**” the **pictures⁵ in his mind**. Therefore the tension of the memory vanishes, and the person becomes less dense. The TA then goes down.

This is why we say that he has seen the truth. Since TA and a read can occur ONLY by creating a PERFECT copy of an event, it therefore stands to reason that this is a TRUTHFUL copy of the event.

TA goes down when the client remembers at least part of the truth. This reduces the charge on the incident. A drop of even 0.1 is meaningful. A sudden drop of 0.5 – 1.5 is a major realisation of the truth.

↓ This symbol beside a number in the right hand side of the right hand column denotes when there is a sharp drop in Tone Arm.^{iv,vi}

⁵ Mental image 'pictures' are often visual. But they are not always visual. Mental image 'pictures' can **ALSO** be in the form of unwanted thoughts, emotions, physical sensations and pains.

READS: Short Falls, Falls and Long Falls

A **read** is a sudden movement to the right by the needle. Depending on the size of the movement of the needle, it is called a tick, a short fall, a fall or a long fall.

A read means a charged item was located and the charge reduced. The charge is on the words that were said IMMEDIATELY before the needle moved. This is called an 'instant read'.^v How does charge come about? By the client wishing to know something and not knowing it. The harder the client wants to know and the more difficult it is for him to find out, the more charge there will be.

Finding out and knowing brings relief. Anytime the client experiences relief there will be a read.

In the notes a symbol for a read is placed directly opposite the last word that it read on **instantly**, in the right hand column. If there is **any** time delay at all between the client speaking and a read, then the symbol for the read will be placed on the **next** line.^v

Floating Needle

A 'floating needle' occurs when the needle idly moves from side to side without any patterns or reactions in it. It just idly floats about. This is the most difficult needle characteristic to identify, because a series of falls could look like a floating needle.

A floating needle occurs when a major amount of mental mass has been erased. It means that there are no more painful or stressful memories, at least for a short while before the next lot of memories come in.

During a session, a floating needle may occur for only a second or two. Hopefully the session will end with a big floating needle. A big floating needle which lasts for a longer period of time indicates that all of the stress from the painful memory has been removed. It also indicates that all items of truth which are important to the client have been uncovered and talked about.

If the session does not end with a floating needle, then another session at a later date should remove the remainder of the charge.

Because a floating needle can be hard to identify, the best way to confirm it is to look at the client. If he is bright, light and happy, then that is a floating needle. If he is still tense, tired, sad or generally exhibiting negative characteristics then it is probably not a floating needle, but a series of falls and long falls.

A floating needle is identified in the notes as "F/N".^v

'Yes' and 'No'

The language of the biofeedback meter is simple. If you ask a question and get a read (that is, any type of fall) that means 'yes' to the question.

If you get no read that may mean no or it may mean yes.

If the client answers 'yes' to a question and the needle reads on 'yes' then that verifies that the answer is yes.

If the client answers 'no' to a question, and the needle reads on 'no' then that verifies that the answer is no

The read confirms the practitioner's question or the client's statements as true. Why? Because two things cannot exist in the same place at the same time. We have seen something exactly as it is, even if only in part. Truth is the exact consideration: the exact time, place, form and event.¹ Once the client creates the exact duplicate of what happened, charge is released.

(Lying or creating a false truth would only ADD to the charge that is there. This would stop the needle from reading and cause TA to go up).^v

Rock Slam

R/S Denotes a rock slam

A Rock Slam occurs when the needle has a wild, erratic movement. It is quite amazing to see when it happens. The needle will take on a life of its own. This happens when either (1) there is a faulty connection in the wires or (2) there is an "evil purpose". 'Evil' means destructive and / or negatively controlling. The evil purpose could belong to the client, or to anyone or anything in the incident.^{vi}

I had been told that Rock Slams were quite rare but they were encountered not infrequently during these sessions.

Underlined v. not underlined words

Words that are not underlined were said by the client – in this case, Michael Relfe.

Words that are underlined were said by the practitioner – in this case, Stephanie.

Other Abbreviations

C/L Denotes a communication lag.

This occurs when the client does not say anything for a period of time. He is in 'lag' with regards to an answer to the question.

VGI Denotes "Very good indicators" meaning that the client is bright, light and happy looking.

X An 'X' is written when there is NO read. This is usually written about an answer to a question, to record that there was in fact no read on the answer to the question. In this case, we do not know whether or not the answer was true, but suspect that it may not be absolutely true.

A SUMMARY OF SYMBOLS USED:

Symbol	Stands For	Description
Tk	Tick	The smallest needle movement of all. Barely discernible.
SF	Small Fall	The needle moves 0.6 to 1.5 cm to the right
F	Fall	The needle moves 1.5 to 3 cm to the right
LF	Long Fall	The needle moves 3 to 4.5 cm to the right ^v
↓	Sudden drop in Tone Arm	The most significant read is when there is a Long Fall at the same time that there is a sharp drop in Tone Arm. This is denoted by the symbol ↓ beside the tone arm number.
C/L	Communication Lag	The client has stopped talking before he has fully answered the question or completed the command given by the clearing practitioner.
F/N	Floating Needle	Means that there are no more painful or stressful memories activated, at least at this moment.
R/S	Rock Slam	Indicates the presence of an evil purpose
VGI	Very Good Indicators	The client is looking bright, light and happy
X	No read	The needle did not move at the instant end of the question or statement.
Numbers	Tone Arm	See chapter on Tone Arm (TA)

Organisation of The Mars Records: Sessions & Chapters

Generally each chapter is a description of one session of clearing and / or kinesiology and is named a “session”.

However, at times a chapter was made up of an event which was not a session, but I felt was still relevant to the story. In this case, the chapter is named as a “chapter” rather than a session.

Roman numerals written as a superscript denote a reference, which is given at the end of the book.

Metabolism

At the beginning of each session the amount of energy that the person has is measured. This is done by asking the person to take a deep breath and then let it out quickly. The needle will then fall a certain distance to the right, unless they have no reserves of energy when it will not fall at all.^v

The distance that the needle falls is recorded as “metabolism”. The basic rule is that a session can only be successful if the needle falls at least one inch to the right after the person lets their breath out. This is because doing a session requires quite a lot of energy on the behalf of the client, as well as the Clearing Practitioner.

Lack of metabolism is usually caused by lack of sleep or food.

Drugs

A session can be run successfully only if the client is not under the effect of alcohol or psycho-active drugs, (ie. Anything more powerful than aspirin).

The general rule is that alcohol should not be consumed 24 hours before a session and drugs not taken seven days before a session.

Repeating Technique

Our ideal state is to know everything.

The possibility of this can be better understood by reading "[The Holographic Universe](#)" (by Michael Talbot). In this book Talbot uses a hologram as a model with which to explain reality.

However, most of us don't know everything. At times we feel that we "don't know". Often the reason why we "don't know" is because we are being affected by things in our past which are still in our mind.

During a session, when someone says anything which denies that they know everything that happened in the incident being looked at, the clearing practitioner can get them to repeat what they just said. For example, if the client says "I don't know", "I can't see anything" or "I can't remember", they will be told to repeat that exact sentence. ("I don't know, I don't know, I don't know, etc.)

Usually, once the client has repeated this statement several times, the underlying truth will surface and they WILL be able to know, see and remember. This is because they as-is at least part of the reason why they "didn't know" when repeating this statement.^{vii}

The Clearing Practitioner's Code of Ethics

The session will work only to the extent that the client feels that they are safe with the Clearing Practitioner. Therefore, a "Code of Ethics" was devised which has been found to be essential for successful sessions.^{iv}

1. I agree not to evaluate a client, by word or thought. That is, I agree not to judge a client or to tell them what I think is the truth. I agree to simply question them according to how the meter is reading and to lead them to make their own discoveries.
2. I agree not to invalidate a client by word or thought, no matter what is discovered in a session. That is, I agree not to do anything that would put the client down in any way whatsoever.
3. I agree to keep all appointments once made. This is because once the appointment is made memories can begin to get stirred up, getting ready to be handed over in the session.
4. I agree not to work with a client later than 10 pm, unless an important action needs to be completed. I agree not to work with a client who is physically tired or has not had a meal before the session. This is because a session requires a considerable amount of energy on the part of the client as well as of the Clearing Practitioner.
5. I agree not to work with a client who has consumed alcohol within the last 24 hours, or drugs within the last week.
6. I agree not to sympathise with a client but to be effective and help them to be the very best they can be.
7. I agree to never get angry with a client.
8. I agree not to let a client end the session, no matter what may come up, but to complete what I have begun.
9. I agree to hold a safe space for the client during the session, and to be a safe person for the client to contact at any time in the future.
10. I agree to have no sexual relationship with a client.⁶
11. I agree to maintain ABSOLUTE CONFIDENTIALITY of the data revealed in the session.⁷

⁶ I understand that this rule was made originally because it was believed (1) That it was not possible for two people to run a successful session if there were out-of-integrity actions between the two people and (2) That a Clearing Practitioner could not remain sufficiently present during a session when his/her client became upset, if the Practitioner had been sexually involved with the Client. I did not keep this rule in this case because we were not sexually involved when we began the sessions, there were no out-of-integrity actions between us, and because I believed that I could run successful sessions on Michael, no matter what came up (as I had successfully worked with other members of my family). This proved to be true.

⁷ This agreement was not broken in these sessions. It was **the client himself** who requested that I write up and later publish the sessions.

Kinesiology

The sessions in these records were even more successful than a normal Clearing Session because they included the use of Wholistic Kinesiology on occasion.

Kinesiology is a new technology which works directly on the body. It was developed by doctors, chiropractors and acupuncturists in the U.S.A. One of the most important people in this development was George Goodheart. They pooled their knowledge and added it to Chinese medicine to develop a technology which is amazingly efficient at balancing the body energetically so that it can return to excellent health, energy and emotional strength.^{viii}

Wholistic Kinesiology incorporates much of the best of different schools of kinesiology including Touch for Health^{ix}, Applied Kinesiology and Educational Kinesiology. It also includes new discoveries and newly developed corrections such as the Wernicke's Correction (see next section in the notes).

Kinesiology differs from all other methods of healing by its use of muscle testing.

The basis of muscle testing is that the body is like an electrical piece of equipment, which is controlled by an incredibly complex **computer**, namely the brain. The brain is continually in communication with each of the 639 muscles in the body.

If a muscle is electrically in balance, it is possible to measure a constant electrical signal from the brain to that muscle and back again, much the same as two faxes 'talking' to each other.

However, when the body is overstressed (through a chemical, emotional, structural or electrical cause), the electrical signals in one or more muscles go weak. It is like a fuse in your fusebox blowing. The body figures that it is better to blow a fuse than the whole thing.

This is the basis of muscle testing. For example, if a person has a particular muscle in their arm 'out of balance' (as we say), then they will not be able to hold their arm in a certain position when the kinesiologist applies pressure to it.

This is particularly significant when you realise that many different parts of the body are in communication with many other parts of the body. That is,

Muscles (communicate with)	muscles
Muscles (communicate with)	organs
Organs (communicate with)	muscles
Organs (communicate with)	organs

In the above example, the muscle itself may have been weakened. However, if it is the particular muscle that communicates with the stomach the muscle may be weak because the stomach is out of balance. In another example, a person may have a weak bladder because their bladder is out of balance. However, the bladder communicates with the ankle muscles and therefore a weak bladder may have been caused by weak ankle muscles. It is virtually impossible to completely heal the body without taking the whole picture into account.

Once the weakness is located through muscle testing, the kinesiologist then 'talks' to the body. For example, by use of muscle testing the kinesiologist can ask the body any number of questions.

For example, what caused this muscle to go out of balance? If it was a chemical he can ask the body what specific food or other substance caused the body to go out of balance. If it was a deficiency, he can find out what food will re-strengthen the body.

Emotional Stress Release

If it was an emotion which caused the imbalance, the kinesiologist can find out what specific emotion is involved. It is important to realise that emotions ("energy in motion") can be stored in the mind, but they can ALSO be stored in the body.

- Clearing removes negative emotions from the mind.
- Kinesiology removes negative emotions from the body.

A kinesiologist who locates an emotion or incident stored in the body can use muscle testing to find out any number of things, including WHEN it happened, and WHO was involved. It is crucial that the kinesiologist have a totally open mind when doing this.

Once the emotion is located, the kinesiologist can then do an extremely simple form of emotional stress relief.

He/she lightly places a few fingers on the other person's forehead, while the person 'looks at a video' of the emotion. When we are under stress, blood goes to the back of our brain (where the past is). But when a hand is placed on the forehead, blood moves to the front of the brain (which unfortunately most of us use only 5% of the time) where new choice is located. Within a very short period of time (often a few minutes) the person will be a lot less emotional about the particular incident, and therefore a lot less affected by it.

If you find at any time after reading 'The Mars Records' that you experience negative emotions, it may be that something in the book has restimulated something in your own mind. It would be a good idea for you to do Emotional Stress Release to yourself – put a hand on your forehead and close your eyes, while you look over (in your mind) what you have been reading, or doing that day.

Whether or not the cause of an imbalance is identified, the kinesiologist is able to ask the body which particular areas of the body should be touched in what particular way to correct the imbalance. The brain becomes aware of the problem and finds the electrical pathways which were blocked or forgotten about, and rectifies the situation. Typically people notice an immediate (and hopefully long-lasting) absence of pain in the troubled area and within a few days afterwards many of any other symptoms have often gone.

Using muscle testing the body can be used as a “meter” to find and identify the truth, and then to delete any negative effects from the body. New techniques from Kinesiology were used to delete negative commands directly from the brain and to remove the effect of various drugs which had been given, and which were clouding Michael’s memories.

'The Wernicke's Correction'

Removing sabotaging commands from the Wernicke's area of the Brain, using Kinesiology

The mind is an energy field. Clearing removes charge from the mind. But clearing does not necessarily remove negativity from the brain. The brain is a physical 'switchboard' between the mind and the body.

Research has shown that words are stored in a specific area on the left side of the brain. What is not so well known is that there is an equivalent area in the right half of the brain which is also involved with language. Both these areas are called the Wernicke's area.

According to Professor Julian Jaynes, lecturer in Psychology at Princeton University, up until around 3,000 years ago, mankind was basically not conscious as he is today. He did not think in terms of concepts, and he was not introspective (i.e. he did not 'turn inwards and think about himself').

Instead he operated with what is called a "bicameral mind". The bicameral mind was man's mind before he developed self consciousness. Early man did not make any decisions on his own. The concept of "self", of being independent and self-reliant, did not exist.

Whenever a decision had to be made, early man looked for a "sign" from an outside authority, such as a king or a god, to tell him what to do. For example, if he went along a road which divided into two roads, he might throw some stones into the air to see which way they fell, to tell him which road to take.

Other signs that early man used to determine what action he should take when he was faced with a decision were often "voices" which he heard in his head and which brought immediate obedience.

Experiments have shown that if the Wernicke's area in the left half of the brain is electrically stimulated during speech, it will interfere with the ability to talk properly, almost halting speech.

The same type of stimulation to the Wernicke's area in the right brain, however, causes a person to hear "voices" or "commands". These are usually of an authoritarian or dictatorial nature, and can be identified as the voice of one who was feared, admired or "looked up to" by the person being stimulated. We call these commands "Wernicke's commands", because they are commands stored in the Wernicke's area of the brain.

The two Wernicke's areas are connected to each other by a thin bridge of tissue. This is where the term "bicameral mind" comes from. It seems that the "voices of the gods" were in fact internal dialogue coming from the right half of the brain.

If mankind was to become civilised, this simple mind had to greatly improve and consciousness had to develop. However, the bicameral tendency is still present today! It is the bicameral mind, the right side of the Wernicke's area, which we "hear" when we hear those little words of self-invalidation and sabotage.

The 'authorities' who might have put commands into this mind are no longer "gods" - they are anyone that we might have looked up to at some time. These can include parents, teachers, peers, politicians, and doctors.

Have you ever been told to "grow up", "shut up", "eat up", "forget that" or "give up"? Have you ever been told "you're mad", "you're bad", "you're stupid" or "you'll never make it"?

If somebody you thought was powerful said "you're too fat", "you'll never change", "you'll forget", "you're a slow learner", "eat ALL your food", "you're not good enough", "strong enough", "pretty enough", "clever enough" "you'll go to hell" etc. etc. **then they may have made an 'entry' in your right Wernicke's area, an implanted command, which is still influencing you to this day!**

When people do any work or therapy to get rid of negative beliefs, the beliefs they try to get rid of things are usually worded as "I ..." eg. "I'm not good enough" or "I'm too fat". But "find the truth, and it will set you free". **These beliefs are not filed in the brain (which is like a super powerful computer) under an "I" point of view.** The commands are entered as said by another person, as if the person is right there, talking to you! For example, the belief may be "I'm no good" but the original command (which is stored in the brain) was "**You're no good**".

Normal kinesiology has a correction called a Goal Balance which is designed to get rid of negative beliefs. However, it often does not seem to work.

However, in 1996 Australian kinesiologist David Bridgman made an astounding discovery. He realised how to remove negative beliefs from the brain!

The key to removing these beliefs is that they are stored in the brain as though another person said them e.g. "You won't remember". The brain then tries to make sense of a command and translates it, for example, as "I won't remember". This command then interferes with the person. To get rid of the command you must find the EXACT wording of the command, which in this case is "You won't remember".^x

This specific kinesiology procedure enables a person to REMOVE the sabotaging commands from the brain. Instant improvement is generally noted in the person who has done this.

These commands are hidden in the brain a bit like the way that 'drop down menus' are hidden on the computer screen. Sometimes you can't see the menus, but they are still there. When you do the correct kinesiology procedure, the sabotaging commands "drop down" and then you can delete them. But they do not all appear at once. It can take a number of sessions to get rid of them.

This is a simple, revolutionary and very powerful procedure.

The key to doing these corrections successfully is to get the EXACT wording. Generally, throughout these sessions it would take up to seven attempts each time to get the precise wording. Mostly the correct wording would be found after two or three attempts. Throughout these sessions, I did not record our incorrect attempts to find the commands. Only the successful attempts were recorded.

To learn how to do the correction, go to Appendix VII.

Session 1: Remembrance of Mars

26th December 1996, Sydney Australia

As is always recommended with a new client, an 'interview' was first carried out. Michael had had sufficient food and sleep and no drugs or alcohol for at least a week. During an interview a client is asked a number of questions designed to flush out any problem areas in their present or past life.

The first questions such as "Tell me about important relationships? your mother? your father? Have you ever taken drugs? Tell me about your health? etc. ", did not produce any answers that would indicate difficulty in running sessions in the future. They also indicated that at that time there was not a lot of emotional charge for us to look at.

Throughout the interview the needle moved freely, indicating that he was not consciously hiding anything from me. To confirm this, the interview ended with a few questions such as "Is there anything that you cannot tell me?".

As requested, the session then changed to having a look at a time when he remembered seeing spaceships as a boy. Michael began to describe how he had what seemed like a dream at 8 or 9 years old. He said that it was late at night when he went outside. The meter began reading on his answers, so this line of questioning was continued. There were a number of people outside. They looked up and saw a rocket ship.

Stephanie told Michael to move to the start of the incident, which produced a long fall. Michael began to re-experience the incident. He walked through the sliding door. He looked up and saw a rocket ship, like a light house.

While looking at this incident, it seemed somehow to be associated with his time in the navy. Once he mentioned the navy, the needle showed that there was a lot of charge on this. I then got him to look at his time in the navy. He then became aware that some of his memories from a certain period in the navy seemed unreal – as though they had not really happened. I then asked him if he was "somewhere else" at this time. To his surprise, he realised that he was, in fact, somewhere else at this time. When I asked him where he was – to his amazement, the answer that came up was "Mars". The reads on the meter verified his answer

Subsequent sessions also supported this. As did his occasional sudden physical reactions to questions I asked him. In addition, Michael noted that during the sessions much physical pain in his lower back, spinal column, upper back, neck and head would appear during the session and be released by the end of the session.

The subsequent gradual improvement in Michael also supported the truth of the sessions. After a number of sessions, he had MUCH less anger than he did at the beginning, and became much easier for people to be around.

Further support of the truth of the sessions were large scars and red marks that appeared (See sessions 3, 30, 48 and 52)

The following notes take up after the interview. They are as near as possible a representation of what was said. However, it was not possible to record everything that happened in a session, so by necessity sometimes what was said is abbreviated. Generally, if Michael was talking and the meter was not reading, then what was said was recorded in note form only. However, nearly all 'reads', that is falls, long falls and changes in tone arm were recorded. Also, the exact words of anything which was said which produced an instant read were recorded, as near as possible.

Note: During the earlier sessions the notes are disjointed as it was not intended at that time that they be written up. Therefore what was said was not recorded as comprehensively as they were in later sessions when the importance of these sessions became apparent. Rather than try to remember what was said, only words that were actually written down have been recorded here.

The information that came up in these session was so incredible that at times I asked Michael if any of this came from a past life. He always answered that it did not. To date (2nd April 2000) he has never had any recollection or belief in past lives. At no time did I get any evidence that these memories came from a past life. We did get plenty of evidence that all of this happened in this life. For example, we got reads on dates within the last few decades. Also, a lot of what was said made sense in relation to his conscious memories of this life.

The fact that he drops from 4.2 to 3.4 in TA almost instantly, plus has his body shaking and jumping around, is EXTREMELY meaningful. Session 2: Killing with Remote Viewing

Reptilians live on many planets including Orion, as well as incredibly long caverns beneath our earth. Reptilians are generally highly intelligent, telepathic, cruel and controlling. They are able to leave their body and appear in a room as a disembodied spirit. Most people would describe reptilians as "aliens". However, because they have been on Earth as approximately as long as we have, they are as 'native' as we are. *In the later months of Michael's enlistment when we was serving aboard a Navy Aircraft carrier, there was a time when he was undergoing great personal family difficulties. He attempted to obtain help through the normal "chain of command", but was met with indifference and scorn.

He described feeling guilty about what subsequently happened as a result of this. During a confrontation with a superior officer, he lost his temper and “did something with his mind” to the officer. He described “reaching into his chest and squeezing his heart”. Michael remembered “stopping himself” and felt at the time that he could have killed the man immediately. He later found out that this officer retired several months later from the Navy due to heart problems.

Session 3: Battle in Space

18th January 1997

Summary: This session starts off by looking at a dream he had the night before. However, the 'dream' seemed to be a real incident involving aliens. Evidence for this was the appearance of a small triangular bruise on his arm. This was apparently as the result of the aliens taking a blood sample. These aliens were involved with the navy.

This session is confused at the beginning. I was unsure as to just how many incidents we were looking at. It seemed to have both 'good' and 'bad' guys in it. One job of a clearing practitioner is to keep the client on track and to not say anything that would cause them to go from one incident to another. However, often incidents occur in a chain. The client may go from incident to incident until he gets to the base of the chain. The base of the chain is usually an incident with physical pain.

When we did the session we eventually ended up with one good solid incident, where he had a crash in a space ship, so I was not concerned. In this incident he flew solo in a space ship when he encountered an enemy craft. Instead of fleeing he went for the craft. It fired a missile at him which did not explode his ship, but it did penetrate the ship and go through him. This caused incredible damage. He would have died had he not had a special suit which was programmed to administer emergency first aid.

Michael was promoted to being a Captain.

A long, straight scar appeared on his left arm after the incident. It was at least 12 inches long and ¼inch wide. It had all the appearances of a scar from a surgical operation. The night after the session the scar disappeared.

VERY SPECIAL NOTE:

After this session, Stephanie noticed a long scar on Michael's left arm, running down the outside from near the knuckle to within a few inches of the elbow. It was ¼ - ½inch wide. She asked Michael – “how did you get that scar?”. He replied “I don't have any scars.” She said “You do now”. Michael then went and looked at the scar in the mirror. Both people saw it, and even felt it. Like a normal scar, there were no hairs where the scar was. The scar could even be felt as a ridge on the skin. It was totally straight, and looked almost surgical. Michael was totally mystified by it, as he had never seen it before.

The next morning, the scar had gone.

It is probable that the scar was some type of cellular memory, that was reliving the incident described above.

Session 4: Drugs in Restimulation

2nd February 1997

Note: During this session, it was quite difficult to find out just what was going on. The answer for this became apparent when it was discovered that Michael had been given drugs. The drugs were in restimulation, making it difficult to put things in the correct time sequence.

Notes on various drugs used by aliens were available (see 'Blue Planet Project'). Muscle testing indicated that Michael had at some time been given the following alien drugs:

Hydronalynx – It is used for radiation poisoning. This was used in the crash.

Masiform DX – it is used as a stimulant. This was used for flying.

Melanexy – It is used is an anaesthetic (it works within 5-10 seconds). This was used in the crash.

Sterilex – This was used in the operation and in the crash suit.

A kinesiology balance was done to eliminate the effects of these drugs.

An attempt was then made to continue the session, as follows: <u>Move to the start of the tunnel incident</u>	4.7 5.2	
Departure point	SF 5.3 5.4

I get the idea that sometime people don't survive going through the tunnel.	5.7	
I can't think of anything		This comment was hardly surprising with a tone arm of 5.7!!! Which is roughly equivalent to having a head full of concrete. It was realised that Michael's body needed time to move the drugs out of his system.
<u>End of Session</u>		

Session 5: An Untimely Death on the Hills of Mars

9th February 1997

Summary: At the beginning of this session we were just hunting around. There was evidence in this session that Michael was at least partly influenced to enroll in going to Mars (and possibly in the Navy) due to a crystal that a military ear, nose and throat specialist inserted into him with a needle, when he was 18 years old.

Eventually the memory of an incident on Mars surfaced. In it he went rock climbing with his wife on Mars. They didn't have ropes and she slipped, fell and died.

<u>Now I want to run this incident through from her point of view. Be her. Move to the start of the incident, and being her, move through the incident telling me about it as you go.</u>	F,F	3.0	The reason for this is that many times the most amount of emotional charge does not come from the person in the session. It is generated by someone else in the incident. Getting the client to take another's point of view gets the charge off much quicker, and they usually get a much better idea of what is going on. Once they are told to 'be the other person' they access what that person is thinking and feeling.

Session 6: Booby Traps against Memory Recall I

9th March 1997

Summary: We first look at how Michael was age recessed by 20 years.

Then we discovered that Michael had been given 'booby traps'. These were commands in the brain to have fatal health problems should he regain his memories. We did not look for the booby traps in this session. However, we did find and remove commands that would STOP us from finding the booby traps. (Because once we found them, we could remove them. "The truth will set you free")

At the end of this session, Michael felt very happy. He also seemed much more open to new ideas. This was probably because commands such as "don't look there", "they don't exist" and "you can't see them" were found and removed when we did the Wernicke's Correction at the end of the session.

In addition, another improvement was noted. He used to cut his fingers when he worked on computers. After this session, he no longer cut his fingers when working on computers. This was probably due to getting rid of commands such as "these cannot be fixed", "they are protected", "they can't be removed" and "this is a permanent condition".

The session moved from here to removing sabotaging beliefs from his brain, by the Wernicke's Correction in kinesiology. These beliefs come from commands that are stored in the right Wernicke's area of the brain. They can have been put there either unintentionally (eg by a parent) or intentionally (eg by someone involved in mind control).

First I tested for the number of beliefs that would **stop us finding** any booby traps.

The body indicated that there were ten that were available to us to examine and remove at that time.

I then asked Michael what commands he had on file in his brain that were available to be removed. The key to doing this successfully is to get the EXACT wording. Generally, throughout these sessions it would take 0-7 attempts each time to get the precise wording. Mainly the correct wording would be found after 2 or 3 attempts. Throughout these sessions, I did not record our incorrect attempts to find the commands. Only the successful attempts were recorded.

Sometimes Michael would think of it - it just 'bubbles up'. Sometimes I would think of it - somehow, the wording would appear in my consciousness. Or I would hear the words in what Michael was saying. For example, if he said he 'couldn't think', the odds were that the next command to be found and removed was to do with thinking.

The commands were found to be, in the following order:

1. "Don't look there"
2. "You can't see them"
3. "They don't exist"
4. "They're somewhere else"
5. "They are protected"
6. "They are invisible"
7. "They are shielded"
8. "They can't be removed"
9. "This is a permanent condition"
10. "These cannot be fixed"

N.B.: It is particularly interesting to note here the order in which these commands were given. The first 3 are pretending that there is nothing to see. In the case of the next 4, it is as though you know that there is something to find but, you aren't to find them. The last three are assuming that you have found them, but that there is nothing that you can do about it.

IMPORTANT POINT! These commands that were given are GENERALISATIONS. They can affect the person in ALL walks of life. For example, before this session there were various subjects that I used to raise with Michael that he did not agree with. He used to argue with me so vehemently that I gave up trying to discuss them with him. After this session, while he still did not agree with me, for the first time he was able to comfortably listen to my point of view. This would have been because he was no longer being programmed by commands such "Don't look there", "You can't see them" and "They are protected".

Session 7: Ability Blocking Device

22nd March 1997

This session did not go well. It started with a high tone arm which then continued to rise, at least partly due to a mistake on my part at the start of the session, in trying something new. (A clearing practitioner should never change the process). I have added the only part of this session which made any real sense.

On looking back at these notes (on 22nd January 1998) I realise that the next process should have been another kinesiology session to locate Wernicke's commands that are the booby traps. That is, the commands to the body should the short circuits (which keep him forgetting) be discovered. I cannot account for or excuse myself for not realising this at the time. A possible explanation is that I became confused with the fact that there are ten booby traps PLUS ten commands to stop us finding the booby traps (which we had just found).

I think that I decided that it would be best to look at the whole incident a bit more to help uncover forgotten memories. But the best thing would be to have continued with the kinesiology Wernicke's process for a while.

Session 8: Remote Viewing on Mars

19th April 1997

Summary: I decided to treat the whole 20 years on Mars as one incident, so that we could run through it and see what came up. We learned various things about the Mars base, jump gates, the type of training he did and why he was able to do it. The session ended with him killing someone with his mind. When he remembered this, he began to have tears (most unusual for Michael). However, multiple viewpoint helped him to realise that this 'person' was an organic robot, and his tears dried up.

Session 10: Family Upset I

5th July 1997

This session was to handle an upset. The cause was linked with past family incidents and has not been included here.

Session 11: Pine Gap (Australia) Interference

25th July 1997

Summary: This session had nothing to do with Mars. It was held in Australia. In it we found that the day before some reptilians at Pine Gap, a military base in Australia, had put metaphysical 'hooks' into him, taking part of his mind and heart and keeping them at Pine Gap. This was so they could siphon off the energy and use it for barter.

The hook into me is like what they did to (anonymous male).		This refers to a story that I had told Michael. An 'Anonymous male' that I know had told me about a clearing session that he did in Queensland, with a biofeedback meter and a very good Clearing Practitioner. What came up was that that he was hooked into an alien device in the US Military underground bases at Pine Gap, in the centre of Australia. (Australians know nothing about what goes on at Pine Gap). This device was monitoring him.

Session 12: Family Upset II

24th August 1997, USA

This session was to handle an upset. The cause was linked with his family and has not been included here.

Session 13: Super Learning I

12th October 1997, USA

Summary: This session became necessary because Michael, who had been feeling very good in general, suddenly “felt as though he was being drained”.

We looked at a time on Mars when Michael was fed lots of information using wires placed on his head and drugs. We learn later (in Session 21) that a movie screen was used also.

Session 14: Super Learning II

20th December 1997

This session turned out to be a different incident from the previous session 13 although I was not aware of it at the time. On 23rd February (session 21) the mix up was sorted out. It turned out Session 13 describes an "orientation" training two weeks after arrival, which consisted of eight sessions in which he was force fed information.

This session, Session 14 describes a "job specific" training thirty days after arrival, consisting of 57 sessions where he was force-fed information using a movie screen and drugs. (Inconsistencies in the number of movie sessions would be due to my asking questions which could be considered ambiguous or because there was no real distinction between one series of movie education and another).

Session 15: Eight Years Old

17th January 1998

Summary: We located an incident, and then I asked if there was an 'earlier, similar' incident. By this method, we went down a chain of incidents in an effort to locate the base of the chain. The theory is that once you get rid of the charge of the base of a chain of incidents, the later incidents will also lose their charge.

Eventually we located an incident at eight years old, when 'they' started doing things to Michael. We also located evidence that Michael's involvement was caused in part by 'them' doing something to his father while he was in the Air Force in Las Vegas.

Session 17: 'Booby Traps' Against Remembering II

28th January 1998

This session was purely a kinesiology session, removing Wernicke's commands, which were 'booby traps' designed to affect him should the short circuits stopping him from remembering, be discovered and fixed.

It was found from muscle testing that there were ten commands. These were:

1. "Your heart will stop if you remember"
2. "Your brain will be damaged if you remember"
3. "You will have a stroke if you remember"

Then he started saying "nothing's coming to mind" which led to the discover of:

4. "Your mind will be erased if you remember"

He started feeling tired and couldn't think. I asked the body if there were drugs in restimulation. The body said yes. The drugs were balanced out.

5. "You'll lose your mind if you remember"
6. "You'll go insane if you remember"
7. "Your nervous system will shut down if you remember"
8. "You will forget everything if you remember"

He then thought the next command was "you'll die if you remember" but the actual wording turned out to be:

9. "You will be dead if you remember"
10. "You will not live if you remember"

He was questioned as to who gave him each of these commands as each one was discovered. All of these commands appeared to have been given to him by a doctor on Mars.

Session 18: Mind Control Commands I: Mind Control

7th February 1998

Michael had come a long way since the first session. Originally he was very much a loner. As the charge came off him, he became much more friendly and people began to warm to him, when previously many felt threatened by him.

In this session, various Wernicke's commands were discovered and removed, which would have helped to have kept him a loner. This session was done to see if there were any commands which would affect his love life. Surprisingly, the source of the commands did not come from parents or society or religion as it does for most people.

1. "Don't make love" (we didn't discover who gave him this command).
2. "You can't perform" (given by a doctor on Mars).
3. "No woman wants to have sex with you" (given by a doctor on Mars).
4. "You can't keep it up" (given by "The Controller" - the person in charge of monitoring him. At the time we didn't know what this meant. However, we later discovered a man called 'The Controller' in session 34. There may be more than one 'controller' but it is interesting never-the-less).

Here he got the realisation that they wanted him to love no one but them.

5. "You can't trust anyone" (given by the doctor on Mars).
6. "You have no friends"
7. "Women are sluts"
8. "You don't need anyone"

Session 19: Wernicke's Commands II: Health problems

8th February 1998

This session was another where we looked for Wernicke's commands. It was done to help Michael gain more energy, as he had been feeling quite tired, and had been having physical problems, such as pain in the legs. What came up were the usual kind of Wernicke's commands that you find on most people.

They are included here as a comparison, to show that not all the commands that were discovered came from people to do with Mars!

1. Coffee is poison (this command came from a book).
2. Soy milk gives you belly ache (this command came from a book).
3. You're weak-kneed (this command came from a physical education teacher at school).
4. You're deformed (this command came from a thought his father had at birth).
5. You're not my child (this command came from a thought his father had at birth – we have no idea why).
6. You won't live very long.

Session 20: Casualties of Mars

February 21st 1998

Summary: We have a further look at what was begun in Session 9. We see how he got from earth (at Great Lakes, Illinois) to Mars through a jump gate. We saw what happened on his arrival.

We learned that new recruits were given a drug to enhance their abilities. They were not warned that this drug could kill them. Three out of his group of fifteen died in the process.

He then got a general orientation of the base.

I am awakened at night.		
There are 2 people to a room.	F	
He tells me to follow them. I'm still sleepy.		
I go down the hall.	F	
We meet the officer. He tells us about the program.		
It's past midnight. Volunteers are asked for. I'm not given a chance to go back to my room. We're led down the hall. We're still in the barracks. We're led into a room. It's a camouflaged room - build to look something like a broom closet. There are steps into the underground area.		

Underneath the Great Lakes base, there is an entire underground area.	F,F	Note the reads
I don't remember anything.	F	
<u>Repeat " I don't remember anything".</u>

The tunnel.		
The base I'm to be assigned to is the Mars base.		
The way to get there is through the jump gate. It's like a tunnel through hyper-space.		
They give me scopolamine.	F	
I'm in the transmitting area.		
They give you scopolamine so you don't react badly, when you're in the tunnel, because it's very disorienting.		
I start to feel lethargic.	F	
We line up on a platform.	F	
Standing in front of the tube area. We get the order to walk into it.

I go to sleep.	3.9	
Nothing bad happens to me through that bit.	F	
I wake. I'm tired and hungry		
	F	
Someone comes in. Can tell they're watching. They say I can have anything I want.		
We go to the mess hall.	F	
It's not like a mess hall. It's very nice, almost like a restaurant.

I'm eating.	F	
I'm introduced to others in my group.	3.7	

	SF	
I'm told the real training starts in a week.	F	
It's mostly free time till then.		
I'm given a chance to make myself familiar with the base.	SF	
They show me the bank. I get the idea that the money is just for here. They show me the book stores, gym etc. like you're back on earth.	F	
I get eye tests, blood tests, urine tests, physical exams. It's basically a vacation.		
	F 3.6	
The week's over now.	F 4.0	
It's Saturday.	SF F/N	Note the floating needle. This indicates that we have removed most of the charge from this incident and there is not too much more that is both important and hidden.
I'm told to report to the doctor's office.	LF	
We're given military orientation about our jobs.		
	F 3.8	
I'm being told about the remote viewing, but I'm not told about taking drugs to enhance our abilities.		
I'm told some people won't make it.	F	Note the read
They say it's nothing to be ashamed of - they'll be reassigned.		
They don't tell us what happens to those who don't make it.	F	Note the read

Scopolamine stops me from being harmed by the other drug. It works for me. Other people fry - their brains are damaged.		
I still feel that pressure in my forehead.	F	
I'm being monitored. Electrodes on my head and neck, to monitor the progress of the treatments.	F,LF,F F/N	
I'm this way for 3 hours.		
It's boring.	LF	
My body's not tired at all, but I can't move.	3.6	
At the end of the 3 hours I'm not so tired. The name of the chemical is something like Tripazedine or Tripazidide.		
They don't let me go to sleep during the treatment. It's really boring. They watch me.		
<u>Are there others that don't make it?</u>	F

<u>Move to the start of the incident. Move through it telling me about it as you go.</u>		
I'm awakened. I follow the guy.	F/N 3.7	
All the others say 'yes'.		
<u>Are you surprised when they tell you it's on Mars?</u>		
I'm not told. They tell us that just before I get the scopolamine. I agree to go.		
In the underground we're told a bit more. Very general things. It's very hush, hush. It's many levels above top secret. Special training. Special duties. Vital to national security. Fast promotion. Extra pay.	3.9	We often wonder – what happened to the extra pay? How does he get the pension he deserves after working for over 20 years for the military?
We all volunteer. It's not till a few hours later they tell us more about Mars. The fact that we've been chosen overshadows everything. It's like a James Bond movie.	F	

We're sworn in. It's a different type of military. A new organisation.		
What is it's name?		
M.D.F. Mars Defense Force

They give us some personal items, and a back pack. All the clothing is synthetic. It's to do with the fibres that can clog air filters.		3.7

They give us a shot with a gun, not a needle.	F/N	3.3

I'm given a dorm room.		
The first phase is the sensitivity phase. Once a day for 8 days.	F/N	3.2
<u>How do you feel?</u>		
Fine		3.0
<u>End of session</u>		We are starting to get floating needles and a good range of TA through this incident. It is probably close to being erased.

It is interesting to note that the first time this incident was looked at in Session 9, 8th June 1997 the tone arm was quite high, ranging from 5.5 to a low of 4.2 at the end of the session. People feel a bit like a 'block of concrete' when the tone arm is as high as 5.5. The second time this incident was looked at the tone arm was much lower, with a high of 4.2 and ending at its lowest at 3.0.

Session 21: 'Super Learning' III

February 23rd 1998

Summary: We looked again at session 13, the first time he was force-fed information at super-speed, using wires on his head, a movie screen and drugs. We also looked at session 14 which was the second series of trainings where he was force-fed information using a movie screen and drugs.

Session 22: Machines Amplify Abilities

21st March 1998

The initial upset was something to do with a lawyer he was dealing with at the time. Then an incident to do with Mars came up. There was a machine, which was attached to his head, which amplified his abilities. There was a lot of charge associated with this machine. Eventually he saw a "red dot" which he tried to concentrate on. We ended the session before it was complete.

<u>Start of session</u>		
<u>Move to the incident we looked at last night. Is that incident erased⁹?</u>		
Yes	F	

In actual fact, it probably wasn't erased¹⁰, because we still didn't know exactly what happened. I shouldn't even have asked him this question! I should have put him through the incident again. I feel that the read I got here is because Michael did not fully understand what it meant to have an incident 'erased'.

Note that the next two sessions (24 & 25) had high TA. This was probably due to charge left over from session 22. The incident was no doubt still in restimulation. I failed to go over it again and complete it in this session! This is why it is essential to keep good records and continually monitor them – especially before starting a new session!

The fact that charge does not 'just vanish' or 'go away', especially once it has been restimulated, is shown by the fact that the incident with the 'red dot'/red thing' from session 22 resurfaced in session 26.

¹⁰ Erased; ALL of the charge has been removed from the incident. In addition, all of the important pieces of information of the incident have been remembered. Ref: Hubbard, Ron. **Dianetics & Scientology Technical Dictionary**. 1975. Church of Scientology of California.

Session 24: Airport Incident

28th April 1998

Not recorded, as not relevant and tone arm too high. To do with incident at the airport.

Session 25: Suppressing Metaphysical Abilities

August 1998

This was a very confused session, with fairly high tone arm which never really came down. This was no doubt because I should have continued with the incident with the 'red dot' (Session 22). However, we got rid of some charge in this session, and got some interesting realisations at the end.

Session 26: Homestead Airforce Base USA

1st August 1998

Summary: The incident with the 'red dot' (from Session 22) resurfaced by itself, with no help from me! It appeared that this incident happened when he was seventeen years old and went to apply for a scholarship with the airforce. He went to Homestead Airforce Base in Miami Florida, and spent a night there. (He did not receive the scholarship and four years later joined the Navy).

This session shows that that night they did tests on him. Then they gave him many commands to stop him remembering, or to make him think he had imagined it if he did remember.

Session 27: Remote Viewing Practice

2nd August 1998, Indianapolis Indiana, USA

This incident was simply a remote viewing session - a look at a strange man who approached Michael at dinner at a restaurant in Indianapolis. Four of us were eating at a table outside the restaurant building, facing the carpark.

It was quite weird. The man seemed quite normal, was dressed conservatively in a suit and appeared to be in his late 50s. He came right up to Michael, ignored the rest of us, and said in a really casual manner as though he didn't care about the answer 'Hi, how are you?' and then said immediately after with a lot of intention "What do you do? Are you a lawyer?"

Later, when Michael and I did a session on this incident using the biofeedback meter to see if we could find out what was going on, it appeared that this man was retired and had no direct interest in the restaurant, but routinely spied on the restaurant for the government. He knew one of the men we were eating with, and was interested in our conversation. Basically, his part time job was so boring that the kind of conversation we were having was enough to stir his interest and make him want to know more about Michael.

Session 28: Zero Time Reference Point

26th September 1998

Kinesiology session: An experiment in anti aging to see what will happen when we move zero time reference points forward by twenty years.

I got the idea to do this from something I read by Al Bielek. In one of his talks Bielek said that we age because we are programmed to age. And the body knows how old we are because we get what is called a 'zero time reference point' at conception. This keeps us anchored to this time frame.

I hypothesised that, using a kinesiology goal balance, I could move the zero time reference point forward by twenty years, which should at least reduce aging, if not reverse it. (After all, age is not the only determining factor of how 'old' we look and feel. Diet, stress etc. are also factors. There are a number of twenty year olds who look forty and vice versa).

Chapter 29: An 'Impossible' Message from the Internet

26th September 1998, Indianapolis IN USA

During a 2-3 hour internet search session, while researching time travel, an unusual thing happened to Michael. He was using Altavista as a search engine and he found an interesting site, which was in Germany. After he clicked on the URL (the underlined name of the site and its address) so that he could visit it, the screen returned with an almost blank screen (not a webpage). The blank screen had the message:

“Longjump botch
Abort trap”

At the upper left corner.

Michael printed this out. It included the exact URL (webpage address) of the webpage he had been attempting to visit.

Michael then clicked 'back' to get back to the Altavista screen again. He then re-clicked on the same webpage URL he had just tried to visit. This time the real website appeared with the real article on cold fission.

Apparently this was “impossible”, according to how the internet is supposed to work. In other words, Michael's request for the document was intercepted by a third party.

Session 30: Scars Appear Overnight

7th October 1998, Indianapolis IN USA

This session was done to find out what happened on the night of Saturday 3^d October 1998. The morning after that night, Michael woke up and showered. He then noticed two scars, each approximately 3.5 inches long on each side of his groin area. The scar on the right side of the groin area had a dark purple-ish triangular mark at the upper end of the scar. The triangular mark was about 1/4 inch long. It had dark indentations at each corner of the triangle. The purple mark went away after a few days but the scars remained and still remained 4 months later. They were photographed 2 months after they appeared, when they were virtually as clear as when they first appeared.

Michael felt that there had been some change made in his reproductive area.

It may or may not be significant that the day before these scars appeared, Michael had an intensive treatment with Young Living Essential Oils ('Raindrop Therapy') which are meant to be 100% pure and are placed directly on the skin. This produced a bright red spot about 3 inches wide where the implant at the back of his neck was thought to be. It was theorised that this may have affected the implant, and that the 'visit' described next was at least partly to repair the damage, but we don't know this.

In this session, Michael remembered a portal opening in his bedroom at night. Two people took him through to what looked like a hospital, where work was done on him. All of the beings there, except for one, were human.

<u>End of session</u>		We don't finish with a floating needle, so will have to look at this incident again in the future.

Important Note: I was surprised that this incident happened. After all the work we had done, I would have thought that Michael was finally free from any further involvement. But then I realised that he hadn't officially resigned. He hadn't officially 'left' the 'game' of 'Mars & the Military'.

Therefore I instructed Michael to do the following. He said **out loud** something along the lines of:

"I now resign from anything to do with the Mars Defence Force.
I now resign from anything to do with the military.
I now leave that game.
In the name of Jesus Christ, I am now free of all people connected in any way to do with Mars."

Note: This incident was looked at again in Session 37.

Session 31: Wernicke's Commands III: From the Military

24th October 1998

Only kinesiology (the Wernicke's Correction) was done in this session. Michael had been feeling EXTREMELY tired and unbalanced. He had watched a tape of a presentation given by Al Bielek (of the Philadelphia Experiment), and then slept from 8.30-11.00 pm.

11.00 pm. Michael was out of balance (Centring was out - the hyoid). The following twelve Wernicke's commands to do with personality were removed with EYES CLOSED. All commands were given by "a military man".

1. "Go to sleep"
2. "You won't remember"
3. "You will comply"
4. "Obey immediately"
5. "Tell no one"
6. "You have nothing to fear"
7. "We'll take care of you"
8. "Just relax"
9. "You're the cream of the crop"

I had been reading books by people who had discovered that they had compartmentalised personalities, which had been deliberately created by other people who were often associated with the government. In this session I got the idea to test if Michael had this also. I got that he did, in fact, have other personalities which were not present in normal every-day life, but which were activated and used by the military.

I tested to see if any of these personalities had their own Wernicke's commands, and got several -

10. "This is for Michael No. 2"
11. "Michael No. 2 will forget"
12. "Michael No. 2 will obey"

This aspect of compartmentalised personalities was looked at further in Session 34.

After the session Michael remembered a time when he had been VERY restimulated (angry etc.) immediately after making a phone call to a government office about a normal day-to-day inquiry, where he spoke to an answering machine only.

He then remembered a time the previous year when he had been alone late at night sleeping. The phone rang. He answered the phone which meant he had to get out of bed and walk down a long hallway to answer the phone. But try as he might, he couldn't remember talking to anyone!

This relates back to something that was said in Session 5, 9th February 1997, where he gathered that he 'reported in' using the phone 'in his sleep'.

Session 32: Energy Medicine Session

By Amelia Woodward

30th October 1998

Summary: This session was done by a practitioner of energy medicine. This practitioner had not had access to the written transcripts of these sessions at the time of writing this.

(by Stephanie Relfe): Much of what came up in this session would indicate reasons why we had a needle which 'rock slammed' for such a long time in the last session.

In this session, many types of advanced technology were removed which were controlling Michael. For example, it made him psychically attack others which helped to keep him apart from others who might help him. It also made it easier for the people behind the technology to get him to do what they wanted. The technology also prevented him from seeing the truth.

Michael also had had various 'soul parts' removed and stored, for control and so he could be located. The practitioner went as a spirit to get them back. They were stored in a vast hangar where many soul parts of many people were stored in jars. There were jars as far as the eye could see in every direction.

There was also an 'energy clone' which 'filled' into Michael's body so that it could take him over on occasion.

The Session, by Amelia Woodward:

Met Michael. My body was very reluctant to approach him. I had not felt well since arriving in the area ten days before and at first I thought perhaps that was all it was. Later I realised he was giving off a very harsh vibration.

Stephanie told me it was in his reality and he was seeking answers for certain issues. I told him what I had picked up at the time which was:

- a) He had an inorganic transmitter connected to his third eye and pineal gland, also involving some of the hypoglossal region. This was giving out a signal that was in the radio band and not the mental band. It appeared to be in the shortwave band region but I could not guarantee that.

- b) He had a phase disruptor also located in his third eye.

A Note on Phase Disruptors:

This is my name for a piece of alien technology that acts as an energetic scrambler. In clearing terms it causes continuous ARC breaks¹¹ energetically. It seems to operate, as far as I can tell (I'm no technician) by creating and breaking resonance in an erratic, random, forceful and rapid manner. It has usually two functions:

- 1) To prevent anyone using their meta-abilities to perceive the other person clearly. It will throw off anyone's energy in an unpleasant manner, possibly doing damage to the person's chakras or energy in the process.

In the case of someone like Michael the severity of the case was worsened by a projection capacity of the disruptor, i.e. when triggered the phase disruptor could project a 'phase shock', scrambling someone's energies and not just when they reach for Michael but, for example, whenever Michael was the least bit angry, wherever he turned his third eye would experience a 'phase shock'. This function is primarily designed, I would assume, to prevent the person from receiving help. Anyone subject to such an attack would usually assume the other person was psychically attacking them and therefore clearly not desirous of help and they would back off.

- 2) To prevent the person themselves from perceiving things with any great clarity. The Truth, it is said, will set you free. If people with meta-abilities could perceive the 'space junk' they had 'on' them they would remove it promptly. Therefore they need to be prevented from using their abilities in any way not desired by those 'in control'.

The effect of having these two devices in his head made Michael energetically very unpleasant to be around.

¹¹ ARC Break. A sudden dropping of one's affinity, reality or communication. This causes the person's spiritual space to reduce in size, thereby causing an upset. Most upsets are caused by ARC breaks. From "The Language of Miracles". Lawrence West & Jane Taylor-West. Reproduced for the benefit of the Free Zone by the New Bridge Supply Company.

Their origin appeared to be some project he had been connected with in the past and those in charge wished to keep control and use him as a meta-resource. Using these devices meant he would have continued to be controllable and locatable. On closer 'viewing' there appeared to be another device connected with more complete control.

I made the following tests:

1. From what I could perceive the device acted as a receiver for a specific telepathic code (which I naturally did not know). When this code was received changes would take place ensuring Michael's complete compliance.

The first test was: I asked Michael to be aware and see if he could feel anything. Then I 'leaned' gently on the device (that was all I was prepared to do not knowing what would happen if I was more forceful).

Michael did not know what I was doing but he immediately felt a pressure/pain in his crown chakra.

2. The following evening Michael, Stephanie and I were at a fair. At one point, Stephanie and I had been waiting for Michael who was at a booth and in view. Stephanie suggested we 'coerce' him to come join us. Usual coercion does not work that well on Michael and it didn't appear to be working any better that time. So I routed the coercion through the device in this third eye, at which point he came immediately.

(Obviously these are not thorough clinical tests but that was not the objective - mostly I was trying to get past the phase disruptor to see what was going on).

Interestingly, Michael was having some success at keeping the phase disrupter, if not inactive, at least muted.

1/11/98 I performed 2 sessions on Michael:

10 am - 12 noon. 1st session

- a) I firstly had to deactivate the phase disrupter. This was harder than others I have done as it was tied into the transmitter and so carried more mass. The fact that Michael had managed to 'mute' it made all the difference.

Once this was done I could see more clearly what else was there.

- b) The transmitter was being powered primarily by 'space junk' circuitry that rerouted his kundalini energy. I have often found this to be the case. I assume the aliens use this design because:
- i) It is efficient. There is no need to put in heavy power packs (which I have seen) which are -
 - ii) often painful to the subject and so carry a greater toll in health and thus a higher risk of detection
 - iii) the drain of the person's own energy is a further suppression of their meta-abilities which makes them easier to control.

I asked Michael to move onto his stomach so I could begin to remove the 'wiring'. This was not like anything I had seen to date. It was both more primitive (indicating some human involvement - it was their style) and more complicated. While I had not found any booby-traps I was very cautious. At that moment I estimated it would take me sixteen hours to clear the mess. This was how thorough the implanting had been.

- c) On removing the first couple of wires I realised from the degree and type of resistance that some of the wiring was conscious. This, in my experience, is 'Grey' technology. They take a little entity and abuse it until they can program it into being a wire - so if the circuitry is in any way damaged the little being will repair it. It is their game. This is a very horrid thing to do. It is like abusing children to make them angry so you can use them as shock troops. These beings are usually very angry - perhaps explaining why the phase disrupter would kick in with any kind of anger from Michael.

I cleaned up the being and sent 'him' on 'his' way. When the area cleared I realised there was a blank spot there. Michael reported it felt hollow (the area this first being was removed from was behind his left ear).

- d) It was clear Michael had had several soul parts removed. This is often done to:
- i) ensure control. By controlling the soul part the subject can be controlled.
 - ii) ensure the ability to locate. If the subject gets lost they can be found again through soul resonance.

The missing soul parts had to be retrieved. The first was routine. It was in a dark old storeroom somewhere with only three other soul parts stored there. These were all released.

- e) The second part was not routine. This part had been turned into a 'wire' and placed (with, I gather, full cooperation) into the head of Michael's control. This is the telepath who is responsible for placing the command into Michael's head. This was part of the great redundancy seen here. Clearly 'they' wished to keep a hold on Michael. They had several ways to track him, in case several others failed.

The control was reluctant to let this part go and resisted strongly. In the end he had to be rendered telepathically unconscious to allow this to occur. The part was then 'cleaned up' and returned.

- f) The third part brought me to a place I had never seen before. It appeared to be a VAST hangar or cavern with bell jars - or stasis jars - as far as the eye could see in all directions. And in each jar was a soul part. All of these were released.

At this point I realised one of the parts released had belonged to Michael's wife. I assume they had taken this to ensure yet another way to find Michael. Her soul part was returned, as was Michael's. The destruction of this facility seemed to cause considerable consternation and activity.

- g) The fourth, and for this session, final part was something I had also never seen before. It was an 'energy' clone! In order to create this they had removed half of Michael's etheric and half of his astral bodies (which explained why these bodies were weak and he had little physical energy). To these bodies they had added their own designs and circuits, married to the circuits in Michael's body.

The purpose of the energy clone is to 'fit' into Michael and assume control making him into a kind of temporary robot. They did not take any of the emotional or mental bodies because, I assume, they have no use for a robot who can think and/or feel.

Along with Michael's clone there were six others. There was also an empty unit which meant the original squad numbered eight but one had apparently died.

All the energy clones were released, though this was difficult as they were all thoroughly programmed. The energy bodies were cleaned up and Michael's were returned to him. At this point he reported feeling tingling down his left leg and right hand and a general sense of feeling lighter. Returning these energy bodies and clearing the energy clone cleared most of the circuitry from Michael's spine.

I completed the integration of these bodies and that completed the first session. We broke for lunch. Stephanie noted that Michael looked much younger and lighter.

1pm - 2pm. 2nd session

I still had to deal with the rest of the 'junk' in his head. After lunch Michael had reported a sharp pain in his left temple. This appeared to be someone trying to give a recall signal and partially activating some remaining space junk. I was able to turn it off and the pain vanished immediately.

At this time, as far as I could see, they were not yet aware of Michael's 'escape' but were assessing the damage - but it indicated to me that Michael was still 'in the system'.

- a) I firstly removed the remainder of the energy associated with the transmitter. While I was working Michael reported pain behind his eyes but this vanished as I completed the work. Some of the technology seemed to indicate a third party - neither human or Grey - but I am unsure whose technology it was.
- b) Next I worked on removing lots of entities from his sex chakra and his coccyx. It was clear he had been 'loaned' to a Grey genetics program; presumably because of his having the genetics for metaphysical abilities.

It appeared that his testicles had been sampled and a 'power pack' had been placed behind the right testicle to further feed the control devices in his head.

- c) Another soul part had to be retrieved at this point. During the last session it had become clear that Michael was stored in their system as a code MI5.6784-972(?). I'm sure of the first three symbols (MI5) but not sure of the rest of the code.
- d) The Greys were using the same code. This gave my 'friends' the opportunity to do something about Michael being in the system. A virus was introduced into their system - one which would be activated by Michael's code and would therefore crash any part of the system where his name etc. were recorded.

- e) Having cleared the spine and the base chakra the kundalini energy could be re-established. I started it running and repaired the atrophied nadi's¹² so it would run clearly. Michael reported tingling up his back and in his legs.
- f) More entities were released from the sex chakra.

This was the end of the second session

NOTES:

Michael has a good chance of making a clean break. However, due diligence is called for. He needs to learn how to maintain watch over his space and energy.

To maintain himself he needs to check his chakras at least once a week for other 'space junk' (on the biofeedback meter).

He also needs to establish his own intergalactic game and find allies in order to be safer in the game.

Ultimately, and most importantly, he needs to get control of his abilities (completion and space drills).

If he does these things he now has the chance to create his own game. If he does not he risks 'them' re-establishing control at some point in the future.

An interesting point:

I felt much better from the moment I finished working on Michael.

Session 33: Buffalo Bill's Casino, Las Vegas

17th November 1998

(These notes are again by Stephanie Relfe)

As rock slams had been appearing in sessions, I checked the leads on the cans. They had become frayed on one can. Both cans were completely rewired just before this session, to ensure that any rock slams were real and not the result of improper wiring.

However, the rock slams continued after this. Further evidence that the rock slams in the next session were real was given by the fact that they came and went in a manner that made sense when referenced to what was asked and what was answered.

Summary: We started with a rock slam. We finally tracked the cause of this to changes been made to his "filing clerk", which would have prevented any future clearing.

Then he got the realisation that things happened to him when he went to Buffalo Bill's casino/hotel, forty miles outside Las Vegas, on the Nevada / California stateline. When he went to sleep the phone rang, and when he answered it something happened which changed him. A man then knocked on his door, and Michael went with him, into a car and to the jail behind Buffalo Bill's !!!

This session accounted for why he always had a GREAT fondness for Buffalo Bill's – even though he never gambled or drank alcohol! I had always wondered about this. He was so keen on Buffalo Bill's that he insisted on taking me there as part of our honeymoon immediately after we landed in the USA – even though I could not possibly imagine why either of us would want to go there.

Session 34: Compartmentalised personalities

18th November 1998

Summary: We started off trying to have another look at session 33, the incident at Buffalo Bill's. We got a rock slam which appears to be caused by a reptilian presence in the room. We sent it on its way. The needle then started behaving as normal. Then another set of rock slams appeared. We ran the incident from the point of view of 'the Controller' – the man who picked up Michael in the car. This finally got rid of the rock slam. Then Michael got angry. The anger came from a group of memories belonging to many people. The memories were forcefully stored in a box.

We then found that Michael had different memories which had been compartmentalised in his brain. There were four 'Michaels'. He operated normally as Michael 1. The other 'Michaels' were where his abilities, such as remote viewing, were stored.

Session 35: Drugs and Reptilian Doctors

21st November 1998

Summary: We continued with the line of questioning from the last session, and found what abilities and memories were stored in the other 3 compartments of Michael's mind. Then we got an incident, in 1988 in Kansas City, where he lived in 1988 a few years after he left the navy.

We got that he was operated on by a doctor who appeared to be human but was in fact a reptilian who had "contempt for humans" because he believed "they are easy to fool". He does not consciously remember ever having had an operation, or even having the need for an operation.

Session 36: Missouri and Reptilians

25th January 1999

Summary: We both went on a trip to Missouri, where we looked at some properties near Willow Springs which had some caves on them. We both afterwards got food poisoning on the way home.

We still felt bad about Missouri days later, even when the food poisoning was healed. This session looked at the reasons for that. It ended a floating needle, very good indicators and a TA of 3.9.

But then a rock slam appeared. I am including the second part of this session because it is involved an attempt at an 'energy abduction' by some reptilians.

An interesting addition to this story. I felt very sick several days after visiting Missouri. Somehow I got that it was still to do with Missouri. I had a lot of mud on my shoes from a cave we had visited. As soon as I hosed all of the mud off my shoes, I instantly got better.

End of the first part of the session	F/N VGI 3.9	
(Michael starts talking about the fact that he always had a yearning to visit Willow Springs Missouri)	R/S	Suddenly a rock slam appears when Michael talks about a desire he has always had to visit this place, indicating that there is more to this desire than meets the eye

It's not accomplishing what it is meant to		This would be due to a number of things. Firstly, Michael is now aware of the kind of things that have been done to him. Session 37: A Blinding Headache

27th January 1999

Note: Michael had a blinding headache for two days before this session, despite taking Veganin, a painkiller with codeine. (He is normally headache-free). This pain went away straight after this session.

He also had a pain in the neck, which went away after the session and after some kinesiology where we found a Wernicke's command - "that's a pain in the neck" which came from his mother.

Summary: This is a continuation of the incident that was looked at in Session 30. Michael's nose, neck and groin were operated on in 1998. (This is not an operation that he consciously recalls ever having been done).

It is this incident that caused the scars to appear on his groin after a night's sleep.

I also balanced out 2 drugs.

Session 39: Wernicke's Commands IV: Cause of Pain

12th June 1999

Michael had a splitting headache. When tested with muscle testing, his cloacals^{14, xiii} were out of balance. Muscle testing indicated the cause was two Wernicke's commands which were:

"You will forget"

"You will obey"

Once these two commands were removed, his cloacals were automatically back in balance, without needing any correction.

His headache went down from 120% to 30% pain level, immediately after the session. He was perfectly better within an hour or two.

¹⁴ Cloacals. An electrical system not known by contemporary medicine. They regulate almost all of the body's systems. People tend to feel a lot more emotional and suffer many more health problems when their Cloacals are out of balance. It takes a major stress to knock the Cloacals out of balance. They are taught as one of the corrections in Applied Kinesiology. For more information, see "The Cloacals" in the Appendix VIII.

Session 41: 'Abduction' to Homestead Airforce Base

15th August 1999

Summary: Michael was 'abducted' again on 9th July 1999. I put 'abduction' in inverted commas because he went willingly with them, when they appeared in his room after walking through a portal. What made him go willingly with them was that they had a secret password which activated compartmentalised personalities.

Session 42: Kinesiology for Teeth

17th, 21st & 27th August 1999

Michael had a lot of pain in one of his teeth, on which a crown had been put recently. He was worried that he might have to get a root canal. Three different kinesiology sessions were done, to see if mind over matter could heal his teeth. In the end, he still needed to go back to the dentist.

The sessions uncovered a number of Wernicke's commands related to dentists and his teeth, some of which came from people in his family.

Session 43: Wernicke's Commands V: Metaphysical Abilities

29th August 1999 am

During all the work we were doing to try to heal Michael's teeth, I noticed that he was very reluctant to use any metaphysical abilities to heal himself. I told Michael that we would do a kinesiology session to find any Wernicke's commands that were stopping him from getting his abilities back. As soon as I told him this, he got VERY tired.

I asked the body with muscle testing if there were any Wernicke's commands that were preventing Michael from getting his abilities back. The answer that I got was that there were ten on file that were at that time available for us to remove. They all came from a doctor on Mars. They were -

1. "You don't know"
2. "You have no metaphysical abilities"
3. "You're off line"
4. "You have abilities when we order"
5. "Your abilities are shut down"
6. "Your abilities are activated by a password"
7. "Forget the training"
8. "You're a non-psychic person" (he started to get a headache at this point)
9. "Psychic phenomena is off limits"
10. "Psychics are off limits"

He still had a headache at this point. I mentioned that it was probably coming from the fact that he was probably given electric shocks when they gave him these commands. His whole body jumped when I said this.

I then did Emotional Stress Release, while he thought of times when he had received electric shocks.

Afterwards he felt a lot lighter, and his headache receded.

Session 44: Wernicke's Commands VI: Theta Levels

29th August 1999 pm

A year previously Michael had made a CD designed to move a person's brainwaves down into Alpha and then into Theta. Strangely, he had never used it himself.

I encouraged him to do a guided visualisation, using the CD, to heal his teeth. When he listened to the CD and tried to go into Theta he got very frustrated and angry at me. He did not look like people normally do when they go into Alpha and Theta!!!

So I tested to see if there were any Wernicke's commands preventing him from going Alpha or Theta.

Again, we got that there were ten commands that were available for us to remove.

Again they came from someone on Mars. They were -

1. "Alpha levels are offline"
2. "Theta levels are offline"
3. "Delta levels are offline"
4. "Don't go into Alpha levels"
5. "Don't go into Theta levels" (He could really feel the stress on this one)
6. "Stay in Beta" (he said that this one really hurt)
7. "Maintain Beta level"
8. "Avoid Theta level"
9. "Disrupt Theta level"
10. "Forget your Theta training"

After this Michael said that his mind felt bigger, except when he sat at the computer.

We tried again to get him to listen to the Theta CD. This time he was not frustrated or angry. He was fairly calm and relaxed (as he should be!). However, at the end of the CD, he immediately got a super headache.

He said that he thought now that there also may be commands stopping him from remote viewing. I had been thinking the same. He had been very interested in remote viewing for three or four years, but had always found a reason why he could not attend a remote viewing seminar.

I felt that the headache was due to the fact that he was in 'mid-process'. That is, we had opened a can of worms and had not yet got to the bottom of the can. We continued looking the next day.

Session 45: Blocks to Remote Viewing

30th August 1999

I muscle tested to see how many Wernicke's commands were stopping Michael from doing remote viewing, that were available to be removed. I got that there were ten (again!!!). Again they came from people from the military. They were as follows -

1. "Remote viewing is forbidden"
2. "Avoid remote viewing"
3. "Forget your remote viewing training"
4. "Remote viewing won't work" (he said that his eyes and head were hurting when I did the corrections to remove these)
5. "Remote viewing is off line"
6. "Forget remote viewing"
7. "You can't do remote viewing"
8. "You can't remote view on your own"
9. "You can no longer remote view"
10. "Forget remote viewing protocols"

After we got rid of these, he was able to listen to the Theta CD without getting a headache.

Session 46: Wernicke's Commands VIII: Sex

7th September 1999, Dallas Texas, USA

Michael had a big headache. When I tested him, it was found that his cloacals were out of balance. Muscle testing showed that the cause of this was ten Wernicke's commands. (There's that number ten again!). They were all related to sex. We had made love the night before. Michael had complained a number of times that he would like to have a higher sex drive. He was very healthy, and able to perform perfectly well in bed. The Wernicke's commands which we found were related to this.

We assume that part of the purpose of this was so that Michael would conserve his sperm, so that it could be harvested later by the people who were taking him.

The Wernicke's commands were as follows -

1. "Your sex drive is diminished"
2. "Sex is off limits"
3. "Sex drains you" (When we got rid of this one, Michael said that doing this hurt - it felt like something was being ripped out of his head)
4. "Sex has no interest to you"
5. "No masturbation" (Apparently he was never interested in masturbating either)
6. "No sexual thoughts"
7. "Women don't excite you" (although he is totally heterosexual)
8. "Women don't interest you"
9. "Conserve your semen"
10. "Sex is off limits"

As soon as we got rid of these commands, his cloacals were back in balance without having to do a correction, and his headache went instantly.

A memory block		

We stopped the session here to look for Wernicke's commands. Sure enough, muscle testing indicated there were ten available to be removed.¹⁵ They were -

1. "You'll never remember this" (doctor)
2. "You have no memory"
3. "Your memory is offline"
4. "Total recall is off"
5. "Your photographic memory is deactivated"
6. "Your memory is scrambled"
7. "This is not happening"
8. "Mind control is deactivated" (presumably that can always re-activate it later)
9. "All alternate personalities are deactivated" (while looking for this one we tried this sentence without the word 'all' but that didn't work)

I then put Michael back on the cans but we still got nowhere. Finding and getting rid of even a few Wernicke's commands can be VERY exhausting. (After all, the brain - the biocomputer - has to process almost every sentence it has ever heard in it's life to find the exact sentence). As he said, he felt 'fried'.

¹⁵ My apologies. While proof reading this document, I realised that I had left out one of the Wernicke's Commands. However, at the time of publication my original notes were in storage and unavailable to me.

Session 48: 'Abduction' in Dallas

November 7 1999, Dallas Texas, USA

Summary: This session was to find out what, if anything, happened on an earlier night when Michael had woken up feeling that something had happened in the night, and he had a small red circular mark on the back of his neck – about ¼ in diameter. (This mark appeared again in sessions 52 and 53). He described being 'abducted'.

Chapter 49: A Strange Accident – or not?

12th November 1999

This wasn't a real session. It is a story of what happened to us in case it has any bearing on this story.

Michael and I were living in Dallas Texas when we decided to move back to Australia. We began to pack and on Wednesday 10th November made a booking on a plane which would leave for Sydney in two weeks' time.

Before we left we needed to store some furniture in Florida. On Friday 12th November we set off for Florida. That night we had an accident which we are not totally sure was a genuine 'accident'.

Michael drove a 17 foot 'U'Haul' Moving Truck, plus he was pulling a trailer on which was our red Toyota pick-up truck. I drove behind in our grey Toyota Four-Runner. The whole of the journey was on flat, straight highways.

On Friday afternoon we stopped at a gas station in Louisiana, and got out some blankets and had a short nap under some trees. When we drove off we were on a double-lane highway. About five minutes after we left the station we had a Louisiana State Police car following us. This was not unusual, although it had never happened to me in two years in America. What was unusual was that the car stayed in the other lane, directly behind me, for what seemed like ages, and was probably 10- 15 minutes. I kept checking the speed. We were doing only 55 mph in a 70 mph zone. Other cars kept overtaking all of us.

I couldn't see into the Police car. I have always quite liked and got on well with police officers – even when they give me speeding tickets. I certainly have never had a guilty conscience when they are around. But there was something about this police car that made me keep looking in the mirror and even turn around to figure out what this guy was up to. He stuck to us SO perfectly. The windows were dark and so I couldn't see into the car.

Suddenly he sped off. As he did so, I heard a big 'bang'. Michael began to slow down and pull over. I found out then what had happened.

Michael had noticed that the brake pedal went all the way to the floor. This usually indicates a failure of the brakes. Michael was positive that it had not gone all the way to the floor a few minutes previously. While he was trying to figure out this problem with the brakes, he was coming down an overpass. At this time he looked at his side view mirror and saw the police car going past us. At the same time, he had a strange thought in his mind

– “That would be an easy way to get rid of me” (referring to the brakes). At this instant, BOOM, his tyre¹⁶ exploded. That was the loud noise I had heard.

He pulled over. Looking back, it was amazing that with no brakes and an exploded tyre, pulling a U-Haul and a fully loaded auto-transport, going at 55 mph, that he was not killed. We can only say that there have been other times in the past when Michael has escaped car crashes by what can only have been divine intervention.

Michael had also noticed the police car tailing us. He had thought at first that they were checking to see if our vehicles were stolen – but this would normally take only 30 seconds, or a few minutes at the most.

Luckily, we had broken down five minutes from a town with a hotel. The accident was at 5 pm. The U-Haul repair man did not make it to our truck until late that night when it was dark. When he saw the tyre and the brakes the next morning in the daylight, his only comment was that he had never seen anything like it. He could give us no explanation for what had happened to the brakes.

We have put a picture of the exploded tyre on the webpage www.themarsrecords.com Go to “Table of Contents” and click on “Photographs”.

¹⁶ Tyre. This is English spelling. American spelling would be “tire”.

Session 50: Dental trauma

13th Feb 2000, Sydney, Australia

This is the first session we have done since returning to Australia. This session went nowhere, probably because Michael had taken painkillers from the dentist he had been seeing. Normally a session is not run until at least a week after taking drugs. However, in some earlier cases we had been able to run a successful session a day or two after taking a painkiller. This did not happen in this case.

Session 51: Dental Trauma II

14th Feb 2000

We had now moved to Australia. Since moving, Michael had been a bit like 'a bear with a sore head' – fairly cranky. This is one of the reasons why we finally decided to do some sessions. What came up in the next few sessions was more 'abductions' - this time while he was in Australia.

We decided to wait several more days to let any drugs wear off, even though without the drugs, Michael was in some discomfort from recent dental work.

Session 52: Witchcraft

21st Feb 2000

Summary: We were looking to find out what, if anything, had happened to Michael since we arrived in Australia. He had been rather cranky for much of the time. Also, one morning he woke with a small red circular mark on his neck, identical to the mark from Session 48. He also had a small red straight indentation on his right elbow, about ¼ long.

In this session we found that it may not have been the painkillers that he had taken earlier that was blocking the previous sessions. What was blocking him was a 'spider' – a Being that made a metaphysical 'spider web' around his head. The 'spider' was given to him by a man with training in black magic, when he was taken again after returning to Australia.

We stopped here and did some kinesiology. He was in balance earlier, but now in the middle of this session he was way off balance. Specifically, his cloacals were out of balance with his eyes shut, indicating major stress at a time when his eyes were shut.

He got the cognition that he had been taken twice since coming back to Australia.

It may or may not be of importance that two weeks before Michael was 'taken' in Australia, his mother in America got a phone call from a man Michael knew who was in the Navy, saying he wanted to contact Michael. Michael had not spoken to him for about three years. Michael's mother gave the man Michael's phone number, but we never heard from him.

We were both becoming aware of when Michael was taken, rather than waiting for it to come up in sessions. What would typically happen is that most mornings we would wake feeling at least reasonably refreshed. However, on the mornings after we got that he had been taken, we would BOTH wake up feeling absolutely terrible. It was a drugged feeling. And we would sleep in several hours more than normal.

At these times I would do a kinesiology balance on Michael and sure enough would find that he was very much out of balance. When I asked the body what the cause of this was, the cause would always come up as an emotion such as "no choice" or "put upon", coming from people in the military. This was from a list of over 200 emotions.

However, when Michael checked to see if I was in balance on one of these times in Australia, the reason why I was found to be way off balance was electrical. I got that the cause was some kind of machine that was used to keep me asleep while Michael was taken.

The first time Michael was taken after returning to Australia he woke with a small red indentation, (about 1/4" long), which we had never seen before, on his right elbow. He also had a small, round red mark (about 3/8" wide) on the back of his neck. This was similar to one that he had had one morning after being taken in Dallas, in session 48. (A picture of this is shown in the pictures file which comes with this document).

Michael got that the first time he was taken after returning to Australia was an initial contact after moving, to update their files. A different group controlled him once he was in Australia.

The incident described in this session is the second time he was taken since returning to Australia. The morning after the night described in this session, we both woke up totally exhausted at noon – even though we went to bed at 9.30 pm!!!! Most unusual.

We balanced out the four drugs he was given in this incident, after which he felt much better.

The rest of the session was pretty useless. It would have been better if I had stopped at the time when it looked (in hindsight) as though he had had a floating needle. Sometimes TA will rise if there is an unconscious complaint on behalf of the client with the clearing practitioner – in this case, because I had not acknowledged his floating needle and allowed him to have a 'win'. Doing clearing sessions as a client is VERY hard work, and clients like to get any wins they can.

However, the TA may also have risen because his body was busy clearing the drugs we had just balanced out of him.

I included the rest of this session for completeness.

Session 53: 'Abductions' in Australia

22nd Feb 2000

Summary: I put 'abductions' in inverted commas, because each time Michael went with them apparently willingly – because he had been programmed to. They did not use physical force to make him go.

More blocks showed up to stop him remembering, and to stop him doing these clearing sessions on the meter. This time the blocks were ten Wernicke's commands (there's that number ten again). After the blocks to these incidents were removed, Michael was able to remember two times he was taken since returning to Australia.

He also picked up that he was under telepathic surveillance by a young military man at Pine Gap.

I wonder if there are more Wernicke's commands	Tk	

We stopped the session here to look for Wernicke's commands which were available to be removed, which related to the session.

Again, there were ten:

1. "You will not remember"
2. "This never happened" (from the doctor)
3. "Forget everything you've seen"
4. "Forget your visit here (from the doctor)"
5. "You won't remember coming here"
6. "Don't do clearing (from the doctor)"
7. "Don't do processes"
8. "Avoid Hubbard technology (from the doctor)"
9. "The meter is off limits"
10. Don't believe Stephanie (from the doctor)

Stephanie felt much lighter after these commands were removed from Michael. (Realise that as husband and wife we are fairly connected, and what affects one can affect the other).

Michael felt like "he'd had things torn out of his brain". He later noted that removing wernicke's commands that had been given to him by the military felt MUCH worse than removing normal-type wernicke's commands given by normal people, such as parents.

Note: To remove the blocks to remembering this incident, it was necessary to remove the following in the following order:

1. The 'spider'
2. Drugs
3. The above Wernicke's commands

I should probably have ended the session here, because removing ten Wernicke's commands is usually VERY draining on the body. This is the likely reason why the tone arm stayed high for the remainder of the session. When I finally finished the session, Michael admitted that he had felt exhausted ever since we removed these Wernicke's commands.

However, we returned to the biofeedback meter, and did in fact uncover some more useful information.

Session 55: An Agreement with the Greys & the Military

2nd March 2000

Summary: I had a phone discussion with Amelia Woodward about possible ways to stop Michael being taken, since what we had tried so far hadn't worked. She asked me an obvious question – Had I done a clearing session to find out what agreements he still had in existence, and with whom? After all, you can only end an agreement when you know what the agreement is.

In this session we found that part of the reason why he was being taken was that he had an agreement with a Grey-Military partnership to allow it. Unfortunately, we found that each of the 4 "Michael's" had the same agreement. And Michaels No. 2 and 3 did not want to end the agreement!!!

<u>What is the agreement?</u>	SF SF	This is called repetitive technique. (Asking the same question many times). Repetition leads to discovery. To work, the client must be FULLY acknowledged after each answer. And the Clearing Practitioner must be 'present'. Then when the question is asked again, it feels as though it is

		the first time it has ever been asked. Therefore, the client does not feel nagged or overwhelmed, and does not mind answering the question again. But this time it is likely that he will come up with another answer, because often there are many answers to one question. Eventually all possible answers will have been found.

<p>After this I didn't quite know what to do. I tried to find any other agreements he still had in place with other people. But we had a problem. We hadn't yet finished with the agreement with Michaels No. 2 & 3. I realised that I had better end the session here, and leave this subject alone until we had learned to contact Michaels No. 2 & 3, and see what we had to do to remove their desire to keep the agreement.</p> <p>I felt, as I had done for a number of months, that at least part of the answer lay in the books by Springmeier. Michael agreed with me on this, but he had taken a while to obtain the books – presumably because of the commands in his head which didn't want him to remember. This would have helped to keep him away from any books which could help him remember.</p> <p>We ended the session with T/A of 3.8, F/N and Very Good Indicators.</p>		

After this session, Michael was much happier. And was finally very easy to get along with.

It may or may not be of interest that four days later, on 6th March, I woke up feeling horrible. I still felt horrible several hours after waking, so asked Michael to see if I was in balance. Surprisingly, my heart was out of balance – most unusual. The cause of this came up as 'electrical'. This was also unusual as we were in the country at the time.

Testing did not show it was the usual causes – mobile phone, computer etc. Muscle testing indicated I was under some kind of attack. Further testing to see what group this attack was coming from showed that it was coming from Greys. Generally I had been able to keep fairly much out of all this (after all, I'm only a girl!). But perhaps this latest development brought a little extra attention my way.

After this session, Michael felt awful.

With his eyes shut, his Anterior Deltoid muscles (which relate to the gall bladder) were out of balance. Muscle testing indicated the cause was the emotion "with holding" (from the Greys)

After this he felt considerably better.

Session 57: PSI Training on Mars, Phase 1

5th March 2000

Summary: Michael and I woke up feeling tired and cranky. Michael was especially cranky. After doing this session, our energy returned and we both felt light and happy.

In this session Michael remembered training to move physical objects with his mind. His forehead was contacted with a machine. He then entered a virtual reality world, where he had to move things with his mind. The training was done with his eyes shut, and without the use of his hands. The “red dot” of earlier sessions re-emerged.

Conclusion By Michael Relfe

“What are you, Crazy?” “That can’t be true”. “Is this for real?” “Aren’t you scared?” “Yeah, I can see that”. “WOW, Good job!” Prior to the general release of **The Mars Records**, we shared this information with several close friends and associates.

I have to admit that in the beginning I was somewhat skeptical. After spending some sixteen years as a software engineer, my thought processes were logical and narrow minded. I tended to see things in black or white, yes or no. As someone who enjoys science fiction, I had always hoped that someday I would see some of the things depicted in such literature. However personal involvement with such technology was not in my reality.

Do you believe that the technology level you see in the “modern” world of television, magazines, trade publications, professional journals and university courses is “state of the art” ?

My answer to that question is NO, I do not believe that what you and I see in the world today is “state of the art”. Periodically we learn of a new type of jet or weapon system and we find out that it has been kept secret for ten years for reasons of national security. In reality it took another twenty years to be put into production and was based on technology discovered ten years before that. This is for weapons systems that we see discussed in Popular Science magazine, not as described in this book. It is clear to me that the current state of the art is well into the hundreds of years in advance of what you and I are aware of.

I knew that something strange had happened to me during my time in the military. As each session ended, the exhaustion and drained feelings were incredible. It was as if “things” were hooked into my mind and that the clearing sessions were forcibly pulling out these “things”. In addition, it felt as if some weight was “lifting off” of me during each session and I noticed having a lot less anger and frustration in my life.

I guess I would have to say that **the scars convinced me**. Prior to that morning of waking up and finding 5 inch **healed** scars on both sides of my groin area, I was always wondering exactly what was happening and if I was imagining things. I am not imagining these scars. And I am not imagining my involvement in this ongoing program.

Some of my conclusions are:

- Genetic modifications were performed on my father during his time served in the United States Air Force. I was the result of those modifications.
- Genetic enhancements were performed on myself at a young age.
- Programming was placed into me at some time to “encourage” me to enlist in the United States Navy.
- After enlistment, I was recruited for a joint human/alien “black project” involving tactical remote viewing. During this project I was assigned to Mars Base.
- During this time I also served as a combat pilot in a single seat attack spacecraft of some type. I feel that my telepathic “talent” was also used in this role.
- Additional surgical and chemical modifications were performed upon me as a result of my assignment to this project.
- My tactical remote viewing duties included telepathic assassination projects.
- My involvement with this project lasted twenty years (1976-1996). During this time period I was not permitted to visit or interact with anyone on earth.
- At the conclusion of active duty in the program, I was “age reversed” twenty years and sent back to earth to complete my normal time line. Memory blocks were placed into me to prevent memory recall. Implants were placed into me to block my metaphysical abilities and track my location and movements.
- The result of these “memory blocks” was that I was negatively affected in my family life, relationships, health and employment.
- My involvement continues to the present time. I am visited by members of this group monthly. When in an “altered state”, I am “programmed” to accompany them without question and I am then transported to an unknown location where I am given a medical checkup. A procedure is then performed on me where tissue/cells/biological materials are removed from incisions on both sides of my groin area. I am returned to my place of origin.

Some obvious questions are :

Why are they doing this ?

Since beginning these sessions in 1996, I have purposely avoided any deep study of the abductee/contactee literature so that my judgment would not be altered by other people's views. My conclusions are based only upon my personal experiences during the sessions. It is my opinion that metaphysical ability as it relates to remote viewing is an inherited trait and that military/alien groups possess the technology to identify those members of the population possessing such traits and have an active program to do so.

I conclude that people with these genetic traits are "encouraged" to join the military where their abilities can be enhanced and their usage controlled. At the conclusion of their active duty they are "mind blocked" to prevent active memory recall and use of their abilities. They are then returned to the general population where they are utilized for breeding purposes and can be later recalled in the event that they are needed for future projects.

Am I a part of an alien hybrid breeding program? I do not know. Are they breeding an army of telepaths for a future project? I do not know. I only know that I do not particularly enjoy being an unconscious participant in this project and being treated as a "stud horse". Another problem is that I am unable to determine if I am helping the "good guys" or being used by the "bad guys". Maybe I will find out someday.

Are you in danger from this book ?

Possible Repercussions: While sharing this information with others, several people have asked whether we were afraid of repercussions from those in charge of these programs. I can only surmise that those people in charge of my "case" must know about this book as I am sure that I am more than willing to answer their questions when under their control. There have been no attempts to stop these sessions from being recorded nor have we been contacted by any "official" representatives from any group. It may be that these individuals are so far beyond the reach of anyone that they don't care about books such as these and in fact allow them so as to help their ongoing program of introducing the planetary population to the existence of "aliens".

It may be that they have been prevented by God from considering the existence of this book, so that this information can finally be exposed.

It is possible that in the future this book may be analyzed by members of the US Government that are not familiar with the Mars Base project, members of foreign governments that are not familiar with the Mars Base project, representatives of alien groups researching this planet and even corporations hoping to use such technologies for their own benefit. The results of any interaction can be one of three possibilities. They can offer to help us, they can ignore us or they can attempt to harm us.

I admit it would be nice to have official recognition of this experience in a positive way instead of the standard threatening “Men In Black” visits we have all heard about. I would enjoy having the program explained to me and to having my questions answered even if I couldn’t tell anyone about it.

If that does not happen, being ignored is the next best thing.

It is true that the people in charge of these programs are very protective of their “secrets” and they have unlimited money and advanced technology in their arsenal. In addition they have the capability to discredit people, fabricate evidence against anyone and even “wash” a persons computerized records out of existence!

If the worst should happen and these people retaliate against us, I can only say that I put my trust in THE LORD JESUS CHRIST. I know that I will only exist on this earth as long as God wants me to, not one second longer. I also know that the enemy cannot do anything to me unless God allows it and that God has given me weapons to fight back (see the section on deliverance). I will use those weapons without hesitation.

What proof do you have?

Not enough proof for the “scientist” or skeptic:

- My personal testimony on what it feels like to relive being taken and “experimented” on.
- The feelings of the drugs administered to me and how great it feels to have the effects of these things removed.
- The positive changes in my personality, feelings and interactions with other people.
- The biofeedback meter readings showing the validity of these memories.
- And of course the 5 inch scars of both sides of my groin area where I had never had an operation.

This is the only “proof” that we have.

What if no one believes ?

Good ! Then the book is not for them. I have nothing to say to anyone who does not believe except that, "Do they think we did this work for a joke? And then released it on the net for free so that we can be called 'crazy'?" I think not. This book was compiled for only one reason, to assist those people trapped in the nightmare of mind control in getting free.

What do you think about what has happened to you ?

I do not enjoy being part of an unknown project run by unknown people with an unknown agenda. If you saw me on the street you would not notice anything unusual about my outward appearance. However I am concerned with the long term hidden effects that this project may be having on my health. The effects of the massive shock to my body caused by things such as drugs, surgery, mind control procedures, jumpgate technology and extraction of biological samples is unknown.

If you are a Christian, why has this happened to you ?

I can only say that God's thoughts are not our thoughts and that He does things in his own way, without the counsel of men. The dark side forces think that they are in charge but in reality God always gives them just enough rope to hang themselves.

I know that the gift of a certain genetic combination is a gift from God and that everything in my makeup was put there by Him for a specific purpose. God also planned to allow these people to treat me the way they have for these past forty years and that their project would cause this book to be written.

I believe that God will use the information in this book to bring deliverance to the captives. This book may be the first introduction of Christian spiritual warfare principles to thousands of abductees, contactees, mind control survivors and military personnel. In addition, this book shows the results obtained when both clearing and kinesiology technologies are used to reverse the effects of mind control.

Why did you publish this book ?

This book was compiled for only one reason, to assist those people trapped in the nightmare of mind control in getting free.

The information in this book proves that the enemy is not invincible and in fact can be defeated using Deliverance, Clearing and Kinesiology.

I believe that only God has the answer for what is happening to the world at this time and that spiritual warfare is a vital part of His ministry for these end times. It is clear that spiritual warfare and deliverance is the only thing that has not been used against these projects and that God's weapons are superior to the weapons of the enemy.

Do you have a message for the government ?

My message to the government representatives reading this book is:

- Why all the forced abduction? Why not just set up a secret island somewhere and hire the people that have this valuable genetic combination and contract them for a certain period of time? Pay them several hundred thousand dollars a year for their services. Let them in on the program even if they can't tell anyone.

Appendix II: Interview with Al Bielek 1990

Al Bielek is a survivor of the original Philadelphia Experiment. A good introduction to this is to see the movie "The Philadelphia Experiment" starring Michael Pare. This movie was banned in the US for several years. See <http://health.microworld.com/html/videos.html>

(Day unknown; Source: Matrix III www.trufax.org and The Sovereign Scribe, P.O. Box 350, McKenna, WA 98558).

AB: Alfred Bielek

SS: Sovereign Scribe

TC: Tracy Cooper

DG: Danielle Graham

SS: I have a basic question which might be a good starting off point. Could you give me a thumb-nail sketch of how you make a battleship disappear? I know it takes generators ... now what do you do?

AB: A thumb-nail sketch is you have to distort the normal time field. In the case of what they were doing, they were rotating the time field in which the ship itself sat. If you rotate it at about 45 degrees it becomes invisible, if you rotate it 90 degrees it drops out of our reality and that's not what they wanted to do.

The basic technique, just in thumb-nail, is that you rotate the time field. Consequently radar signals will pass right through it like it doesn't exist. If you rotate it far enough, optically it doesn't exist. It would not be visible to the eye under normal observation.

SS: What is the time field?

AB: The time field is an extension of our physical reality. According to Einstein it is a physical dimension. In other words it's the fourth dimension.

SS: And can be moved?

AB: It can be manipulated, let's put it that way. It can be interfaced, it can be manipulated. You can do things with it. Consequently you do things with whatever is in that area of field that you're manipulating.

SS: Are you moving it with magnets?

Ab: You're moving it with electromagnetic fields and R.F. fields, however the means of modulation of those fields are such that it generates higher order fields. In other words, you're not going to affect the time fields with a plain, ordinary electromagnetic radiation.

SS: What's an R.F. field?

AB: Radio Frequency. The same thing as a radio or TV or whatever.

SS: So it takes a combination of the two. R.F. field interacting in a certain manner and with additional equipment to produce higher order fields which will rotate the time field.

SS: If an object or a person is either brought forward or backward through a time tunnel, doesn't this create a "paradox" because of the object not belonging to that particular time?

AB: Yes, you do.

SS: Was that a problem?

AB: No it was not a problem, so far as I know. I can only speak about Montauk¹⁷. They regularly sent people through the time tunnels and brought them back. They did send some objects through the time tunnels with no intention of bringing them back at that time. Sort of like storage at a distance. I understand from what Dr. Herman Entenman said, was that on some of those occasions they lost what they sent out because the tunnel collapsed due to failure of the equipment. So the tunnel collapses and disintegrates. Whatever is out there is just atoms lost in eternity, so to speak. But other than that, no, they had no problems in sending something out and later retrieving it, whether it was a person or an object.

The real problem came when you made deliberate attempts, which were done, to alter the past history and alter what happened to certain people. That had an inroad effect on me. Something was done involving an alien that was shipped backwards in time; roughly 100,000 years ago. And also to my brother, I'm not sure what the time period was. I would estimate from what he said, about 12,000 years ago, maybe less, wherein something from a more recent time was forced back upon him and changed his whole nature.

SS: Where did the writers of the movie The Philadelphia Experiment get their information?

AB: That is a very long and interesting story. I wondered about that myself and we assumed, for a period of time, that that information came in mostly as speculation on the part of the actual producer. I know who it is, but his name does not appear on the credits and he doesn't want his name known. But he asked Preston (Nichols) over a period of time from 1982 to 1983 a lot of questions about the Philadelphia Experiment, and Preston knew quite a bit about it, at that time, he finally admitted it, and answered this guy's 1001 questions, as it were. And this guy became the actual director of the film. We assumed that he expanded with his own speculation on this because some of it in there is not true, but it was based largely on Preston's information and his own expansion on it.

¹⁷ The Montauk Project. See the books section at www.metatech.org

Turns out that wasn't the case at all. We did a lecture in New York in 1989. Preston, Duncan and myself were invited to talk about the Phoenix Project and the Philadelphia Experiment, which we did. Officially it was not video taped, but privately it was. A copy of this thing somehow wound up over in England and got to EMI Thorn and got to someone in archives.

Well, they came to New York and looked up Preston. They found Preston's address and came to his home one evening and said, "We've finally found you." Preston says, "What do you mean?" He says, "Well we've been looking for you for quite a while. You're the fourth man in the picture."

Preston says, "What picture are you talking about?" He showed him a photograph of a family portrait that was made in 1890 of the Thorn brothers of Thorn Industries. One of the backers of the organization was none other than Aleister Crowley and this fourth person who was apparently a bit older. The fourth person was identical to Preston except he looked approximately ten years older than Preston looked, say a year ago. And they knew that this fourth person was important and Crowley insisted at that time that this man was not of their time, meaning the time of 1890. He was out of the future, and this guy gave him the whole history of the boat experiment and it had been in the archives of EMI Thorn since 1890.

It was some time in the 60's or 70's EMI Corporation and Thorn Industries merged and they decided to do a movie. The decision to start it was in 1983 and they came to the US. to do the filming. But they said that they had the actual record of the experiment in their archives since 1890.

SS: And you're saying Preston brought it back?

AB: Preston brought it back according to the statement made by Crowley at that time and according to the records in the archives.

SS: We'd like to clarify some things from the presentation. How old are you now?

AB: By my birth certificate 63. By adding the additional years when I was actually born I would be 73. In terms of real time not counting age regression I'd be 63 plus 30 which is 93 plus the time I spent on various secret government projects such as the Phoenix Project where they were doing the right brain / left brain split type thing, a sort of conjugate personality thing. They do this now to get you to work on two different projects at two identical times practically as two different people.

SS: So you've lived over 93 years in a 63 year old body?

AB: yes.

SS: Were you speculating that the Philadelphia Experiment was a set up by the aliens?

AB: It very definitely was a set up. Right now it is very definite. There was speculation a couple of months ago 'cause some of the pieces were just beginning to come into view. The whole thing was a setup.

SS: What tipped you off that it was an alien setup?

AB: Finally getting some data on Roosevelt's agreements, where he signed an agreement with the aliens in 1934. I started looking in on this and it started to make some kind of sense.

The Pleiadians were turned down in 1953 again when they insisted one of the points they required if they were to work out a deal with the US. Government was that they must scrap all their nuclear weapons. Well the US. government was just not ready to do that, not in 1953. So they were turned down politely and along came the Greys and they made an agreement with them.

But again back in 1933 was Roosevelt's agreement with the "K's" and because of that in 1934 the Pleiadians went over to Nazi Germany and worked something out with them. But there you had across the Atlantic two powers which were getting ready to fight each other. There was one ET-group on one side of the Atlantic passing us technical information, it's going to be fairly obvious that it's very likely that there's going to be another one on the other side of the Atlantic feeding information to try and keep some kind of a balance, particularly one of them was concerned with the survival of a major segment of the human race.

I finally got confirmation from a number of people. The original confirmation, I understand there are hard copy notes on this, comes from Billy Meyers in Switzerland.

TC: What does $E=MC^2C^2$ light reciprocal mean?

AB: That would be C to the 4th. That does not have meaning other than that would rotate you into one of these hyperspacial locations which is C to the 4th and you would be out of the electromagnetic and you would pass into one of the etheric domains.

TC: Would it be accurate to say that when they made the Eldridge disappear what they do is just rotate it into another dimension?

AB: That's what happened but that's not what was intended. What was intended was to rotate the time field so that there would be no reflections of either light energy or electromagnetic energy which is essentially the same as a matter of the frequency.

TC: So they isolated the time dimension.

AB: Yes, and rotated it and that was all they were intending to do. But that of course is not all that happened.

TC: They ended up rotating the entire...

AB: ... localized field around the ship.

TC: How can you begin to understand that?

AB: Because I not only had all the physics training then but also the specialized training which came from von Neumann because he understood it. At the time when you graduate from the standard physics course even at the best universities today, even a Ph.D., you don't really know what's going on because that's information that's withheld. An understanding comes later. All that is a basis for laying the groundwork for understanding. The real understanding of what's happening has to come from private tutoring. This is why the Illuminati has survived so long because there is a hard basis of knowledge there, as well as ability. But von Neumann had figured it out, along with Hilbert, and his interface with Hilbert and perhaps Einstein and Levinson.

TC: What would you say to a person who had a physics background who wants to have a deeper understanding, how would they pin it?

AB: How? Hmm. You would have to study currently some of the literature and information put out by Tom Bearden, for one example. But you have to be careful also about Tom Beardon because he also puts out some disinformation. You have to filter it very carefully. He does put out some good information but every so often he puts a corkscrew in there, and that's particularly true in some of his reference to the weather control generated by the Russians. It's not. We have our own. And some of the other things, some of the other basic physics which refers to the bouncing electron in the atomic shell that's real for a period of time and then virtual for a period of time. Well that aspect's correct. But he says when it becomes virtual, it goes into a reverse time universe, then it falls into the anti-matter universe. Anti-matter universe is NOT reverse time. There is a reverse time universe and there's an anti-matter universe. So that is disinformation right there. And what he describes is partially correct, but not fully correct.

TC: So where else would you look for more information?

AB: Where else? I'd say look into some of Von Neuman's works. He has a list of 15 books and some of them are not at all relative to this. He does have some of the information and some of the works which definitely tie back to the theoretical approach which was made.

TC: But there's no way we can get a hold of the time equations, is that correct?

AB: Most likely, no. It is highly classified.

DG: Regarding the boat experiment, was it because they generated too much energy that it took them beyond their anticipated results or was there an alien manipulation that actually generated the field in such a way that they went beyond their expected results?

AB: No, just the rotation of the field itself would not create the problem. It was the fact that they locked up with another experiment which brought them far beyond the 6th level which they were capable of generating on the Eldridge. They had to be capable of generating 6 levels in order to get 5, and 5 is what they had to have in order to rotate the time fields. Uh, you lose one in there, so to speak. You manipulate from the highest level what is below, that's why they had to go to 6 to get manipulation of the 5th. But that of itself would not have done what happened. You have to have additional orders and you have to have other factors which cause the lock up.

DG: One of the things that's really interesting about this video that we've seen is you and your brother's unique approach to understanding time, since you have experienced time in a very nonlinear fashion. When you've created a loop like the loop that was created between 1943 and 1983 with regards to locking up of the two different experiments, how does that loop ever break?

AB: It doesn't. It is there and it remains there but after a certain period of time it probably won't have any effect. When you get 20 years past 1983 it's not likely to have any problem at all anymore. You don't lose it, you don't remove it. It just doesn't have any effect anymore. It's already had its effect by the transit and when you come back.

DG: Does it disperse?

AB: No, it's just something that stays there and exists like a smoke trail in the sky. It's there and they slowly dissipate over a long period of time.

(Regarding the boat experiment) Nothing was told to us about travel, only what we were doing in terms of that experiment. We had no expectation of anything like that happening. It was neither planned and wanted, or expected. It just plain happened.

I don't regret that aspect. The only thing I have sometimes thought about and question whether I have regrets about it is whether or not we might have all been better off if instead of letting Duncan go back to 1983, I'd held him there on the ship so he couldn't jump overboard the second time, until the ship returned to normal space/time. He wouldn't have been back through that experience and dead. Things would have been different. Whether or not they would have been better is a wild speculation, and strictly speculation. But it definitely would have been different. I was not in a position to really anticipate what he was going to do. He gave no warning he was going to do it. The movie says otherwise, but of course the movie

has a lot of speculation in it that he planned to go back because of his girlfriend. Well there was no girlfriend in the other end, in fact, it was a disaster for him.

TC: What is your understanding of anti-matter?

AB: Oh, that comes out of Von Neumann. Von Neumann was very much aware of it. And there is a lot of work done on it now. Today we deal in speculation in physics about antimatter. And, of course, there is discussion, both in the realm of science fiction and in physics about what you could do to create energy from a matter/anti-matter interface without creating an unbelievably powerful bomb which could be very, very disastrous. But there's a lot of speculation on that now as to the two universes, and if you got matter from one into the other what would happen? Can you control the reaction and how much energy could it create? That is speculative at the present time.

In addition to that, it's a little bit more than speculative because you have the aspects of the U.F.O. ships that have been turned over to our government out in Nevada. That has been discussed.

Bob Lazar has discussed the business of the element 115 and the fact that they use it to generate anti-matter and the anti-matter generator source and from that they amplify gravity waves and this is what they use for their drive system. Now there's no technology like this on earth. He says that there's no way we can replicate it. He said furthermore, there's no way we can come up with atomic element 115 in any quantities because it requires a totally different physical environment to produce it. Though he says our government has perhaps some 500 pounds of the stuff. And it is incredibly powerful.

He said he was hired because of what they called an "unscheduled nuclear event", in which a number of scientists were vaporized. They had to go out and hire replacements for them. And he got the word. He was at Los Alamos working as a physicist. He heard about this and went down and talked to EG and G and apparently he was accepted and then he was actually put on the Navy payroll, is what he says, then he went to Los Alamos and eventually wound up working on the UFO's and UFO problems and related things.

His comment was that they don't have enough really qualified people. They don't understand what's going on. They don't really understand what's going on with this, and he says it's also impossible to produce element 115 on Earth. This had to have been brought in. Yet they have this technology. He says it's definitely not built there. He says he can say that very flatly as a physicist. There's no way we can build this, not in this century. 50 years from now, who knows. Maybe 20 years from now.

(Regarding time tampering, its implications and free will:) ...Things could be manipulated in our future basis to alter the time line, as it were. Again to alter it on a major basis, it would be a minor thing for an individual. If it be a major basis it would affect the whole planet, depending on what effect it had.

Now free will still plays, then the (time) line shifts and the whole reality scenario changes, after it changes you still have free will but, I understand the basis of your question: is it sort of like a higher order reality coming down and hitting you over the head and after the stroke is over you go back to playing your little game of reality as you know it, or as I know it or anybody else knows it. It does raise some serious questions, yes. And how much free will do we really have? In other words, who else ... lets say, who else has more free will than us?

TC: Back to this time limit, they isolated the time field with the Eldridge, would you agree with Bearden that the time dimension is the connection with other dimensions, with the higher order dimensions?

AB: Yes, basically.

TC: How so?

AB: Time dimensions involve the 4th and 5th dimensions but your anti-matter universe is also locked in, but it's not locked in that way, it's locked in the 6th dimensional level and also the 11th. And you get through this whole, strange arrangement, you get into, through higher order time manipulation, you get into areas of other universes. Now that's not completely answering your question in terms of what Bearden is saying. But, like I say, he's correct at least as far as I understand what he's saying, and I'm not sure I understand all of what he's saying because I haven't read it all.

Time is, in a larger sense, in reality, a dimension. But it is not something which we, in our level here, really understand, and we certainly don't see it. We only see the effects.

(Regarding Bearden) ... his real job now is still defense analysis and strategy analysis; the same thing he did in the military he's doing for private corporations. And he also appears to be still connected with Intelligence. He says he's retired but I have my own personal doubts about that because of certain things he says. But most of the research and he said this he has had to make clear at his public lectures, when he starts talking about the Russian work, the UFO's and the weather modification and all of what he said, this is my own research, it has not come out of government classified sources, it is not infringing on government classified information or privileged information. He said, this is my own research; it's totally separate. He's quite clear about this and I'm sure he's quite correct because he would be in an awful pile of trouble.

There's only one area where he stuck his nose out and he's gotten himself in trouble, and that was when he spoke out about AIDS, the causes and cures of AIDS. He has his book: AIDS: Biological Warfare; and it's a bombshell. And he got more than his wrists slapped over that because he stated very flatly the causes and the potential cures, (accurately,) for the most part. He alluded to the electromagnetic cures but he also did not point out, though I haven't read the book in full, he accurately states there is no electromagnetic connection. There certainly is in so far as the triggering mechanisms are concerned.

The virus gets into the body. The body, if it's working at all, and you're not already 3/4 dead, the immune system automatically puts up a defense to the virus and isolates it. And then it sits there in the body for "umpteen" periods of time. It may run 6 months, it may run ten years and nothing happens. Sometimes it never happens with a person. They've got the virus in them all this time. They'll get an HIV plus reaction on the test because of the antibody reaction with the chemicals they use in the testing. But that doesn't mean the person automatically is going to come down with the disease. Its not automatic.

There are other factors involved. The weakening of the immune system and triggering the mechanism of the reproduction of the virus. Anything that triggers it such as pulsed electromagnetic fields will start it going, that's why most of your AIDS cases are in the big cities, and very little in the rural area". You go well north of Denver there are no charted cases as such.

SS: Why is that, because there are just free floating electromagnetic waves?

AB: It's because of the concentrated electromagnetic pollution in our big cities. The major problem seems to be our TV stations. The fact that they use pulsed transmission, class D transmission for higher efficiency and to get a better picture out further and also to avoid some of the problem in reception. They also additionally use circular polarization. But the pulsed transmission as characteristics of a TV, they can do this on AM, they can not do it on FM. It's very, very complex and very difficult. But with the signal for TV, which is AM, or for the Voice of America AM broadcasting facilities which are all over Africa and various places around the world, which are now running megawatts of power, there are also class D pulse modulation. And this stuff generates enormous harmonics and is very disruptive to the body's physiology. This may be the key to what's going on with the AIDS, the rise of the cases in the cities.

But he (Beardon) got into this and he got into the fact that the government knows the cause and they probably know the cure and boy, they came down on him. It's part of the government policy, they don't want a cure for AIDS - it's part of the population control program. The Navy did a private

estimate a couple of years ago on a classified study how many people were likely to come down with AIDS by the year 2000, as an example. Their computer studies said by the year 2000 there will not be man or beast, vertebrate beast, on the face of the earth that doesn't have the virus in him. And they don't know how many will succumb or how long it will be, if there will even be a human race left.

That was the Navy's study. It was highly classified. A friend leaked it and the Navy couldn't quite kick him out because of that. He was violating security but they didn't want to do it on that basis because you see if they fire him for violating security he has the right to know why and he can make it public. And that was not something they wanted public. So they didn't fire him over that. They found another means and they got rid of him, killed his clearance and dumped him. But he went public on that thing and that was the Navy's study and Beardon is saying the same thing. It's going to start increasing at a geometric progression rate, and he says it will be getting in the next 5 years way out of hand. It's already way out of hand in Africa.

TC: These class D pulse modulations, do you have to have a TV to process it in order for it to be harmful?

AB: No, it has nothing to do with the receiver. It's the transmitting signal itself. If you're sitting close to a transmitter or within reasonable distance; you would have to establish a criteria of field strength, and I don't know what that threshold is on this, but if you're radiated by the signals from the transmitter, if you're reasonably close to the actual physical tower, the transmitter, you're getting radiated, it's going to affect you physiologically.

Now there's a very good example of this. Measurements were made of this in Portland, Oregon. Oregon is perhaps unique in this in that they have all of their FM, AM, and TV transmitters upon Mt. Olympia, and it's an ungodly collection of transmitters in one location. Right next to this transmitter site are all kinds of residences, people living there.

The rate of leukemia is very high in Portland in that area; and one private doctor did a private study on this to try and correlate what is doing this, what's going on, looked back in the case histories, the family histories, etc. He found out that people that lived in the vicinity of those transmitters came down with this particularly nasty form of leukemia and he finally determined that if they lived there long enough the rate of succumbing to leukemia was 100%. There were no exceptions. If they moved away from that area they would recover as long as they didn't have it fatally already.

The physiological symptoms in the sites of the transmitter within a mile or so were severe, very severe. The people knew it, in some cases and they just got the sense and said, "I don't like it here, let's go somewhere else," and they go someplace else and they get over it.

I was up in that site once with a friend Bill who was working as a chief engineer down at the local AM, FM and TV stations in Portland and he'd have to go up and do maintenance occasionally in that tower in the transmitter section. He says he hated to go up there. He says you're up there half an hour and your brain just scrambles, you can't think straight anymore.

You walk in the door and they have this fluorescent tube over the door, it glows day and night He told me, he says, "That's not wired to anything." I say, "What do you mean it's not wired to anything?" He says, "There's no connections. You can hold that thing in your hands and it will light up like a Christmas tree. That's how much RF is coming out of this building. We're subjected to that as long as we're in here. They have problems occasionally where the equipment just fries itself, particularly some of the solid state components which are highly susceptible to this sort of thing. He said, "You don't want to stay up here very long. I don't want to. I have to come up here to do maintenance. When go home I have quite a time getting over it. It takes overnight." It just scrambles the normal function of his brain. He can't think anymore as to what he's doing, what he's up there for, what tools to pick up, what he's actually working on. The continuity of thought is lost.

TC: This class D pulse modulation, is it scalar?

AB: No. It produces RF sidebands and harmonic sidebands which are damaging and it may produce some scalar components. I don't think anybody's done a good study on that. But it's not doing this deliberately if it is. See, all tube-type transmitters, and all of these are great big transmitter tubes, all produce some of the higher order energies, and some solar-type transmission without it being intended. This is one of the reasons why, any ordinary AM transmitter produces some of those higher order energies, and if you want overseas reception you have to use tube-type receivers particularly the types designed by T. Henry Morey and Tesla in the 1930's, to get a consistent reception from overseas. The solid state receivers are worth the powder to blow them for the most part, not the commercial ones. They do not work that well. They lose part of the components. They lose all the higher order energies which you need to reinsert in the processing in the signal in order to prevent the very severe fading effects which normally occur.

TC: Can they put the subliminal messages on CD's and cassette tapes ?

AB: Not readily on magnetic tape because you have a very limited frequency range in which they work. They could probably do it on laser discs. They couldn't do it on a CD audio disc because your frequency range is too limited them

SS: Are there any things you can use to protect yourself from ELF's and these waves?

AB: Yes, there are devices available and I have one that might be one of them. I have not examined it, it's the first time I saw it. We'll have it measure it to see what it's putting out, take it apart and look at it. But there are devices that have been available and are still available that do help. There's more than one approach. The 7.83 hertz human resonance thing is one of the most reliable. It's only about 35% effective. It does not help everybody, but it is helpful.

Al Bielek, noted lecturer on the famous "Philadelphia Experiment" and the time travel/mind control experiments of the "Montauk Project," recently spoke with The Scribe interview team in Yelm.

Bielek gave an update on the current use of mind control and psychic warfare, and also offered a more detailed account of his experience in the Montauk Project. Montauk, also known as the Phoenix Project, used Bielek and his brother Duncan Cameron, to explore the underground cities of Mars.

AB: Alfred Bielek

SS: Sovereign Scribe

SS: Regarding your experience on Mars, you walked through the time tunnel, you take a step and you're on Mars: What did you see?

AB: Well I was not on the surface of Mars. We were in the underground. The story goes back to the Alternative 3 book, the TV production in England outlining the fact that we have Mars bases, one or more, provided by a joint operation with the US government. I do not know if the Russians are in on it - and aliens. They are on the surface bases. It's a World Government operation really, that's not strictly the United States government.

After they were on the surface which was about 1969, they found that there where entrances to the underground sealed and they knew there was something down there. The rumors were that there was probably artifacts from an ancient civilization buried underground because there were a lot of remains above ground - ruined cities that have been there by NASA's estimates maybe 300,000 years, 250,000 years. But they found the entrances all blocked, all sealed off to any underground areas. So the word went back through communications (in the late 70's) to whomever back to the Montauk and Phoenix project, "Can you do anything about this for us? We can't get into the underground of Mars." They said, "Yes, I think we can. Give us some coordinates on the surface of the planet. We'll have to run astronomical computations." Which they did and plugged these all into the computer. They wanted two people to go and it happened to be Duncan and myself.

SS: Why two?

AB: To corroborate what the other one saw and also in case there was any problems in the underground. They didn't really know what was down there.

So they sent us and we went up there in the underground. [Using the Montauk Time-Space "Tunnel" device, developed as a result of the Philadelphia Experiment. (See Scribe issues 9,13 and 14.)] There was a problem with light. We had to take lighting with us at the time. Later on, if I remember, we found some of their light sources and turned those on. We found eventually that the last remnants of the Martians, if you wish to call them that, died in the underground between ten and 20,000 years ago by estimate, and they left everything they had of their civilization underground. We found enormous amounts of statuary which appeared to be religious.

SS: What did they look like? How big were they?

AB: Typically 6,7,8 foot tall, stone, gems embedded in them and so forth.

SS. These were of human-like people?

AB: Yes. They were quite well preserved. Then we found archives. We found a lot of scientific equipment. We found electronic equipment down there; tons and tons of stuff. And the rumor was also later that ... I didn't recall until Duncan reminded me of it about a week ago. He said, "Don't forget the 17,000 metric tons of Martian gold they took out". According to his recollection of it, it was very strange gold. It was 5 times denser than ours. It was worth an unbelievable fortune. Where it went we have no idea, but it was returned to Montauk and from there it went somewhere. There were several authorized trips. And Duncan and I got the bright idea since everything was in the computer - let's take a trip or two on our own and do our own exploring. So we did. After the second one it was found out and we were stopped. That was when he got into the archives and found enormous records of the civilization which was buried down there.

SS: What did you find out?

AB: He was the one that read them. I couldn't read them.

SS. He didn't tell you?

AB: No. Well he did at the time but I can't remember any of it now. It's a very strange memory. On again, off again, and that part of it was never made clear to me as to what he really found. Right after that we were removed.

But I do remember some of the other installations we saw down there. They had very odd, large generators of some type. If you did not see it, I recommend that you go see the movie Total Recall. In fact it was seeing that movie that reminded me of the fact that I had been there. Not the

colonies but the shots of the underground where they showed these large, round canisters where the director said these were probably for oxygen generation. I'm not quite sure but we think so. I looked at them and said, "They're not round. They're hexagonal." And I asked myself, "how the hell did I know that?" So that was our view of Mars from the underground. We didn't see hardly a thing of it from the surface.

SS: Did you see ice under the surface like in Total Recall?

AB: Ice? No.

SS: If I remember the Movie, that's what they melted - a lot of ice to create the atmosphere.

AB: It was not ice under there. There were oxygen generators and they also had some storage. There was a generating system which apparently the ancients had left. I don't really know much about it, but it was activated before they moved the surface colonies in. They also melted down the polar caps. The rumors are that they used a hydrogen bomb or two for that. I don't know if that's true. But they did melt down a lot of the polar ice so they would have some water. It's still sparse but they have it. The atmosphere is thin but they have atmosphere. And the temperature is warm enough. In the equatorial region they have no problem surviving. It runs about 50° and of course the astronomers have known this for about 50 years or more. It's quite livable in terms of temperature.

SS: The lighting that you mentioned. What was that like?

AB: Unknown form of illumination, after we found out how to turn it on. Some of the power generators are still working. After we turned on the underground lighting we had no lack of light. Otherwise we had to carry our own and portable lighting was not all that effective because we were dealing with larger underground chambers, several hundred feet across high ceiling and portable lights are not very good for a large chamber like that. Eventually we found where they had their own lighting. It was very bright.

SS: Have you any information on the face on Mars?

AB: Not that I remember in the underground. There's more than one face on Mars, by the way. They found several. But I remember the NASA announcements some years ago, about 2 years ago that they're receiving a low frequency radio transmission from Mars. It was about 50 kilohertz, if I remember correctly. Quite a low level indicating the equipment or whatever it was that was generating the RF signal, and it was coded, was quite old and probably nearly worn out, so they were amazed there was anything still coming out of it but it was enough of a signal that they could pick it up and put it through the computer and transcribe it. It was a warning. A warning message to humans not to repeat the mistakes they made.

SS: Do you have any feelings about being on Mars? What were your general impressions?

AB: We were digging in the remains of an old civilization that preceded ours and it felt very peculiar. To look at what was left of what was once a great civilization and realize that they literally died there and left everything behind and that eventually the thing shutdown. It was in the underground deliberately. Apparently it was for survival because the circle cities had long since been destroyed and they lived down there and stayed there.

From what I understand of it, a number of the Martians survived whatever the attack was on the surface eventually took off for Earth and others decided to stay behind on Mars in the underground. And quite literally their progeny eventually died out and the whole race that was left behind on Mars died out. It's rather a strange feeling to realize that the remnants of a race died out in the underground totally. They just left all their hardware behind.

SS: In Rod Steiger's book he spoke of March 18th, 1990, as being important dates in the history of the PSI-Corps. That's during those dates their equipment was zapped and all the psychics resigned March 20th. Could you explain all this?

AB: Well, basically what had happened was a very strange story. In January 1990 Psi-Corps received some new hardware because NSA has been working on this for years; psionic-type hardware that boosts the mind and its capabilities of people who already have a great deal of capability - it becomes quite formidable.

They found themselves, after that infusion of new equipment, after learning how to use it, with the capability of locating a picture buried in someone's files anywhere or tracking a missing file or missing information that they had instructions to recover or locate. They didn't do the recovery they merely located it. And how we found out about this was a very interesting story.

Back in November of 1989, Duncan had told me, he said that I would have the proof of the Philadelphia Experiment in my hands during March of 1990. Well it seems like during that weekend, that particular Sunday, preceding the Psi-Corps walk out, I was in Phoenix. I was out for lunch that Sunday and a phone message was waiting for me that Preston had called and he was in a panic. When I finally got him on the phone it was already too late. But he told me that a person had visited him.

You see his father had been a senior scientist in the Navy working on the Philadelphia project. And that before the scientist died he told his son what had happened; that he had certain files and that he was turning them over to his son but he advised his son not to ever tell anyone about it. So this guy, unidentified to me never told anyone about what he had.

One week prior to the visitation with Preston he gets a knock on his door. Government agents. "We want to search your house." "Well what for?" "Get out of our way." And they start tearing his house apart. He knew what they were looking for. He didn't have it there, but he said, "I don't know what you're looking for." And they didn't find it. It took several days. And he shook them. And he went and got his stash of files which contained two roles of film of Rainbow 3 and Rainbow 4 which were the two Eldridge tests plus a stack of papers, still highly classified, apparently, from what Preston said, because they wound up in Preston's hands.

So he started calling his friends to see who could take care of this and take it off of his hands because the government agents were right behind him about two hours right behind him trailing him. None of his friends would touch it, those that he got through to. And he finally got to the end of a long list of people and Preston Nichols was at the bottom of the list. He called Preston and he was home. He said, "I'm coming over to give you something." "Well what's this all about?" "I'll be there at such and such a time."

He goes over and hands him the file and the film and tells him the story about his father and the government agents and so forth. Preston says, "Well what am I going to do with it?" He says, "I don't know. It's your problem now. The government agents are about two hours behind me." He takes Preston out and shows him his car with bullet holes in the door and he says, "I'm getting out of here." And he left.

Preston in a panic tried to get a hold of anybody he knew that day, including myself, I was not reachable. Duncan, previous in that morning, got wind of something, due to his psychic sensitivity, something very heavy coming down. He took off from Preston's, went home, went into his bedroom, locked the door and crawled under the bedsheets until about 5:00 that afternoon. This is a fact. He panicked. He would not even answer the phone. He shut off his answering machine.

So this comes down. Preston can't get a hold of me. Finally when he did get through (I called him) he said, "Well I called up NSA and told them I had some very hot material here that I don't want." They asked "What is it?" And he told them. They said, "Well we don't want it." He says "I've got to get rid of this stuff it's black card clearance level: So he said, "Alright we'll send some F.B.I. agents to pick it up. So they eventually arrived and he turned it over the them after verifying that they were F.B.I. He got rid of the whole business. Then I called after that, and I still haven't forgiven him for it. But the interesting connection to get back to your question about the Psi-Corps, is that we finally put together the fact that with the new equipment they were able to identify a photograph if it's in somebody's file and apparently they have standing orders to find any information whatever dealing with the Philadelphia Experiment and make damn sure I didn't get it. And they spotted something and found out who this guy was and they

sent out the government agents and this whole story ensued about this man who's father was the senior scientist. And we don't know what happened to it. We never saw it again.

In any case, the next day, from information I had, there was a big rumble in the Psi-Corps, and they were warned by somebody on the outside who was a little friendly to us to get the blazes out of there, that all of your installations are going to be melted down, literally. And they were warned to get out. All of them walked out except ten who were brand new recruits who had been told to defend the machines with their lives and they did literally. They died, the rest walked out, out of the government's service and disappeared. There was a panic meeting with the President...

SS: Who melted the equipment down?

AB: Alien . . . let us put it this way - extra terrestrials.

SS Do you know who they are?

AB: Yes, but I will not say.

SS. Are these the same ET's that Preston said melted down the buzzsaw antenna at McArthur airport around the Thanksgiving weekend last year?

AB: Yes, basically. And they took care of four sites in the US. one at Fort Meade and there were three other locations. I believe one was Atlanta and another in the New Orleans area and one somewhere in the West. Everyone of them walked out and disappeared. The locations were melted down. The President had a panic, practically apoplexy, tried to call back the old director who was in retirement. He said it was an emergency, we need to talk with you. So he came down to talk with them. I'll only give this man's first name - it's Emil. He was already 90 in age. And they told him the problem. He said, "I'll look at it but I won't give you my answer for about 3 days. I'll tell you then whether or not I'll come back and reorganize this whole operation for you."

In the meantime they contacted NASA to try to get NASA to give up their psychic agents, not Psi-Corps, who are trained for a different mission and are not trained in pairs but individually. NASA told them to go share it and got away with it. They said, "We're not trained to do the work you're doing. You can't have our people. So finally on that following Friday, Emil came back to the President and said, "My answer is no. There's no way I'll come back and do anything for you. You're in deep trouble as it is and you're going to be in a lot deeper trouble in about 30 days." And he packed up and left. And I presume that that was the last we've seen of him at least in those quarters.

But the Psi-Corps remained dissolved until ... they tried to recruit new people and they did pick up a few but nothing like what they had before because it takes 4 years now to train them, it used to be 5.

SS. So they're building it is back up again.

AB: They've been trying to build it back up. Then before the beginning of the so-called Mid-East War with Iraq, they made a deal as part of the situation building up to the declaration of war wherein we got all of the backing from British European nations with the exception of Germany, they went to them as part of the deal and asked the British and French and Russian Governments, who all had their own Psi-Corps, if they would loan again numbers to the U.S. Government for their operations. And they did. They got transfers and built up the whole organization to the original strength overnight.

Now they had a little bit of a shock because the new group tried to bring somebody back into their group to run the operation, Emil, and from what I understand, he was spirited out from right out of the midst of them, again by E.T.'s, and they were told this could never happen under any circumstances, that they were ultra-secure in their facilities. That shook them up. They all walked out. They are now at point zero.

SS. So they walked out a second time

AB: That's right. That's the information I have. And the government is left holding the bag once more. And as far as I'm concerned they Can continue to hold the bag - empty.

Psi-Corps organization is not vicious, they are not vicious people, they're very well trained sensitives and psychics who have a mission. The basic mission has been, in more recent years, not the original one in the first 5 ten years, where they were used for assassination. But they finally drew the line on this when NSA was formed and they became part of NSA in 1949-50 because their original genesis was in 1940 under Harry Bennett under the Roosevelt administration. But they said, "We will not do assassination any more because you have other organizations and intelligence groups that can do this much better than we can so we refuse to do it." But everything else they would still do and that was basically: psychic espionage in this country, outside this country and anywhere on this planet; obtaining information about anything that the government wanted to know that was not obtainable through the normal intelligence channels; or say too many agents got killed or something; let us say they wanted to look at the inside of some super secret Russian or Chinese installation or whatever it may be. The psychics could look inside of it and see what they want. They could read books off their desks, reports off a desk, filch them out of a file.

SS. They could dematerialize them?

AR: Yes they could. They could start a fire in a filing cabinet a couple thousand miles away if they wanted to do that or if they were so instructed.

SS: They could plant disinformation also?

AB: Theoretically they could. They could transport small objects. They had their psycho-kinetic ability well trained. It was not that they could move large objects, they couldn't. But small objects like a piece of paper or a small package of paper like a report they could handle. They had a lot of capability.

They were also very heavily brainwashed and very heavily let us say, indoctrinated in the government's service and what they were to do and indoctrinated to the point that they totally accepted the protocols under which they operated. And this of course meant that they were loyal to the service, to the government. The only mores and ethics they knew was what the government told them they had and this was implanted. impregnated, conditioned into them to the point where there's hardly an change. I've only known of two people, I will not go into this in detail, who decided to walk out and succeeded in doing so. But when they surfaced it started the largest manhunt in the history of this country to find those two and bring them back into the government's service.

Preston saw the police reports, the F.B.I. file reports because the police car came into one of the swap meets, drove right up the aisles where there's not supposed to be any car, virtually pushed people out of the way, stopped right at Preston's exhibit and said, "You're friends with _____." Preston says "What are you talking about?" "You know what we mean." And Preston looked down on the police car's front seat and there was the F.B.I. dossier and the picture of the individual and the names of both of them they wanted, and if any information is obtained about the whereabouts of these two, I'll not give the names, report immediately to the F.B.I. office in Philadelphia, Pa. They never did catch them. They were much too smart. They knew what they were doing.

They also stole a few pieces of government hardware in the process including ... I might as well say it... the government has alternate reality generators, the portable type a person could carry in a small suitcase and they can ship themselves and that suitcase with them into an alternate reality and they cannot be traced. They cannot be found.

SS: Kind of park themselves in another...

AB: Park themselves in another universe, so to speak, parallel to our own, very similar to ours as I've gone into in my lectures, the parallel reality thing. The government has the hardware for this, portable. They've had it for years. I don't know how long. And they had it and used it to keep out of sight and they would every so often look in on what was going on and find out the police were there and they'd say, "Well, they can stay there, we'll

stay here. "The final outcome was these two people whom I knew from years before under circumstances I won't go into or it might identify them, eventually hitched a ride off planet and took a shuttle. There are shuttles regularly from this planet to Alpha Centauri 4 which by agreement is a safe haven for people wanted by the U.S. Government. There's a treaty. It takes about 12 hours to get them. Apparently they took all of their family which meant sisters, brothers, father, mother, whatever, with them. As far as I know they're still there.

SS: Who runs the shuttle?

AB: Presumably the Alpha Centauri Government, but I don't know. But it's on a regular basis twice a week. The landing point I have no idea where it is. Of course they guard it secret.

SS: What is their body form like?

AR: Alpha Centauri? Like humans, exactly the same. There's a much lower population on their planet. They're not overpopulated. They're an advanced civilization, a little ahead of us - not a great deal, but somewhat ahead of us. They don't like things like government headbashing and that sort of thing and they way they treat some of the government agents they no longer have any use for or whatever, if they are approached, and I don't know how it's done, if they are approached and asked for asylum, if they issue the card, you just get on the shuttle and that's it, you're there. Beyond that I don't know. I haven't seen them since.

That's a very interesting little side issue and our government doesn't like it particularly but there is some kind of a treaty and they honor it. Apparently there is that type of treaty with other governments elsewhere, and I gather it is all Earth governments or includes outside governments I'm not sure. I have the feeling it includes outside governments too. There's regular communication, I don't know if Preston went into this about the Super Luminary Communication Systems that were developed by ITT in the 1960's. It's another one of those little developments that come out of all of this business evolving from the Philadelphia Experiment and the spin-offs from that and research done by ITT because they were involved in the background of that program to some extent. They were very involved and were the principle contractor for the Phoenix Project, but they also had a lot of other little games also. One of them was building a whole new communication system. This was research based on higher order energies and the effects and the propagation rates and studied all this and found out. "This is all very interesting. With a sixth order energy we can develop a communication system with a propagation rate C^6 , that's C to the 6th power. They now have one C^8 , C to the 8th power.

SS: C being the speed of light?

AB: C is the speed of light, to the 8th power. That's so fast they can literally communicate clear across our galaxy with nothing more than a phase shifter. There is essentially no delay. With the C' system there was a delay so they went to the 8th. 50,000 light-years across our galaxy and they can do it in a fraction of a second.

So Einstein was wrong in one sense. Nothing can go faster than the speed of light? It can. It's long since been done. It was probably done long since he made the statement. Einstein did relent of some of his statements in earlier years before he died but it was not publicly stated that he had.

SS: Speaking of aliens and technology, do you know which aliens Tesla talked to?

AB: The Pleiadians basically that was one of his principle communication groups. Also a group called the K group. K stands for Kondrashkin. That's the best literal translation of English. They were sort of light green skinned humanoid like with no hair. If you put them up in the right garb and bleached their skin and put an old fashioned wig on them they'd pass very readily for an Englishman. Not that I'm trying to cast any kind of aspersions on English people but they most readily pass for English. And the dye or powder or whatever they put on their skin didn't last more than two weeks. Then there were 2 others and I don't know who they were. When you start calling out into space you don't know who is going to answer. And they did. Tesla knew 11 or 12 languages and I presume these people communicated back in English but I don't know that for certain. I wasn't there. I only heard the stories from 2 other researchers who had worked with him before he died. I'm told of the equipment and the fact that he did communicate on an almost daily basis with somebody from the outside.

SS: You mentioned Reichian Programming in your lectures. How would one know if one was hit by it?

AB: You wouldn't after it was over. They pulled this system on Duncan once for certain, maybe more than once and we have a friend back east who worked in a hospital who's seen the equipment, knows what it does and what it's capable of. Preston's checked into the records and found that this particular type of advanced technology, electroshock therapy equipment is what they officially call it. It's now very advanced computerized with floppy disks and very small electrodes instead of the old big patch pads they used to put on people and tape the down. They now have tiny little probes 50 millimeters square and they attach them to certain critical sensitive points on the body, about 8 of them. And there's a computer program they now use which will induce the Reichian orgiastic state by electronics and hold it to that state and in that condition a human mind from conscious to subconscious is completely aligned and opened.

Consequently you can remove buried information in the subconscious, reprogram the person, do whatever you want in that sense. And when the

program is over they close it down, restore the person to the so-called normal state with either blocks on memory of the whole thing happening or a whole total implant of what went on that day as a substitute to memory or whatever they want to do. They usually put in a substitute memory. It's happened to Duncan once. We had quite a time running that down but we did.

They can do this to anyone they want. They grab them physically and take them off to one of the hospitals. The law is that any hospital or institution in the U.S. that accepts federal funding must by law have one of these machines on their premises and there must be certain personnel, very limited, trained in its use. Now it can be used for "nominal" electroshock therapy in the normal mode which doctors use, thought it's much more sophisticated now and less damaging. Or they can use it for reprogramming, the same piece of equipment. But to do the reprogramming requires a special floppy disk, which is kept under lock and key and can only be used by certain government personnel.

When they do this number of the reprogramming it's done by government personnel. It is not normally shown [in] their records and there is never a charge made back to a hospital organization or to a hospitalization fund or medical fund of any kind, that is paid for 100% by the federal government and the record's swept under the rug. They put it once on Duncan and they tried to do it again.

SS: They physically snatched him?

AB: Oh yes. We had quite a time tracking this down that one Sunday. But they did do that. It's based on Reich's principle, his old theories. The original programming techniques were more physical, but now they can do it electronically. It's much clearer, so to speak, much easier to accomplish and much easier to cover the tracks. And the law says these instruments, pieces of equipment, shall be made available to non-federally funded institutions. They recommend that they have them but there's no requirement.

SS: Before going on, how do you feel about all this? Do you want to get revenge on these guys?

Where do you stand personally on this?

AB: I would love to get back at some of ... Well, where do I stand? Number one I feel it's long since time that the public knows the facts about how their government has lied to them practically about everything from politics to science to cover-up of secret projects and the abductions of People by the government, I'm not talking about aliens, by the government for reprogramming - plugging them into special projects against their will. Then when they're done with them they either return them to normal life or deep sixing them in many cases.

SS: You sound angry. Are you?

AB: Oh yeah. I'm very angry about it because they wrecked my life, they wrecked Duncan's life, they wrecked the lives of a number of other people who I knew who were on that project, the original Philadelphia Project. They didn't wreck so many lives from the Phoenix Project in terms of breaking family relations and all this sort of thing. But they did eliminate a number of people who were involved in the Phoenix Project. They were literally killed, some accidentally, some deliberate and otherwise reprogrammed and shipped off to God knows where. And a lot of them were shipped off to another time frame so they never were returned to their original point of origin and live their life out wherever they are, under what conditions who knows.

The massive redistribution, if you want to put it that way, of people, reprogramming them is something which is totally alien to our Constitution and our concepts, not only our religious concepts of freedom, but our political concepts of freedom as we have known it under the Constitution for almost 200 years. The Constitution has existed longer but I say almost 200 years because these government programs have come into play since about 1947 and they get worse every year and they're not restricted to the U.S. But the U.S. seems to be the most vicious in it, by far the most vicious. The suppression of men and the control of the media is by far the worst in the US. It's much worse than in Russia. There's more freedom to speak in Russia than there is in this country. I'm speaking of the last year or two not prior.

Appendix IV: A Lecture By Phil Schneider: May 1995

Phil Schneider, a very brave man, recently lost his life due to what appeared to be a military-style execution in January 1996. He was found dead in his apartment with piano wire still wrapped around his neck. According to some sources, he had been brutally tortured repeated before being killed. Phil Schneider was an ex-government engineer who was involved in building underground bases. He was one of three people to survive the 1979 fire fight between the large Greys and U.S. intelligence and military forces at Dulce underground base.

In May 1995, Phil Schneider did a lecture on what he had discovered. Seven months later he was tortured and killed by those for whom he had previously worked. This man's final acts should not go unnoticed.

"It is because of the horrendous structure of the federal government that I feel directly imperiled *not* to tell anybody about this material. How long I will be able to do this is anybody's guess. However, I would like to mention that this talk is going to be broken up into four main topics. Each of these topics will have some bearing on what you people are involved in, whether you are patriots or not.

"I want you to know that these United States are a beautiful place. I have gone to more than 70 countries, and I cannot remember any country that has the beauty, as well as the magnificence of its people, like these United States.

"To give you an overview of basically what I am, I started off and went through engineering school. Half of my school was in that field, and I built up a reputation for being a geological engineer, as well as a structural engineer with both military and aerospace applications. I have helped build two main bases in the United States that have some significance as far as what is called the New World Order.

The first base is the one at Dulce, New Mexico. I was involved in 1979 in a fire fight with alien humanoids, and I was one of the survivors. I'm probably the only talking survivor you will ever hear. Two other survivors are under close guard. I am the only one left that knows the detailed files of the entire operation. Sixty-six secret service agents, FBI, Black Berets and the like, died in that fire fight. I was there.

"Number one, part of what I am going to tell you is going to be very shocking. Part of what I am going to tell you is probably going to be very unbelievable, though, instead of putting your glasses on, I'm going to ask you to put your "scepticals" on. But please, feel free to do your own homework. I know the Freedom of Information Act isn't much to go on, but it's the best we've got. The local law library is a good place to look for

Congressional Records. So, if one continues to do their homework, then one can be standing vigilant in regard to their country.

Deep Underground Military Bases and the Black Budget

"I love the country I am living in more than I love my life, but I would not be standing before you now, risking my life, if I did not believe it was so. The first part of this talk is going to concern deep underground military bases and the black budget. The Black Budget is a secretive budget that garners 25% of the gross national product of the United States. The Black Budget currently consumes \$1.25 trillion per year. At least this amount is used in black programs, like those concerned with deep underground military bases. Presently, there are 129 deep underground military bases in the United States.

"They have been building these 129 bases day and night, unceasingly, since the early 1940's. Some of them were built even earlier than that. These bases are basically large cities underground connected by high-speed magneto-leviton trains that have speeds up to Mach 2. Several books have been written about this activity. Al Bielek has my only copy of one of them. Richard Souder, a Ph.D architect*, has risked his life by talking about this. He worked with a number of government agencies on deep underground military bases. In around where you live, in Idaho, there are 11 of them.

**(Richard Souder -- not to be confused with Richard Sauder, Ph.D, an underground bases researcher and author of the book, "Underground Bases and Tunnels: What is the Government Trying to Hide?")*

"The average depth of these bases is over a mile, and they again are basically whole cities underground. They all are between 2.66 and 4.25 cubic miles in size. They have laser drilling machines that can drill a tunnel seven miles long in one day. The Black Projects sidestep the authority of Congress, which as we know is illegal. Right now, the New World Order is depending on these bases. If I had known at the time I was working on them that the NWO was involved, I would not have done it. I was lied to rather extensively.

Development of Military Technology, Implied German Interest in Hyperspatial Technology, and More

"Basically, as far as technology is concerned, for every calendar year that transpires, military technology increases about 44.5 years. This is why it is easy to understand that back in 1943 they were able to create, through the use of vacuum tube technology, a ship that could literally disappear from one place and appear in another place.

My father, Otto Oscar Schneider, fought on both sides of the war. He was originally a U-boat captain, and was captured and repatriated in the United States. He was involved with different kinds of concerns, such as the A-bomb, the H-bomb and the Philadelphia Experiment.

He invented a high-speed camera that took pictures of the first atomic tests at Bikini Island on July 12, 1946. I have original photographs of that test, and the photos also show UFO's fleeing the bomb site at a high rate of speed. Bikini Island at the time was infested with them, especially under the water, and the natives had problems with their animals being mutilated. At that time, General MacArthur felt that the next war would be with aliens from other worlds.

"Anyway, my father laid the groundwork with theoreticians about the Philadelphia experiment, as well as other experiments. What does that have to do with me? Nothing, other than the fact that he was my father. I don't agree with what he did on the other side, but I think he had a lot of guts in coming here. He was hated in Germany. There was a \$1 million reward, payable in gold, to anyone who killed him. Obviously, they didn't succeed. Anyway, back to our topic - deep underground bases.

The Fire Fight At Dulce Base

"Back in 1954, under the Eisenhower administration, the federal government decided to circumvent the Constitution of the United States and form a treaty with alien entities. It was called the 1954 Greeda Treaty, which basically made the agreement that the aliens involved could take a few cows and test their implanting techniques on a few human beings, but that they had to give details about the people involved. Slowly, the aliens altered the bargain until they decided they wouldn't abide by it at all.

Back in 1979, this was the reality, and the fire-fight at Dulce occurred quite by accident. I was involved in building an addition to the deep underground military base at Dulce, which is probably the deepest base. It goes down seven levels and over 2.5 miles deep. At that particular time, we had drilled four distinct holes in the desert, and we were going to link them together and blow out large sections at a time.

My job was to go down the holes and check the rock samples, and recommend the explosive to deal with the particular rock. As I was headed down there, we found ourselves amidst a large cavern that was full of outer-space aliens, otherwise known as large Greys. I shot two of them. At that time, there were 30 people down there. About 40 more came down after this started, and all of them got killed. We had surprised a whole underground base of existing aliens. Later, we found out that they had been living on our planet for a long time, perhaps a million years. This could explain a lot of what is behind the theory of ancient astronauts.

"Anyway, I got shot in the chest with one of their weapons, which was a box on their body, that blew a hole in me and gave me a nasty dose of cobalt radiation. I have had cancer because of that.

"I didn't get really interested in UFO technology until I started work at Area 51, north of Las Vegas. After about two years recuperating after the 1979 incident, I went back to work for Morrison and Knudson, EG&G and other companies. At Area 51, they were testing all kinds of peculiar spacecraft. How many people here are familiar with Bob Lazar's story? He was a physicist working at Area 51 trying to decipher the propulsion factor in some of these craft.

Government Factions, Railroad Cars and Shackle Contracts

"Now, I am very worried about the activity of the the federal government. They have lied to the public, stonewalled senators, and have refused to tell the truth in regard to alien matters. I can go on and on. I can tell you that I am rather disgruntled.

Recently, I knew someone who lived near where I live in Portland, Oregon. He worked at Gunderson Steel Fabrication, where they make railroad cars. Now, I knew this fellow for the better part of 30 years, and he was kind of a quiet type. He came in to see me one day, excited, and he told me "they're building prisoner cars." He was nervous. Gunderson, he said, had a contract with the federal government to build 107,200 full length railroad cars, each with 143 pairs of shackles. There are 11 sub-contractors in this giant project. Supposedly, Gunderson got over 2 billion dollars for the contract. Bethlehem Steel and other steel outfits are involved.

He showed me one of the cars in the rail yards in North Portland. He was right. If you multiply 107,200 times 143 times 11, you come up with about 15,000,000. This is probably the number of people who disagree with the federal government.

No more can you vote any of these people out of office. Our present structure of government is "technocracy", not democracy, and it is a form of feudalism. It has nothing to do with the republic of the United States. These people are god-less, and have legislated out prayer in public schools. You can get fined up to \$100,000 and two years in prison for praying in school.

I believe we can do better. I also believe that the federal government is running the gambit of enslaving the people of the United States. I am not a very good speaker, but I'll keep shooting my mouth off until somebody puts a bullet in me, because it's worth it to talk to a group like this about these atrocities.

America's Black Program Contractors

"There are other problems. I have some interesting 1993 figures. There are 29 prototype stealth aircraft presently. The budget from the U.S. Congress five-year plan for these is \$245.6 million. You couldn't buy the spare parts for these black programs for that amount. So, we've been lied to. The black budget is roughly \$1.3 trillion every two years. A trillion is a thousand billion. A trillion dollars weighs 11 tons. The U.S. Congress never sees the books involved with this clandestine pot of gold. Contractors of stealth programs: EG&G, Westinghouse, McDonnell Douglas, Morrison-Knudson, Wackenhut Security Systems, Boeing Aerospace, Lorimar Aerospace, Aerospacial in France, Mitsubishi Industries, Rider Trucks, Bechtel, *I.G. Farben*, plus a host of hundreds more. Is this what we are supposed to be living up to as freedom - loving people? I don't believe so.

Star Wars and Apparent Alien Threat

"Still, 68% of the military budget is directly or indirectly affected by the black budget. Star Wars relies heavily upon stealth weaponry. By the way, none of the stealth program would have been available if we had not taken apart crashed alien disks. None of it.

Some of you might ask what the "space shuttle" is "shuttling". Large ingots of special metals that are milled in space and cannot be produced on the surface of the earth. They need the near vacuum of outer space to produce them. We are not even being told anything close to the truth. I believe our government officials have sold us down the drain - lock, stock and barrel.

Up until several weeks ago, I was employed by the U.S. government with a Ryolite-38 clearance factor - one of the highest in the world. I believe the Star Wars program is there solely to act as a buffer to prevent alien attack - it has nothing to do with the "cold war", which was only a toy to garner money from all the people - for what? The whole lie was planned and executed for the last 75 years.

Stealth Aircraft Technology Use by U.S. Agencies and the U.N.

"Here's another piece of information for you folks. The Drug Enforcement Administration and the ATF rely on stealth tactical weaponry for as much as 40% of their operations budget. This in 1993, and the figures have gone up considerably since. The United Nations used American stealth aircraft for over 28% of its collective worldwide operations from 1990 to 1992, according to the Center for Strategic Studies and UN Report 3092.

Guardians of Stealth and Delta Force: 'The Bosnia Conflict

"The Guardians of Stealth: There are at least three distinct classifications of police that guard our most well-kept secrets. Number one, the Military Joint Tactical Force (MJTF), sometimes called the Delta Force or Black Berets, is a multi-national tactical force primarily used to guard the various stealth aircraft worldwide. By the way, there were 172 stealth aircraft built. Ten crashed, so there were at last count about 162. Bill Clinton signed them away about six weeks ago to the United Nations. There have been indications that the Delta Force was sent over to Bosnia during the last days of the Bush administration as a covert sniper force, and that they started taking pot shots at each side of the controversy, in order to actually start the Bosnia conflict that would be used by succeeding administrations for political purposes.

Bombings in the United States

"I was hired not too long ago to do a report on the World Trade Center bombing. I was hired because I know about the 90 some-odd varieties of chemical explosives. I looked at the pictures taken right after the blast. The concrete was puddled and melted. The steel and the rebar was literally extruded up to six feet longer than its original length.

There is only one weapon that can do that - a small nuclear weapon. That's a construction-type nuclear device. Obviously, when they say that it was a nitrate explosive that did the damage, they're lying 100%, folks. The people they have in custody probably didn't do the crime. As a matter of fact, I have reason to believe that the same group held in custody did do other crimes, such as killing a Jewish rabbi in New York. However, I want to further mention that with the last explosion in Oklahoma City, they are saying that it was a nitrate or fertilizer bomb that did it.

"First, they came out and said it was a 1,000 pound fertilizer bomb. Then, it was 1,500. Then 2,000 pounds. Now its 20,000. You can't put 20,000 pounds of fertilizer in a Rider Truck. Now, I've never mixed explosives, per se. I know the chemical structure and the application of construction explosives. My reputation was based on it. I helped hollow out more than 13 deep underground military bases in the United States. I worked on the Malta project, in West Germany, in Spain and in Italy.

I can tell you from experience that a nitrate explosion would not have hardly shattered the windows of the federal building in Oklahoma City. It would have killed a few people and knocked part of the facing off the building, but it would have never have done that kind of damage. I believe I have been lied to, and I am not taking it any longer, so I'm telling you that you've been lied to.

The Truth Behind the Republican Contract With America

"I don't perceive at this time that we have too much more than six months of life left in this country, at the present rate. We are the laughing stock of the world, because we are being hoodwinked by so many evil people that are runing this country. I think we can do better. I think the people over 45 are seriously worried about their future. I'm going to run some scary scenarios by you. The Contract With America. It contains the same terminology that Adolph Hitler used to subvert Germany in 1931. I believe we can do better. The Contract With America is a last ditch effort by our federal government to tear away the Constitution and the Bill of Rights.

Statistics on the Black Helicopter Presence

"The black helicopters. There are over 64,000 black helicopters in the United States. For every hour that goes by, there is one being built. Is this the proper use of our money? What does the federal government need 64,000 tactical helicopters for, if they are not trying to enslave us. I doubt if the entire military needs 64,000 worldwide. I doubt if all the world needs that many. There are 157 F-117A stealth aircraft loaded with LIDAR and computer-enhanced imaging radar. They can see you walking from room to room when they fly over your house. They see objects in the house from the air with a variation limit of 1 inch to 30,000 miles. That's how accurate that is. Now, I worked in the federal government for a long time, and I know exactly how they handle their business.

Government Earthquake Device

AIDS as a Bioweapon Based on Alien Excretions

"The federal government has now invented an earthquake device. I am a geologist, and I know what I am talking about. With the Kobe earthquake in Japan, there was no pulsewave as in a normal earthquake. None. In 1989, there was an earthquake in San Francisco. There was no pulse wave with that one either. It is a Tesla device that is being used for evil purposes.

The black budget programs have subverted science as we know it. Look at AIDs, invented by the National Ordinance Laboratory in Chicago, Illinois in 1972. It was a biological weapon to be used against the people of the United States. The reason I know this is that I have seen the documentation by the Office of Strategic Services, which by the way is still in operation to this day, through the CDC in Atlanta. They used the glandular excretions of animals, humans and alien humanoids to create the virus. These alien humanoids the government is hobnobbing with are the worst news. There is absolutely no defense against their germs - none. They are a biological weapon of terrible consequence. Every alien on the planet needs to be isolated.

"Saddam Hussein killed 3.5 million Kurdish people with a similar biological weapon. Do we, the people of this planet, deserve this? No, we don't, but we are not doing anything about it. Every moment we waste, we are doing other people on the planet a disservice.

Right now, I am dying of cancer that I contracted because of my work for the federal government. I might live six months. I might not. I will tell you one thing. If I keep speaking out like I am, maybe God will give me the life to talk my head off. I will break every law that it takes to talk my head off.

Eleven of my best friends in the last 22 years have been murdered. Eight of the murders were called "suicides." Before I went to talk in Las Vegas, I drove a friend down to Joshua Tree, near 29 Palms. I drove into the mountains in order to get to Needles, California, and I was followed by two government E-350 vans with G-14 plates, each with a couple of occupants, one of which had an Uzi. I knew exactly who they were.

I have spoken 19 times and have probably reached 45,000 people. Well, I got ahead of them and came to a stop in the middle of the road. They both went on either side of me and down a ravine. Is this what its going to take? I cut up my security card and sent it back to the government, and told them if I was threatened, and I have been, that I was going to upload 140,000 pages of documentation to the internet about government structure and the whole plan. I have already begun that task.

"Thank you very much."

By Cynthia Drayer (ex-wife of Phillip Schneider)

My name is Cynthia Drayer, I live in Portland, Oregon, and I am the ex-wife of Philip Schneider. Philip and I met in 1986, were married in Carson City, Nevada, and had a daughter, Marie, in 1987. We were divorced in 1990 and lived in separate residences. Philip lived in an apartment complex in Wilsonville, Oregon. On 1/17/1996 I received a call that Philip was dead in his apartment and apparently had died up to a week before his body was discovered. At the time of the removal of his body, his cause of death was by a stroke.

When I went to the funeral home I had feelings of discomfort about his death. I asked to view the body, but due to decomposition, the funeral director suggested otherwise. I wanted to be sure, in my own mind, that Philip had not died under "unnatural causes". For the last two years of his life, Philip had been on the "lecture tour" throughout the United States, talking out about government coverups.

You name it, he was talking about it: Aliens (treaties and abductions), UFO's, the One World Government, Black Budgets, Underground Mountain Bases, CIA involvement in civilian murders and drugs, Stealth technology, the Philadelphia Experiment, Operation Crossroads (Bikini Island A-bomb experiments), Dulce Fire Fight, the Oklahoma bombing, the World Trade Center bombing, missing children, Gunderson Freight Cars, the opening of concentration camps and Marshal Law/UN involvement, man-made viruses and earthquakes, etc.etc.

A day later, I received a call from the Clackamas County Detectives, that the funeral director had found "something" around Philip's neck. An autopsy was performed at the Multnomah County Medical Examiner's office (in Portland, Oregon) by Dr. Gunson, and she determined that Philip had committed suicide by wrapping a rubber catheter hose three times around his neck, and half-knotting it in front.

There are several reasons why I believe that Philip did not commit suicide, but was murdered:

1. There was no suicide note.
2. Philip always told his friends and relatives, that if he ever "committed suicide" you would know that he had been murdered.
3. From a number of sources, including his taped lectures (video and audio), and statements to his friends, and the borrowing of a 9mm gun, Philip felt that he and his family were being threatened and were in danger because of his lectures.
4. All of his lecture materials, alien metals, higher math books, photographs of UFO's coming out of the Operation Crossroad ABomb, notes for his book on the alien agenda, were missing. (Everything else in the apartment was still there, including gold coins, wallet with hundreds of dollars, jewelry, mineral specimens, etc.)
5. No coroner ever came out to his apartment after his body was found (against Oregon Law) - and a police investigation never took under consideration that items were missing from his apartment - it was considered a suicide, plain and simple
6. The medical examiner took blood and urine samples at the autopsy but REFUSED to analyse them, saying that the county would not "waste their money on a suicide". Although I was assured that the samples would be kept for 12 months, when I asked for these samples to be sent to an independant lab 11 months later they were "missing" and presumed "destroyed".
7. Philip had missing fingers on his left hand, and limited motion in his shoulders. I believe that it was physically impossible for Philip to have held the rubber hose in his left hand with missing fingers and then wrap the hose three times with shoulders that had limited motion. In order to end up where his body was, he had to sit on the edge of his bed, wrap the hose around his neck, slowly and painfully strangle to death, and fall head first into a wheel chair.
8. Philip was an expert in chemicals and his own medical needs. He had multiple pills at hand that could have ended his life quickly and painlessly. He also had a 9mm gun that he had borrowed to protect himself. Why strangle himself in such an unusual manner?

9. Philip was very religious, and did not believe in suicide. He had intense chronic pain all of the time I knew him. At the time of his death, he was on disability, had a housekeeper, and had cancer. The operation to help him with his back pain did not alleviate the pain and he had brittle bone syndrome (osteoporosis). He struggled every day, not to die, but to live. He felt that the lectures he gave were making a difference, and was looking forward to giving more. In fact he was scheduled for another lecture tour that started 1/16/96 in Tampa, Florida. He had just found a friend who was going to help him write a book about the New World Order, and he was enjoying his time with his daughter.
10. Philip was undergoing "injections" of "Beta Serone" every week in an experiment to stop his multiple sclerosis. After his death I contacted the only agency that conducted these experiments to obtain his medical record (OHSU). They had never heard of him, and he was not a part of their experiments. This would suggest people unknown were injecting him on a weekly basis with an unknown substance. He often times called me after these "shots" to tell me that he was too sick for his daughter to come and visit. I believe that the shots that Philip thought were being given to him to help him back to health, were actually being given to him to make him sick.
11. Philip was seen with an "unknown blonde haired woman" for several months before his death. Several times this same individual was seen or talked about and her mysterious presence only leads one to wonder if she had anything to do with his "suicide".
12. Several people with psychic abilities have indicated that Philip did not commit suicide, but was murdered (some say by 5 people: 4 men and 1 woman, 4 directly and one by taking out a "contract").

It is perhaps important to know WHY Philip began lecturing.

Firstly: His background was as a Structural Engineer. He was an expert on explosives and their effects on geologic structures. He worked under two social security numbers. Most of his early work in underground mountain bases with Morrison-Knudsen was done using the wrong social security number. I was later able to prove that he had two numbers through the social security office when I applied for his daughter's death benefits. He worked for the Army Corps of Engineers and U.S. Navy with the same wrong number. Only after he obtained SSI in 1981 did his "real" number come into play. He always told me that he had a Rhyolitic Clearance and that his father had a Cosmic Clearance from his work with NATO. And that is the second reason why Philip began lecturing.

Secondly: On top of his first hand knowledge about underground mountain bases and government black budgets, and the alien agendas (he was one of the survivors of the Dulce Fire Fight with aliens in New Mexico) his father was also involved in government black projects.

When Philip's father, Captain Oscar Schneider, Medical Doctor, United States Navy, died in 1993, Philip discovered documents and photographs in his father's basement which proved that Oscar had been involved in both the Philadelphia Experiment and Operation Crossroads. Philip now had letters written in the 1940's and 1950's showing that Oscar helped to isolate the crewmembers of the Philadelphia Experiment and that Oscar later autopsied them as they died.

He also had photographs of UFO's fleeing through mushroom clouds after the A-bomb was dropped above the lagoon at Bikini Atoll. This was "Operation Crossroads" and Oscar was involved in medical examinations of the animals and humans exposed to radiation after the bomb was dropped.

Thirdly: I believe the main reason why Philip began to lecture was due to the "murder" of his friend Ron Rummel. (*Note from Stephanie Relfe: See an alternative explanation at the end of this appendix*). Ron was found in a park in Portland in Sept. 1993. The police believed that he had committed suicide by shooting himself in the mouth.

However, if you read the detectives report, there is blow-back blood on Ron's hand, but NO BLOW-BACK BLOOD ON THE GUN. The only way this could happen is if Ron had wiped the gun off AFTER he had shot himself in the mouth. Ron, Philip, and 5 other people had been collaberating on a little magazine called "The Alien Digest". It was starting to get a fairly wide circulation, when Ron was found in the park. Philip felt that his friend had been murdered, and decided that it was time to get everything out into the open, so he began "spilling the beans", and ripped up his security clearance card.

Pufori, through Jeroen Wierda, is one of several agencies and individuals that have taken up the call for justice in Philip's death.

My hopes are:

1. That Philip's death certificate will eventually be amended with the true cause of his death: murder.
2. That the world will come to know the truth about aliens, UFO's, the government cover-ups, black budgets, etc. and how they are affecting us.
3. That assets that belong to his only heir, Marie, can be located and turned over to her.

4. That Philip's true work quarters can be proven by people coming forward with information about knowing him before 1981, and that his daughter can eventually obtain the death benefits she deserves.
5. That no more "murders by suicide" ever occur to another individual.

Please look over the information contained in this website. The "truth is out there" and it is here.

Sincerely, Cynthia Schneider Drayer

Why Phil Schneider went Public

By Stephanie Relfe

Michael and I were told by someone who knew Phil what it was that finally drove him to go public.

Apparently one day he was asked to be present at a meeting of the New World Order in an underground base. He saw roughly 160 world leaders seated in an auditorium. But down the front there were 12 empty reserved seats. He was wondering who they were reserved for. What he saw next made his blood run cold. 12 tall Grey aliens entered and sat in the empty seats. After that, Phil knew that he could no longer stay silent.

Appendix VI: Deliverance & Spiritual Warfare

by Michael Relfe

The following sections on Deliverance do not necessarily reflect the views of Stephanie Relfe, at least with regard to reincarnation, psychic powers and the power of women.

The ministry of deliverance is defined by the supernatural phenomena of the removing or “casting out” of demonic entities from wherever they happen to abide (humans, animals, objects and places), utilizing the authority given by The Lord Jesus Christ. Jesus Christ gives this authority to HIS people, not to the general public at large.

Deliverance is the core ministry of what is commonly known as “spiritual warfare”. This article is not meant as a complete book on spiritual warfare. It is meant to give some basic key concepts as well as resources for further study.

Spiritual warfare in general and deliverance in particular is a **one way street**. Acting with the unlimited power of THE LORD JESUS CHRIST, from the very first direct encounter with satan’s kingdom, you will never be the same again. At the moment your first wield the power of God you will be a marked person. Satan will never forget that you dared fight against his kingdom. This will encourage you to thank God daily for HIS victory over the enemy.

Some weapons used in this war are as follows :

- Deliverance
- Forgiveness
- Returning Curses To The Sender
- Breaking Soul Ties
- Binding Demons
- Baptism In The Holy Spirit
- Pleading The Blood Of Jesus
- Spiritual Camouflage
- Warfare Prayers
- Breaking Curses
- Renouncing Oaths
- Healing The Fragmented Soul
- Loosing The Spirits Of God
- Sins Of The Fathers
- Praying for angelic protection
- Group Deliverance

An excellent way for you to become educated in spiritual warfare is to obtain a copy of the Moody Deliverance. This manual is \$7.50 (almost 400 pages) and available from Deliverance Ministries, Gene B. Moody, Ordained Minister, 14930 Jefferson Highway, Baton Rouge, LA 70817-5217

Chapter 15 – Part 16

HOW NOT TO DO DELIVERANCE

Some Advice - For the person who wants God to use him or her for deliverance work among those possessed by evil spirits, here is some advice:

1. The person ministering in the area of deliverance is in a position of all-out warfare with the forces of evil. Many have fallen by the wayside because of ignorance of Bible and deliverance, still having many demons within themselves, women and men ministering by themselves, being lured by false doctrines, etc.

2. Demons can be very stubborn and highly seductive. Demons do not easily come out when they have a right before God to stay due to unconfessed sin, curses, soul ties, etc. They can lure the man or woman who is alone into a sex trap destroying the ministry, their family and others who are following that leader.

3. Effective weapons used against ministers are carelessness, pride, immorality, taking God for granted, spiritual weakness, and affliction of wife or husband where the minister refuses to yield to God.

4. Deliverance ministers should train their families and involve them in deliverance work. Husband and wife should minister together as a team if possible.

5. Unforgiveness is the biggest hindrance to answered prayer and to casting out demons. Unforgiveness between husband and wife is especially a hindrance.

Overall View of Deliverance - Deliverance consists of about three equal parts: teaching, casting out and counseling. Christians generally either do not get involved or only get involved slightly. Because of this, there are weaknesses in the ministry of deliverance. Deliverance will not be completely successful unless there is a balance in the church of teaching, ministry and counseling.

The biggest weakness is trying to cover deliverance by just casting out demons without proper teaching or counseling. Here, many Christians only go after the surface demons and do not go after the root causes of why the person got into those problems in the first place.

The second biggest weakness is not walking out the deliverance. After the demons are cast out, a person must change their ways of thinking and acting, and discipline their life or they will let the demons come back into them. A person needs extensive counseling to help them do this and they must decide to change their lives.

The third biggest weakness is the lack of teaching on deliverance. There is a large body of knowledge about deliverance but you hear little practical teaching come from the pulpit.

Comments - Single men and women must be very careful in ministering deliverance. Satan wants to destroy your ministry by the appearance of sexual sin or by falling into that trap.

Deliverance Myths - There is much ignorance and many myths about deliverance. Deliverance is the most misunderstood part of the Christian life. Many deliverance workers and ministers do not realize how demonized they and the Christian body are. Sometimes they fall by the wayside because they do not continue to purge their bodies of demons. Unless the Church gets involved on a regular basis with deliverance, many Christians will continue to be defeated by Satan.

When the young Christian starts to cast out demons, he will make statements like, "You are completely free of demons." Jesus never told anyone in the Bible that they were completely free of demons.

Battle Myths - There are many myths about Christian warfare. Satan is a good Devil, a worthy Adversary, at what he does; he works twenty-four hours a day to destroy us. He will probably take about 98% of the world population and 75% of the church population to Hell with him. Matt. 7:14, Because strait is the gate, and narrow is the way, which leadeth unto life, and few there be that find it. All we need to have in the church is token deliverance. I can keep my cursed objects without causing any harm. We can get all of our demons cast out in one grand event. I am sure you realize that these are **false** statements.

The Woman Question - Consider the basic way a woman thinks. What happens to a woman in her mind when she has no male leadership? Should a man minister to a woman alone in deliverance? Should a woman minister to a man alone in deliverance? What is the possible happening? We minister as a husband and wife team. What are the advantages of this method? What about protection from sex traps laid by Satan?

Assume a woman minister travels with another woman. What are the pitfalls? Assume a woman who ministers by herself is either married or unmarried. What are the pitfalls? Assume a woman who ministers is married and her husband is unsaved or saved, and will not travel with her. What are the pitfalls?

Comments - Common teaching is that a Christian can not have a demon. Churches need demonstrations to show the manifestations to the congregations. It will be very difficult for a woman who has an unsaved husband to be effective in deliverance. They are not in agreement, woman is weaker vessel, she must go by herself, etc. A woman is much more effective when she is married and her husband is a believer who practices deliverance. Transfer of spirits can not occur unless there is a crack in your armour.

Loudness Of Voice - Many people feel that if you shout or scream at demons that they will come out sooner. The contrary is true. If the demons feel that you don't know your authority or how to cast out demons, they will feel that you are in a weak position and will resist leaving.

The formula for casting out demons is Mark 16:17, And these signs (signs, wonders and miracles) shall follow them that believe (Christians that believe the Bible); In my name (Jesus Christ) shall they cast out (command out) devils; they shall speak with new tongues. An analysis of this verse reveals that you must believe the Bible in what it says about casting out demons, you cast them out in the Name of Jesus, and signs will follow your ministry. I charge you by Jesus Christ to cast out demons if you are a Christian. Even children can cast out demons in the Name of Jesus.

Laying Hands On Others - This is an area that is dangerous and caution must be exercised because of the potential harm to individuals and God's Kingdom. A good verse to ponder is I Tim. 5:22, Lay hands suddenly on no man, neither be partaker of other men's sins: keep thyself pure.

It is not necessary to lay hands on someone to cast out demons. In some cases it is better not to lay hands on the person being ministered to. This is especially true when casting out sexual demons from the opposite sex. You need to be led by the Holy Spirit in what to do.

If you have sexual demons within you, they will interact with the sexual demons in the other person. They will stir up emotions in either or both individuals. This is especially true between the opposite sex, or between homosexuals, or between lesbians.

We have observed men laying hands on women, and women laying hands on men. The safest way is to lay hands on the top of the head. Next in safeness is to lay hands on the shoulder. Many times God heals by the lengthening of legs and straightening of the back. In this instance it is safe to hold a persons shoes and pray for them. In between the head and shoulders, and the feet is the danger zone of eroticism (sexual arousal). This is the area that stirs up sexual feelings.

The way a person ministers to others reveals what is going on inside them.

Suppose that a person has latent homosexual or lesbian demons that they are not aware of. Then, they will want to love on men and boys, or women and girls. They may want to lay hands on their sexual organs and to kiss them to get rid of the homosexual or lesbian demons. This actually invites these type of demons to attack the person being ministered to and satisfies the demons within the person doing the ministering. Ministers have that tendency if they are not careful.

Comments - Some women want to be lord over the men in deliverance; they feel justified even if they are wrong. Men and women should not be in competition. Some deliverance does more harm than good if not done properly such as pulling out a person's eye to get rid of the demon. Their doctrine should be sound and according to the Bible.

Traveling Ministries - Suppose that a man or woman travels alone in the ministry. This person could be single or married. If married, the mate is not traveling with that person. Sexual pressures and loneliness may build up in the traveling evangelist. There may be an unconscious desire to love on the person being ministered to; this satisfies the unfulfilled desire within the minister. This is extremely dangerous and has caused many divorces and loss of ministries.

Outside of the desire to live, sex is the greatest drive in mankind. The big three used to destroy a person's relationship with God are money, sex and power. Sex is a playground for Satan and he has used it to destroy multitudes of Christians, ministers and churches.

The Bible clearly states that the woman is weaker than the man. A woman traveling alone is more vulnerable than a man traveling alone. The woman is also subject to being raped or molested. However, it is now getting to the point where men are being raped too.

Suppose that the woman is a lesbian or has lesbian tendencies, is manly or has manly qualities, or has problems with rejection and not being loved. Traveling with another woman may lead to a lesbian relationship. If a woman looks like, acts like or dresses like a man, then she is a candidate for this problem.

Private Ministry - A man should not minister to a woman alone and a woman should not minister to a man alone. What frequently happens is that the couple ends up in bed having sex. Suppose that the minister is a man of God. Many women will come to him with their problems of a serious nature. He may feel sorry for them and try to comfort their feelings. If he does not go about this ministry in a proper way, then he is on the abcess of destruction which can lead to Hell.

Suppose that the minister is a woman of God. She may feel that she is strong and not subject to the temptations of mortal woman. Due to her lack of a man, she may go overboard in ministering to the man and make a fool out of herself. She may feel that she can minister to the man in her motel room which is the ideal setup for Satan's mischief.

Husband and wife can protect each other from the opposite sex. You should ask yourself this question, "How am I opening myself up to sexual attack?"

Comments - Pastors can lay hands on women improperly and open themselves up to demon attack. Women should lay hands on women and men on men in places where it would be inappropriate for the opposite sex to place their hands. One problem area is that women want to be counseled privately by their male pastor. A lot of mischief can happen behind closed doors leading to sex even in the church.

Deliverance is not a parlor game! - Deliverance is not a plaything to make the meeting interesting. It is deadly serious and can make the difference between life and death, or a victorious life here and in the hereafter. We should not practice token deliverance in our meetings or churches.

Deliverance is not a grand event! - Deliverance is a way of life probably until we die and God takes over our training. Christians are very demonized and require years for cleansing and retraining so that the demons are not let back in.

You can't keep your cursed objects and stay free! - If you persist in keeping your cursed objects, then you are cursed and the demons have a right to attack you, your family and what you have. Don't expect the demons to let you alone when you give them a right before God to torment you.

Fallen Deliverance Ministers - It is amazing to see the casualties among deliverance ministers. These should be the strongest of Christians and the most knowledgeable of the Word. They are trapped by not confessing sin, not crucifying the flesh and not casting out demons in their lives. They are trying to help others when they need help themselves. They are immature and do not know the Word of God or much about deliverance. They have received a measure of deliverance but need much more.

It is also amazing to see these fallen men and women get into false doctrine. A big problem is their pride, ego and vanity. They want to be Number One or have the Preeminence. They want others to tell them how great they are. A common problem is being overweight and indulging themselves on food rather than the food of the Word. Most can not take constructive criticism and are very sensitive about their weight.

We all pay for our mistakes in the here-and-now and in the here-and-after. These people are not open minded and will not change. Therefore, their organizations suffer from their bad decisions of judgement in the mental, spiritual and material realms.

Comments - When praying for someone in a group, the group needs to yield to the person that God has given the authority and discernment. Follow their leadership. Share a Word of Knowledge with the leader. There needs to be discipline and not confusion. Everybody does not have to call the demon out. You do not need crying, loudness, wildness, shouting and disorder. The group needs to pray, agree, give support and have unity. The Holy Spirit needs to be followed so that God's battle for the individual can be won. The leader should not fall for trying to take God's glory.

Difficulty in Driving Demons Out - Some demons come out easily and some demons take hours to drive out. A worthless command is, "All demons come out of this person or everyone in the congregation or everyone in the world now in the Name of Jesus." Another worthless statement is, "All of your demons are gone." How do you know that all of their demons are gone? Can you see into the body and soul of the person? If Jesus didn't say this, how can you?

Agreement Between Husband and Wife - When husband and wife agree, there is great power before God. When husband and wife disagree, there is weakness before God. In the deliverance ministry, they need to support each other. They can not be careless, take God for granted, or not do the things that a Christian must do. They need to train the children also about the battle. Satan will attack the children of a couple that minister in deliverance.

Comments - Inner healing, visualization, etc. is a cop-out for not doing deliverance. If you do deliverance, then inner healing is not required. If you only teach deliverance or only cast out demons or only counsel about deliverance, you will fail; to succeed you must do all of these things. A lot of Christians quit along the way such as after salvation, baptism, healing; you need to follow through to freedom. Teach deliverance - minister by casting out - counsel afterwards.

Three-Fold Deliverance - The three arms of deliverance are teaching, ministering and counseling. If they ever get around to it, the church usually wants to cast out the demons and get this messy subject over with so that they can go on to more glorious services. Suppose the man is a drunk. Then, they will try to cast out drunkenness and not find out why the man became a drunk. This is surface or token deliverance: deal with the surface demons and not the root causes.

If you don't deal with the reasons why the person became an alcoholic, then he will probably let the demon back in. It is difficult to dig out the root causes and is time consuming, requires discernment and must have the power of God.

Those who don't believe in deliverance say that all a Christian has to do it to crucify the flesh. In a sense they are right; you must crucify the flesh to be successful in deliverance. You can't get your pet demon cast out and go back and do the same thing again. Examples: smoking - the demon is cast out and the person goes out and buys a pack of cigarettes again; gluttony - the demon is cast out and the person goes and eats three pieces of pie.

Teaching and counseling must be continuing. You don't just bring in the deliverance minister once a year and that takes care of everything, or you minister to a person and you don't need to talk to that person again. This is the same problem that a new Christian faces after salvation - the need for continual feeding and growth.

Comments - Christians have many demons including the five-fold ministry. It is fantasy to believe that all it takes is one session of deliverance for life. Demons are very common there are multiplied billions so that everyone can have their share. We cast about 10,000 demons out of one man over a period of about a year. This helped show us how demonized people were. Most of the people we have worked with are Full Gospel Christians. You are like a house with many rooms; every room needs to be cleaned. Search and destroy every problem that is ungodly so you can follow God. Deliverance is not for the unwilling or un-Christian; it is a waste of time. You can intercede, pray and war for them. Don't cast out demons from the non-Christian; you are doing them a disservice. Try to get them to accept Christ. The best way is face-to-face; next best is phone line to phone line. You can cast out demons across the world on the phone. If the person is willing and will submit to your leadership, then deliverance can be effective over the phone. There is no distance in God and He can be everywhere at once. Your mate needs to agree with you and both need to walk the Christian walk. There must be good communications and openness between mates who are in deliverance. Allow your wife to have her say and do not become bitter against her.

In preparation for a deliverance session, it is very important to free oneself from legal holds and legal bonds of the enemy. Perform these warfare prayers prior to the start of your deliverance session.

The following warfare prayers are reprinted with the permission of Hegewisch Baptist Church.

Warfare Prayers and Deliverance by Win Worley

Father, in the name of Jesus, we pray and confess that the Spirit of the Lord shall rest upon {Name pastor}; the spirit of Wisdom and Understanding, the spirit of Counsel and Might, and the spirit of Knowledge.

We pray that as Your Spirit rests upon {Pastor} it will make him of quick understanding because You, Lord, have anointed and qualified him to preach the Gospel.

You have sent {Pastor} to bind up and heal the broken-hearted, to proclaim liberty to the physical and spiritual captives and the opening of the eyes and of the prison for those who are bound. {Pastor} shall be called the priest of the Lord; people will speak of him as a minister of God and he shall eat the wealth of the nations and the glory shall be the Lord's.

We pray and believe that no weapon, which is formed against {Pastor} shall prosper and that any tongue that rises against him in judgment shall be shown to be in the wrong. We pray that You prosper {Pastor} abundantly, Lord - spiritually, physically and financially.

We confess that {Pastor} holds fast and follows the pattern of wholesome and sound teaching, in all faith and love in Christ Jesus. {Pastor} lovingly guards and keeps the Truth which has been entrusted to him by the Holy Spirit.

Lord, we pray that each day freedom of utterance will be given {Pastor}; that he will speak boldly and courageously. Thank you for the extra strength that You have given him.

We hereby confess that we shall stand behind {Pastor} and undergird him in prayer. We will say only those good things which will edify {Pastor}.

We will not allow ourselves to judge him, but will continue to intercede for him and speak and pray blessings upon him in the name of Jesus. Thank You, Jesus, for the answers.

Father, I confess that in the past I have held unforgiveness, sometimes bitterness and resentment in my heart against certain people who have hurt or disappointed me. I now recognize this as sin and confess it as sin, for You have said in your Word that if we confess our sin, You are faithful and just to forgive us our sins and to cleanse us of all unrighteousness (1 John 1:9). I do now forgive the following people whom I can remember, who have hurt or disappointed me. {Insert here the names of all who come to mind}. I now freely forgive all these people and ask You to bless them if they are living. I also forgive myself for all my many faults and failures for You have freely forgiven me. Thank You, Father, for freedom from the load of unforgiveness, bitterness and resentment. In Jesus Name, Amen.

I come to You Lord Jesus, as my Deliverer. You know all my problems {name them}; all the things that bind, torment, defile, and harass me.

I now loose myself from every dark spirit, every evil influence, every satanic bondage, and from every spirit in me which is not a spirit of God. I command all such spirits to leave me now in the name of Jesus Christ.

Through the blood of Jesus, I am redeemed out of the hand of the devil. Through the blood of the Jesus, all my sins are forgiven. The blood of Jesus Christ, God's Son, is cleansing me now from all sin.

Through the blood of Jesus, I am justified, made righteous, just as if I had never sinned. Through the blood of Jesus, I am sanctified, made holy, set apart for God.

My body is a temple for the Holy Spirit, redeemed, cleansed, sanctified - by the blood of Jesus. I belong to the Lord Jesus Christ, God's Son - body, soul and spirit.

His blood protects me from all evil. Because of the blood of Jesus, Satan has no more power over me, no more place in me. I renounce him and his hosts completely and declare them to be my enemies.

Jesus said, "And these signs shall follow them that believe: In My name shall they cast out devils." (Mark 16:17). I am a believer, and in the name of Jesus Christ, I exercise my authority and expel all evil spirits. I command them to leave me now according to the Word of God and in the name of Jesus Christ.

I place the blood of the Lord Jesus on our door posts (Exodus 12:13); I draw the bloodline of Jesus around all of our possessions and properties; (Joshua 2:18); and I sprinkle (Ex 24:8; 29:20,21; Leviticus 1:5; 4:6); or place the blood of Jesus upon myself and my family.

In the name of Jesus, I forbid and block for myself and my family all Satanic and demonic activity in our lives; all harming and hurting; all lying and deceiving; all manifesting and influencing; all transference of evil spirits; and all thought, communication, advice, control, power and strength between the demons in us with each other; between the demons in us with those in the heavenlies and in other people.

Lord Jesus, I pray for myself and my family {name them}, I commit our lives to You totally (bodies, souls and spirits). I ask that You bend, break and mold us to make us into the persons that You want us to be.

Satan, I come against you and all your hosts; I reject and refuse all the snares, pits and traps you have set up to draw us away from the Lord Jesus Christ and deliverance. I rebuke, reject, renounce and resist you and your hosts, Satan, in the name of the Lord Jesus Christ.

Father, I ask for Your best in our lives today, that Your will and purpose be done in and through us. I also ask that everything which comes today will be used to keep us in Your perfect will as yielded vessels for Your work. May we bring honor, praise, glory, blessing and joy to You today.

For myself, family and friends, in the name of Jesus Christ, I break all curses, bind Satan and the rulers, strongmen, doorkeepers and evil spirits of, over, in and working through our entire lives and beings; our bodies, souls, spirits, homes, schools, churches, jobs, possessions, properties, finances, businesses, each president, owner, board of directors, employer, employee, treasurer, customer and the finances of these businesses.

In the name of Jesus, I break all curses and bind and cast Satan's spirits out of each category just named and, especially from us: all hindrances to spiritual growth, our bodies (infirmities, sicknesses, weaknesses, deformities) and our souls (minds, wills, emotions).

In the name of Jesus, I now renounce, break, free and loose myself and my family from all psychic heredity, demonic holds, psychic powers and bondage of physical and mental illnesses, family and marital and other curses upon us, back to ten generations on both sides of our families resulting from sins, transgressions, iniquities, occult and psychic involvement's of myself, my parents and any other ancestors of mine or my spouse, any and all ex-spouses, or their parents, or any of their ancestors.

I take authority over every foul demon spirit in the name of Jesus Christ. You have no legal right or grounds to reside in this body. Jesus Christ obtained an order of eviction 2,000 years ago at Calvary for you. It is written and signed by the Lord Jesus Christ in His blood.

I ask my Father in heaven, by His Son, Jesus Christ, to send angelic sheriffs to execute this order of eviction. You must vacate God's property now or be forcibly removed. This is the only warning you will receive.

In the name of Jesus Christ, I break curses on both sides of our families back to Adam and Eve which would interfere with our future happy marriages, families, descendants, and ministries. I specifically break any curses of illegitimacy which may be on me or my family back to ten generations on both sides of the family. I destroy every legal hold, ground and right that demons have to work in our lives. I bind and command all connected, related and resulting demons to leave me now (Galatians 3:13, Colossians 2:14-15).

Heavenly Father, I come to You now for myself and my family. We have been rebellious, disobedient, stubborn, obstinate, ungrateful and many other things which you have forbidden in Your Word.

We do now renounce and forsake these sins and ask to receive forgiveness and deliverance, in Jesus' name, from these and all connected, related and resulting demons.

Father, I renounce unbelief, doubt, lies, and fear. I ask forgiveness for these and bind and cast them out of us. I ask You to replace them with spirits of truth, faith, trust and confidence in You and help us to have contentment, peace and rest in You.

Thank you Lord Jesus for dying for my sins, for your glorious resurrection; and for making me a new creature in Christ by faith in Your precious blood.

Dear Lord I confess that, in the past, through ignorance, stupidity or willfulness, I have sought supernatural experiences apart from You. I have disobeyed Your Word (Deuteronomy 17:2-5, 18:10-12) and ask You to help me as I renounce all these things.

Lord, cleanse me in body, mind, soul and spirit. Satan, I am closing any door which I may have opened to you and your demons through contacts with the occult.

I renounce all contact with witchcraft, magic, Oui-Ja boards and other occult games;

I renounce all kinds of fortune telling, palm reading, tea leaf readings, crystal balls, Tarot and other card playing; all astrology, birth signs and horoscopes;

I renounce the heresy of reincarnation and all healing groups involved in metaphysics and spiritualism.

I renounce all rock music, including acid, hard and Jesus rock;

I renounce all yoga, transcendental meditation, Zen and all eastern cults and religious idol worship;

I renounce all forms of the martial arts, including Judo, Kung Fu and Karate;

I renounce all water witching or dowsing, levitation, table tipping, body-lifting, psychometry (divination through objects), automatic handwriting and handwriting analysis;

I renounce all literature I have ever read and studied in all of these fields and vow I will destroy such books in my possession (Deuteronomy 7:26; Acts 19:19);

I renounce astral projection, soul and out-of-body travel and other demonic skills.

In the name of the Lord Jesus Christ, I renounce all psychic heredity that I may have and break any demonic hold on my family line back to seven generations on both sides of the family.

I do now renounce and forsake every psychic and occult contact that I know about and those which I do not know about.

I renounce every cult that denies the blood of Jesus Christ and every philosophy which denies the deity of the Lord Jesus.

Lord, I confess seeking from Satan the help that should have only come from God. I confess as sin {name all occult contacts and occult sins committed} and also those occult sins I cannot remember.

Lord, I now repent and renounce all these sins and ask You to forgive me (I John 1:9). I renounce Satan and all his works. I hate all of his demons; I count them my enemies. In the name of Jesus Christ I now close the door on all occult practices and command all such spirits to leave me in the name of Jesus Christ.

Satan, I put you and your demons on notice that I do now renounce any and all legal holds or grounds which spirits of Mind Control may have on me. In the Name of Jesus Christ I renounce every contact with Mind Control which I know about and also those I do not know about.

Specifically, I renounce any Mind Control holds or evil soul ties on me from the following people {mention names of family members, past/present friends, acquaintances, doctors, psychologists, psychiatrists, psychics, religious leaders, preachers, etc.}.

I also renounce any and all Mind Control manipulations which I may have exercised, knowingly or unknowingly toward {names of family members, children, past/present friends, acquaintances, etc.}

I do now renounce any and all Mind Control holds or ties from any groups or organizations (occult, witchcraft, karate; transcendental meditation; yoga groups; cults or churches teaching false doctrines and individual musicians or groups). I claim my freedom from all these things in the name of my Lord and Saviour Jesus Christ because of His resurrection victory over all the power of the enemy.

In the name of Jesus Christ, I now rebuke, break and loose myself and my family from any and all evil curses, fetishes, charms, vexes, hexes, spells, every jinx, all psychic powers, sorcery, bewitchments, enchantments, witchcraft, love potions and psychic prayers which have been put upon us, back to ten generations on both sides of the family.

I break and loose myself from any connected or related spirits from any person or persons or from any occult or psychic source. I ask You, Heavenly Father, to return them to the senders now! (Genesis 12:3,28; 27:29; Deuteronomy 30:7; Psalm 109:17-19). Let him that loves cursing receive it unto himself (Psalm 109).

IN THE NAME OF JESUS CHRIST, my Lord and Savior, I bind all principalities, powers in the air, wickedness in high places, thrones, dominions, world rulers and strongmen over and within (_____) (person prayed for).

I **BIND** any and all witchcraft control, mind blinding spirits, spirits that block and/or bind the will, mind and emotions, mind control, destruction, lust, rebellion, rejection, paranoia, schizophrenia, anger, hatred, resentment, bitterness, unforgiveness, unteachableness, deception, Ahab and Jezebel, doubt and unbelief, fears, drugs, rock music, hypnosis and hypnotic trance and alcohol. I bind kings, princes, and world rulers for each evil spirit here named. I strip each spirit and each hierarchy of power, armor and rank, and separate each of them from one another.

I BIND all evil, touching the senses, sight, smell, taste and hearing, and the emotions; all evil against the 7 points of the body used by witchcraft (heel of the spine, spleen, navel, heart, throat, between the eyes, and top of the head). I bind all evil on bodily systems (reproductive, skeletal, muscular, digestive, excretory, endocrine, respiratory, nervous and circulatory).

I BIND any and all evil powers giving aid or pulling these things in our body toward evil by means of energy drawn from the sun, moon, stars, planets, constellations, earth, air, wind, fire, water, light, darkness, matter, elements or from lines and/or circles used against us.

I BIND any and all transference of spirits in family, friends or associates (name those for whom you are binding and from whom you have forbid demonic transference). I break, sever, clip and sear with the Blood of Jesus all evil soul ties among these persons, and I place the Blood of Jesus over their minds, wills and emotions.

EACH AND EVERY EVIL SPIRIT named in this prayer is to be bound (Matthew 16:19, 18:18) for each person prayed for as well as for the person uttering this prayer. Spirits from the nether world, spirits over, between and around those praying and those prayed for, are to be completely bound in the Name of the Lord Jesus Christ.

IN JESUS' NAME, I loose the spirits of God (Isaiah 11:2) and any other godly spirits necessary upon the persons praying this prayer and the persons prayed for. I place a shield over their minds to protect against end-time mind control.

In the Name of my Lord, Savior, and Deliverer, Jesus Christ of Nazareth, we come against and bind the Strongman, Prince, Prince-Ruling Spirit, and all Spirit Guides associated with (specific name or covenant). We right now bind all psychic heredity that was inherited through the blood line of these (this) witch(es) and ask you, Lord Jesus, to seal the third eye through which they see into the occult realm. We also ask, Father, that you would restrain them from astral projection and that their cursing come back upon their own heads as your Word declares. We also ask that you send your angels to make sure that their curses are returned to them, and that these returning curses are not blocked by their magic or sorcery. We come through the Blood of the Lord Jesus Christ and in the Name of Jesus Christ as we bind, blind, gag, deafen, paralyze and silence you, demons, and forbid you from influencing or strengthening any witch, wizard warlock, spiritualist, satanist, (or specific name) right now in the Name of Jesus Christ.

We bind the spirits of Hate, Bitterness, Murder, Wizardry, Sorcery, Witchcraft, Magic, Occult, Control, Lust for Power, Lust for Position, Rejection and Pride (etc.) in order to destroy the demonic work, power, influence, plans, or appointments of these demons in the Name of Jesus Christ. We place you on notice, demons, that you will not be able to use these (this) soul(s) any longer against any church, group, family, individual, or themselves, in the Name of the Lord Jesus Christ.

We take authority over and come against the spirits of Blindness, Spiritual Blindness, Darkness, Occult Darkness, Wicked Heart of Unbelief, Pride, and Deception; binding the spirits of Bondage, Heaviness, Fear, and Hate in the Name of the Lord Jesus Christ.

We ask You, Heavenly Father, in the Name of Your Son, Jesus Christ, to send Warrior Angels to blind, gag, deafen, and paralyze these spirits, forbidding them from influencing or interfering with these souls so that they can have control over their own free wills and be able to make up their own minds should they choose to repent. We pray that they would be able to do this without any demonic or satanic interference.

Lord Jesus, we pray that you would release Warrior Angels to wage war against these demons and their activities. We also pray that you would send ministering angels of Salvation, Adoption as Children of God, Conviction, Repentance, Humility, Contrite, Brokenness, Knowledge, Revelation, Understanding, Grace, Mercy, Truth, Forgiveness, and any others necessary to minister to their souls.

Lord, open their eyes so that they can see the Glory of Jesus. Open their hearts so that they can hear Your voice. Break the yokes in their lives and give them liberty in their souls so that they may be free to repent. Show them every evil work and deed that they're guilty of, and Lord Jesus, convict their hearts unto repentance. Bring these souls out of darkness, save these souls so that You may have the Glory.

Heavenly Father, we humbly ask all these things in Jesus' Mighty Name, Amen, Amen, and Amen!

In the name of the Lord Jesus Christ, I break all bondage over my conscious and unconscious mind. I send out God's angels to gather all portions of my soul that have been removed by witchcraft, Communism, Masonry, Catholicism, false religions, rock music, drugs and any other means (and replaced by demons to control me) to be restored to me (Psalms 23:3; 7:15; 35:1517; 50:22; Job 33:1033; Ezekiel 13:1723).

Heavenly Father, I break and renounce all evil soul ties that I have ever had or may have had with: {name any lodges, adulterers, close friends, husbands, wives, engagements, cults, binding agreements between buddies, etc.}. I renounce these evil soul ties, break them and declare them destroyed by the blood of the Lord Jesus Christ.

In the name of Jesus Christ, I now renounce, break and loose myself from all demonic subjection to my mother, father, grandparents or any other human being, living or dead, who has dominated me in any way which is contrary to the will of God. I thank you, Lord, for setting me free.

I ask you, Father, to put a special covering of warrior angels over each ceremony, coven, witch, wizard and warlock, so that no curse or demon can emerge or be sent. In the name of Jesus, I return to the senders all curses and demons that they already have or will attempt to send.

Father, I ask that You send special angels to protect (Exodus 8:22-23); hide and put a hedge around (Job 1:10; Hosea 2:6) all of your children who are in the deliverance ministry. Also for all the people and animals that would be sought out to be sacrificed or to be cursed.

In the name of the Lord Jesus Christ, I loose into myself and my family the angels of God to fight our battles in the heavenlies. Let them guard us from Satan and all his hosts who would have us believing and agreeing with lies. We bind all deception within us to prevent any more from getting through to us. Lord, minister to our needs.

In the name of Jesus, I cut Satan, his demons and curses loose from me, my family and friends. I command you, Satan, and all evil spirits and curses to loose me and my family and all the things you have stolen from us (happy marriages, finances, jobs, families, ministries).

I command you to stop robbing us of our blessings and blocking God's perfect will for our lives. I refuse to allow you to steal anything else from us.

I command you to loose all natural resources, land, animals, money, the finances of people who owe us money, and all the things you have stolen from us that are ours through the blessings of Jesus. I ask you, Lord, to send Your angels to bring these things back to us.

A haughty look; a lying tongue, hands that shed innocent blood; a heart that devises wicked imaginations; feet that are swift in running to mischief; a false witness that speaketh lies; and he that sows discord among brethren are seven things that the Lord hates and are an abomination unto God (Proverbs 6:16).

Father, I renounce these and turn away from them. I humble myself before You and come as a little child. I renounce unbelief and doubt as sin and ask you to forgive me for entertaining them.

Heavenly Father, I come to you in the name of the Lord Jesus Christ. He is the Son of God who takes away the sin of all those who repent and confess Him as Lord. The blood of Christ cleanses me from all sin. I claim freedom from all filth of a sexual nature which came through my eyes, my ears, my mind or through actual participation in sin.

In particular I confess the following: all preoccupation with sensual desires and appetites, and indulgences of them; all longing and ardent desire for what is forbidden (evil concupiscence); all inordinate affection, all unnatural and unrestrained passions and lusts; all promoting or partaking of that which tends to produce lewd emotions and foster sexual sin and lust.

I further confess all filthy communications, obscene and filthy language, conversation and jokes, lewd and obscene music, poetry, literature and art; all pornography, all acts of sodomy, adultery, immorality, fornication, oral sex, masturbation, effeminacy and homosexuality.

I also confess all affection for and attachment to philosophies, religions, and lifestyles which glorify, promote and condone sexual conduct in thought, word and deed, which is contrary to the standard set for believers in the Bible.

I further renounce the expression of these philosophies, religions and lifestyles in art, literature, mass media and public practices and attitudes. Lord I ask that Your Spirit reveal other sexual offenses in my life that I have committed.

Father, I confess and renounce all occult involvement, both known and unknown by me or my ancestors. I hate Satan, his demons and all his works, I count all that offends you, Father, as my enemy (Psalm 139:21-24).

Your Word declares, "In My name shall they cast out devils...." (Mark 16:17) and "I give you power....over all the power of the enemy, and nothing shall by any means hurt you," (Luke 10:19). Jesus came "...that He might destroy the works of the devil," and "to turn them {men} from the power of Satan unto God. ..." (1 John 3:8, Acts 26:18).

I accept these promises and in Jesus' name, command Satan and all of his hosts of evil spirits to come out of me - body, mind and soul. Especially, I renounce the following spirits of sexual sin {give the names of specific sexual sins you have committed}.

I also renounce the Prince of Occult Sex and command all of his demons to leave me now in the name of Jesus Christ my Saviour.

Christ was made a curse on the cross for me (Galatians 3:13) and blotted out the handwriting of ordinances against me (Colossians 2:14). I declare all curses over my life, whether through my own sins or those of my ancestors, to be broken; particularly in the area of sexual sin and occult involvement. I claim freedom from all curses which have been placed upon me in the name of Jesus Christ.

I hereby reclaim all ground that I have ever given to Satan in body, mind, soul, or spirit. I dedicate it to you, Dear Lord, to be used for Your glory along. I want you to control and empower every area of my life, including all my sexual powers, that from now on they might be used according to Your will. I also now give to You my affections, emotions and desires and request that they might be motivated and controlled by Your Holy Spirit (Romans 12:1, 2). Amen

For myself, Heavenly Father, I pray that you would give me wisdom and knowledge concerning what I can do to combat the New Age Movement and how to be an effective warrior and witness for Jesus Christ. Even so, Come Lord Jesus!!

Heavenly Father, in Jesus' name we ask that You send warrior angels to do battle for us. Thank You for Jesus' precious blood, His resurrection and our authority in His name. May the Holy Spirit give us discernment and gifts to set the captive free.

In Jesus' name we block any and all transference of evil spirits. Heavenly Father, we ask that your angels block and remove any evil spirits assigned to hinder or interfere. We cut off all evil power directed toward us from witches or other such persons. Let each strongmen present, all demonic doorkeepers and gatekeepers be bound. May all communication between enemy forces be disrupted and confusion be loosed on them (Psalms 149:6-9).

We command that all evil spirits cast out must go wherever Jesus wants them to go and never return. May the Holy Spirit fill any vacancy left by evil spirits.

Jezebel, in Jesus' name we attack and bind you from our position in the third heaven. high above Satan, principalities, powers, dominions, world rulers of darkness, kings, princes and all angelic ranks.

We take away all of the known and unknown power of your titles, including: Queen of Heaven; Mistress of Kingdoms; Queen of Kingdoms; She Who Sits on Many Waters; Ashtoreth; Queen of Babylon; Daughter of Babylon; Queen Mother; Mother of God;

Ishtar; Astarte; Venus; Diana; Rosemary; Athaliah; Semiamrus; Daughter of the Chaldeans; Hecate; Isis; Cybele; Mystery Babylon; Artemis; Mother Mary; Great Harlot; Goddess of War, Goddess of Fertility; Mother of Prostitutes and Abominations of the Earth; Mistress of Sorceries; in Jesus Christ's name.

We also bind in Jesus' name the known and unknown powers of your consort by his various names, including: Ahab; Nimrod; Marduk; Tammuz; Baal and King of Babylon. We separate Jezebel and Ahab spirits and forbid them to communicate or hinder this deliverance in any way.

Because Jesus became a curse for the believers (Galatians 3:13) we break all curses of Jezebel and Ahab which were put upon this person and their family. We destroy related curses back to the tenth generation on both sides of the family.

According to (Matthew 12:22-32, Mark 3:20-30; Luke 11:14-23)

In the name of Jesus Christ, we command Satan's demons to fight against and destroy each other. Specifically, we command all marriage and family hindering, delaying, preventing, destroying and breaking demons to attack the spirits of Ahab and Jezebel.

We command the spirits of power and control to attack the spirits of pornography and Eros; the spirits of violence and torture to attack all the spirits of human subjection, degradation and submission.

We command the spirits of riches and wealth by greed to attack the spirits of lust for one world rulership, currency, and total control of the world system, the spirits of anti-capitalism, rebellion against free enterprise, strike and work stoppage to attack the spirits of poverty, hatred for believers, anti-Americanism and human bondage.

Let the spirits of war between the nations, destruction, hatred and anger attack the spirits of political and spiritual blindness, rage, mockery, vengeance, evil political science and influence, Illuminati and Communism.

Let the spirits of Antichrist, 666 and false religions attack the spirits of Roman Catholicism, and Masonry, the spirits of infirmities, sicknesses, weaknesses, deformities and accidents. Let them attack the spirits of alcohol, drugs, nicotine, bad nutrition and abortion. Let them destroy the spirits of mind control and darkness and attack the spirits of Leviathan and pride.

Heavenly Father, we ask You to loose burning, judgment and destruction upon all disobedient and reluctant spirits that fail to follow these commands promptly.

In the name of Jesus, I loose upon Satan, his headquarters, strongholds, orders, plans, curses and demons, the curses of the Midianites (Judges 7:22), Ammonites, Moabites and Edomites (2 Chronicles 20). Let panic, frustration, havoc, confusion, pandemonium, disasters, chaos, destruction upon each other, the hornets of the Lord descend upon them (Exodus 23:28; Deuteronomy 7:20).

May the wrath, hatred, anger, terror, fear and finger of God (Luke 11:20), the burning judgment and warring angels, spirits and the Word of God prevent Satan's orders from being carried out, that the perfect will of God be done.

We bind and cast out the demons in us and replace them with the spirits of God and His Word. Especially we ask that the demonic strongmen or rulers in us and our churches be replaced with agape love (Matthew 12:43-45; Luke 11:24-26); that all demonic doorkeepers be replaced with joy and that we have peace in abundance.

Father, in the Name of the Lord Jesus Christ and the authority You have given us (Matt 16:19, 18:18; Luke 10:19), we now bind the strongman (Luke 11:20-22) over all evil spirit powers working in and through the following:

The Illuminati, Moriah, Council of 13, Council of 33, the Rothchilds Tribunal, The Rothchilds Foundations, the Rockefellers, the Bilderbergers, Trilateral Commission, Council on Foreign Relations, Federal Reserve System, Internal Revenue Service, United Nations, Socialism, Humanism, Liberalism, Communism, Atheism, the Kremlin, Peking, Church of WICCA,

All Satanist churches, All Masonic Lodges, the Roman Catholic Church, the Vatican, Babylon, the Pope, Beast and False Prophet, Antichrist, Hospitals, Prisons, One World Government, New Age Movement, International Monetary Fund, Witchcraft and Zodiac powers, World Council of Churches, Body of Christ, all True Believers, Israel, and Jerusalem.

We break all the curses, vexes, hexes and spells over these people, places and institutions in the name of Jesus Christ:

The President; the Vice President; the Cabinet; the Supreme Court , all Senators and Representatives; all Federal Judges, the Pentagon; State Department; all the States; Governors; State Legislatures, Counties, Cities, Family, and Businesses; Home and Possessions.

We bind all these evil spirit powers operating to control and subvert these and loose upon them the spirits of Burning, Destruction, Judgement and Confusion and loose Warrior Angels to attack and destroy them in Jesus Name.

We also loose the ministering spirits of God on our loved ones, country, businesses, etc. We loose the spirits of Adoption, Grace and Supplication, Truth, Peace, Love, Joy, Sound Mind, Praise, Worship, Prayer, Holiness, Obedience, Grace, Mercy, Conviction, Repentance, Deliverance and the seven spirits of God (Wisdom, Counsel, Understanding, Might, Knowledge, Fear of the Lord and the Spirit of the Lord).

Lord, we pray that: leaders who govern and judge unjustly will make many mistakes in decisions, especially involving world evangelism (Psalm 109:29); leaders who despise You will fall from power through improper advice and actions (Psalm 5:10, 19:14); leaders who are truly searching for understanding will find knowledge and wisdom in Your word (Proverbs 28:2).

Let the leaders who live in darkness receive a personal message of Your love (Psalm 52:15). Cause leaders who live in war-torn nations to grow weary of continual bloodshed (1 Kings 5:3-4); Force leaders who lead corrupt governments to recognize their evil ways and turn to You (1 Chronicles 33:12-13); cause leaders who boast of power to realize that their earthly kingdom was given to them by God (Daniel 2:19-22).

Dear Father, I come to You in the Name of the Lord Jesus Christ to pray for my children, they are Your inheritance and reward (Psalm 127:3).

I have placed my trust for salvation in the Blood of the Lord Jesus Christ; therefore, my children are clean and holy unto You. (1 Corinthians 7:14).

As Job prayed for his children, I ask You to accept my prayer for mine, for it may be that they have sinned and cursed You in their hearts (Job 1:5).

I confess that I and my family have been slack in serving You joyfully and gladly for the abundance of all things (Deuteronomy 28:47). Please forgive us for our ingratitude. I now break all curses off myself and them of madness (Deuteronomy 28:28), oppression (v. 29), sickness (v. 22) being held captive by evil (v. 41), untimely death (v. 62), fear, trembling heart, sorrow of mind, restlessness and wandering (v. 65-67).

You have fulfilled the covenant You promised by the blood Your Son shed (Hebrews 10:12-24). We thank You that You will never turn away from doing us good, but will put Your fear in our hearts lest we depart from You (Jeremiah 32:40), that we may fear You forever, for our good and the good of our descendants (Jeremiah 32:39).

By Your grace I fear You, giving my children a place of refuge (Proverbs 14:26). I listen to the words of Thy mouth (Psalm 78:1) and share them with my children, for they show Your strength and wonderful works (Psalm 78:4).

Let my children set their hope in You, not forgetting Your works, but keeping Your commandments (v.7) lest they be a stubborn and rebellious generation v.8).

As father (or parent) I shall make known Thy truth to my children (Isaiah 38:19). Your Spirit is upon me and Your words shall not depart out of my mouth nor my descendants (Isaiah 59:21). Thank You for the promise to pour out Your spirit and blessings upon my offspring (Isaiah 44:3).

As You have promised, I declare now that my children shall be released from captivity. Please send angels now to deliver their bodies, minds, wills and emotions from the enemy. Contend with him that contends with me and save my children (Isaiah 49:25; Hebrews 2:14 & 15; I John 3:8).

As David commanded Solomon, so I pray today that {names of the children} will know and serve You with a perfect heart and a willing mind. I loose Your grace on my children that they will seek and find You (I Chronicles 28:9).

According to Your purpose You have given us to Christ Jesus before the world began (2 Timothy 1:9) and we can receive Your Word (Acts 20:19).

I bind all evil spirits who would seek to conform me or any of my family to the world; I loose grace on us to be transformed by the renewing of our minds (Romans 12:2). I also loose grace on each of us that we will be fully assured in our own minds of Your truth (Romans 14:5); not shaken in our minds (2 Thessalonians 2:2); not beguiled by Satan through his subtlety; nor have our minds corrupted from the simplicity, sincerity and singleness that is in Christ (2 Corinthians 11:3).

Father, I am jealous over my household with godly jealousy and have espoused them to the Lord Jesus Christ (2 Corinthians 11:2). I ask that you bind their feet to the paths of righteousness and may they come to abhor the things of the world which allure them.

I ask for wisdom to correct and discipline my children. You have said that "the rod and reproof give wisdom but a child left to himself bringeth his mother to shame" (Proverbs 19:15), and "Correct thy son, and he shall give thee rest; yea, he shall give delight unto thy soul" (Proverbs 19:17). In this matter of discipline I ask You turn my heart to my children and their hearts to me (Malachi 4:6). I bind all evil spirits who would try to block this.

I loose upon myself and my household the grace to be filled with the knowledge of Your will in all spiritual wisdom and understanding. Help us to increase in godly knowledge of You.

Let us be strengthened with might, according to Your glorious power unto all long suffering with joyfulness. We give thanks unto You for delivering us from the power of darkness into the Kingdom of Christ (Colossians 1:9,14).

In the name of my Saviour I loose all the judgments against Satan's host in Your Word if they attempt to rob me or my family of any of our inheritance in Jesus Christ (Romans 8:16,17; Acts 20:32, 26:18; Ephesians 1:11; Colossians 1:12, 3:24.)

As a priest of God in my child's life and purchased by the blood of Jesus Christ, I renounce and repudiate all the sins of my son/daughter according to 1 John 5:16.

I pull down all strongholds in which Satan has blinded the mind of {name} so that the gospel light cannot shine to them. I break the power of {name cult, false religion, etc.} over my child and ask You, Father, to loose a spirit of truth upon him/her.

I bind all spirits of Mind Control and psychic powers that may have my child's mind bound and ask Father that You send your ministering spirits to snip and break all bonds or fetters on {name}'s mind. I ask You to command light to shine into my child's heart. Also give the light of the knowledge of the glory of God to my son/daughter (2 Corinthians 4:6).

In the name of Jesus Christ, I break and loose {name} from the curse of the law. I ask You, Father, in the name of the Lord Jesus Christ to reveal to {name} the redemption that Jesus paid in full for him/her, and I thank You, Father and praise You for the immediate release of {name} from error and false religion.

In the name of the Lord Jesus Christ, I praise my Heavenly Father that He has entrusted to me my adopted child {give name}. I accept all responsibility that God places on me as a parent and priest of God in {name}'s life.

As a priest of God in my child's life, purchased by the blood of the Lord Jesus Christ, I here and now confess and renounce all the sins of {name} through his/her blood line.

I declare to Satan and all of his forces that I now cover {name} with the protection of the blood of the Lord Jesus Christ and the work of the Holy Spirit.

As one who has authority over all powers of darkness through my union with the Lord Jesus Christ and who is seated with Him in heavenly places, I renounce any and every way in which Satan may claim ownership of {name}.

I pull down all blindness which Satan would put on {name}'s eyes to keep him/her from understanding spiritual truth and growing to love and serve my Lord and Savior.

As the legal parent in the eyes of God and as a priest of God in {name}'s life, I cancel and take back all the ground given to Satan by his ancestors. I claim that ground through the victory won over Satan achieved by the Lord Jesus Christ in His redemptive work. I cover all ground with His precious blood that Satan may have no claim against {name}.

All of this I do in the name and authority of the Lord Jesus Christ and will accept in my child's life only that which comes by way of the cross and through God's grace.

When you are called by name or by function, you are to manifest and leave _____. If you do not, we will loose more angels on to you, and use our authority in the Name of our Lord Jesus Christ, and every means at our disposal in His authority to forcibly remove you.

We ask You, Jesus, to send every demon cast out to where ever You want them to go and that You would strengthen the will of _____ so that they can never return. Holy Spirit, please fill any and all vacancies left by the ejected demons with the Spirits of God as found in Isaiah 11:2. In Jesus' Name, Amen.

Begin casting out each evil spirit by calling it by its demonic name or function. (Command demons to manifest and leave in Jesus' name.) Contrary to popular belief, demons do not have hearing impairments. The power that dislodges demons is only found in the Mighty Name of Jesus Christ (Mark 16:17), not in the volume of our voices. At this point begin casting the spirits as named in the above prayers as well as those named in Win Worley's books and in literature available on deliverance websites such as <http://www.demonbuster.com/>.

Ending Deliverance Session

We take authority over every remaining demon from the Strongman on down to the lowest ranking demon, power & form and bind you all in Jesus' Name. By binding, we mean that you are not to torment, hurt or harass _____. We loose sufficient numbers of Warrior Angels to put each of you in boxes, cages or caves 500,000 times too small and seal each box, cage, or cave with the Blood of our King, the Lord Jesus Christ (Joshua 10:17).

Angels, gag each remaining demon so that no communication can go on between them or any others. Angels, in Jesus' Name, we assign you to read Scriptures to these demons on the Blood of Jesus, the Cross, their torment in the Lake of Fire to come, and any other passages that they hate to hear (Psalm 59:10; Heb 1:14). We pray, Lord Jesus, that your glorious light shine through each box, cage, or cave so the demons will have no rest. It is written, "There shall be no rest for the wicked!"

We loose ministering angels of Life, Health, Healing and Restoration into areas of _____'s body or soul where the ejected demons have done damage. We cover each of our families, properties & possessions with the Blood of Jesus Christ, and loose Warrior and Ministering Angels to protect us from any and all satanic & demonic backlash. In Jesus' Precious and Almighty name we pray. Amen.

Further Notes by Michael Relfe

Note 1 : These warfare prayers are quite long and are meant to be a “warm up” to a group deliverance session. These sessions commonly go for about 2 hours or more. You will see these prayers are divided by “subject” every time you see two blank lines. In reality, the minister would explain each area to the group and then lead the group through that prayer.

Note 2: It would be extremely effective if you were to obtain as many deliverance booklets, books, audio tapes and video tapes as possible and do an intensive study of their contents. They are available from the above address. You will need to read them and the associated bible verses many times to become familiar with them as this specialized information becomes your weapon against the enemy.

Note 3: Visit <http://www.demonbuster.com/> for one of the best collections of free information on deliverance on the internet. Over 2000 pages is available.

The following warfare prayers are used by my wife and myself on a regular basis.

Prayers against aliens

Heavenly FATHER, In the name of THE LORD JESUS CHRIST, I ask you to please send hundreds and hundreds and hundreds and hundreds of millions of legions of angels to surround and encamp around me and set up angelic shields, protective devices, impenetrable force fields and angels to protect me against all abduction and influence from Government Groups, New World Order Groups, Witches Groups, Satanist Groups, Masonic Groups, MIB Groups, Draconian Alien Groups, Reptilian Alien Groups, Grey Alien Groups, Insect Alien Groups, Groups that have abducted me or that I have willingly went with in the past, Groups that have performed mind control on me, Groups that have put implants, microchips, alien circuitry and foreign objects in me and all groups that are unknown to me. Father, In Jesus name I ask you to send angels with scramblers, jammers and disrupters to jam, scramble and disrupt the technology of the enemy when they attempt to abduct or contact me. If they attempt to abduct or contact me I ask you to immediately launch a counterattack of millions of legions of angels to destroy the installation from where the attack originates, in Jesus name I pray, Amen.

Heavenly FATHER, In the name of THE LORD JESUS CHRIST, I break every curse, spell, psychic prayer and influence put upon me by Government Groups, New World Order Groups, Witches Groups, Satanist Groups, Masonic Groups, MIB Groups, Draconian Alien Groups, Reptilian Alien Groups, Grey Alien Groups, Insect Alien Groups, Groups that have abducted me or that I have willingly went with in the past, Groups that have performed mind control on me, Groups that have put implants, microchips, alien circuitry and foreign objects in me and all groups that are unknown to me.

In the name of THE LORD JESUS CHRIST, I break every soul tie, link, hook, comm link, telemetry line, communication line, surveillance link and data link between every implant, microchip, alien circuitry and foreign object in me and the beings that own those implants.

Lord, In Jesus name I ask you to please send as many legions of angels as necessary to go to all parts of creation to gather up all the parts of my fragmented soul and restore them to their rightful places in me. I ask you to send more legions of angels to free any other souls captive in that place, to destroy the containment vessels that keep those soul parts prisoner, and to destroy that installations where they were kept. In Jesus name I pray, Amen.

Appendix VII: How to Do the Wernicke's Correction

Before you do the Wernicke's Correction, you need to know how to muscle test accurately. The best way to do this is probably to do a 'Touch for Health' seminar, which is about a weekend long. See Appendix VIII, Additional Resources. I intend to produce a video which will teach this correction, after the publication of 'The Mars Records'. Visit <http://www.metatech.org/> for information as to when this will be available.

1. As for a normal kinesiology session, first do the pretests. Test both Anterior Deltoid and Supraspinatus muscles. Then test for dehydration, switching and blocking. Once everything is in order, proceed to step 2.
2. Find an area in life that the client is still having trouble with.
3. Work out a phrase that could create difficulty in this area, as it is said BY ANOTHER. For example, the sentence would be "You are not good enough" (Not "I am not good enough").
4. Have the client say the phrase out loud, while:
 - a) You test one Anterior Deltoid AND
 - b) The client touches the right side of the Wernicke's area of the brain, which is about 3 fingers posterior of Neurovascular 9 (just above and just behind the ear).

If the arm goes weak when they say this sentence (while they touch the right Wernicke's area), you have the correct wording. If the arm stays strong, you have not got the correct wording.

5. Once you have found the phrase which causes the arm to test weak, ask the client who said that to them. When they name the correct person, the arm will go weak again when you test.
6. Ask the client to turn their eyes UP and to the RIGHT, while they continue to touch the right Wernicke's area of the brain. Have them say the phrase out loud again. It should now test STRONG. **If it tests strong now, you have the correct wording.** If it tests weak, you do not have the correct wording, although you may be close.^x

CORRECTION

- A. DANGER !!!** Be careful not to damage the eyes. The touching must be as GENTLE and LIGHT as possible. **TRIM ALL NAILS SHORT !!!!!**

During the breathing do not go too fast. Allow the client to breathe at their own speed so as not to cause hyperventilation).

While doing all corrections, have the client think of the phrase.

1. Ask the client to Look **UP to the RIGHT** while they **Breathe IN** and **think of the phrase**. At the same time you GENTLY touch the left side of their LOWER eyelid and LIGHTLY push in the direction they are looking during the breathing IN cycle, then release. (This is to lightly stretch the fascia (envelope) of the eye muscles).

Allow them to Breathe OUT

2. Ask the client to Look **UP to the LEFT** while they Breathe IN. At the same time you GENTLY touch the right side of their LOWER eyelid and LIGHTLY push in the direction they are looking during the breathing IN cycle, then release.

Allow them to Breathe OUT.

3. Ask the client to Look **UP to the RIGHT** while they **Breathe IN**. At the same time you GENTLY touch the left side of their LOWER eyelid and LIGHTLY push in the direction they are looking during the breathing IN cycle, then release.

Allow them to Breathe OUT.

4. Ask the client to Look **DOWN to the LEFT** while they Breathe IN. At the same time you GENTLY touch the right side of their UPPER eyelid and LIGHTLY push in the direction they are looking during the breathing IN cycle, then release.

Allow them to Breathe OUT.

5. Ask the client to Look **UP to the LEFT** while they **Breathe IN**. At the same time you GENTLY touch the right side of their LOWER eyelid and LIGHTLY push in the direction they are looking during the breathing IN cycle, then release.

Allow them to Breathe OUT.

6. Ask the client to Look **DOWN to the RIGHT** while they **Breathe IN**. At the same time you GENTLY touch the left side of their UPPER eyelid and LIGHTLY push in the direction they are looking during the breathing IN cycle, then release.

Allow them to Breathe OUT.^{xiv}

- B. Re-test with the person repeating the phrase and eyes to the front (while they touch the right Wernicke's area of the brain). The muscle should now test strong – indicating that the command has been removed.
- C. Say “thank you”. That is, acknowledge the client.
- D. Say “What's the next one?”. This encourages the command to come to the mind of the client, so that you can find the next phrase to work on.^x

HELPFUL HINTS

- Many clients when asked for commands that sabotage them will say phrases from an “I” point of view. This isn't it. Whatever they say starting with “I . . .”, get them to repeat starting with “You . . .”.
- When they name phrases or people which are not the ones you are looking for, don't invalidate their answer. Merely ask “What else?” or “Who else?”
- The phrase is usually associated with whatever the client is talking about. For example, if they say “I can't think of anything” ask them what someone may have said to stop them thinking. It may be that someone said “you're stupid”. If they start talking about an incident from their past, the phrase was probably said during that incident.
- If they have a problem with remembering who said the phrase to them I also ask them who may have THOUGHT this at them. I have found that sometimes people pick up a thought from a person if they just THINK it (after all, sometimes it's pretty clear what someone is thinking – they don't really need to say it out loud).
- The phrase can sometimes be just a one word insult, such as “fatty”.
- The key is to get the EXACT wording. You may need to add words such as “very”. For example, it may not be “You're hopeless”. It may be “You're very hopeless” or “You're bloody hopeless”.

- If the phrase was said in a language other than English, get them to say the sentence in the language in which it was said (after translating to you what they are saying).

Appendix VIII: More about Kinesiology

by Stephanie Relfe

“Muscle Testing”

plus

“The Cause of Disease”

Kinesiology is a fairly new branch of science which was developed by doctors, chiropractors and acupuncturists in the U.S.A. They pooled their knowledge and added it to Chinese medicine to develop a totally new technology which is amazingly efficient at balancing the body so that it can return to excellent health, energy and emotional strength.

It is a truly 'wholistic' system, because it looks at the **whole** person (not just at selected parts), and looks at *all* types of stresses, which can cause disease. They include emotional, nutritional, structural and electrical stress.

The basis of Kinesiology is that the body is like an electrical piece of equipment, which is controlled by an incredibly complex **computer**, namely the brain. The brain is continually in communication with each of the 639 muscles in the body.

If a muscle is electrically in balance, it is possible to measure a constant electrical signal from the brain to that muscle and back again, much the same as two faxes 'talking' to each other.

However, when the body is overstressed (through a chemical, emotional, structural or electrical cause), the electrical signals in one or more muscles go weak. It is like a fuse in your fusebox blowing. The body figures that it is better to blow a fuse than the whole thing.

This is the basis of muscle testing. For example, if a person has a particular muscle in their arm 'out of balance' (as we say), then they will not be able to hold their arm in a certain position when the kinesiologist applies pressure to it.

This is particularly significant when you realise that many different parts of the body are in communication with many other parts of the body. That is,

Muscles (communicate with)	muscles
Muscles (communicate with)	organs
Organs (communicate with)	muscles
Organs (communicate with)	organs

In the above example, the muscle itself may have been weakened. However, if it is the particular muscle that communicates with the stomach the muscle may be weak because the stomach is out of balance.

In another example, a person may have a weak bladder because their bladder is out of balance. However, the bladder communicates with the ankle muscles and therefore a weak bladder may have been caused by weak ankle muscles. It is virtually impossible to completely heal the body without taking the whole picture into account.

Once the weakness is located through muscle testing, the kinesiologist then 'talks' to the body. For example, by use of muscle testing the kinesiologist can ask the body any of the following questions.

What caused this muscle to go out of balance? If it was a chemical he can ask the body what specific food or other substance caused the body to go out of balance. If it was a deficiency, he can find out what food will re-strengthen the body. Muscle testing shows whether a particular food weakens, is neutral to, or strengthens a particular body. Every body is different at different times. When a body is well balanced, foods which were previously weakening may become neutral, and neutral foods may become strengthening.

If it was an emotion which caused the imbalance, the kinesiologist can ask what specific emotion is it? Once the emotion is located, the kinesiologist can then do an extremely simple form of emotional stress relief.

He/she lightly places a few fingers on the other person's forehead, while the person 'looks at a video' of the emotion. When we are under stress, blood goes to the back of our brain (where the past is). But when a hand is placed on the forehead, blood moves to the front of the brain (which unfortunately most of us use only 5% of the time) where new choice is located.^{xvi} Within a very short period of time (often a few minutes) the person will be a lot less emotional about the particular incident, and therefore a lot less affected by it.

If the person went out of balance due to an electrical cause (which is quite common), it can be determined whether this is being caused by an electric blanket, microwave oven, computer, pager, car, television or whatever else you can think of.

Many people go seriously out of balance by simply using an electric blanket, eating microwaved food or by working on a computer for seven hours. After the cause is located the person can either remove the offending piece of equipment, or ask the kinesiologist to rebalance them to a new strength so that next time they are around the piece of equipment for an extended period of time they will stay in balance.

A little-known fact is that many crystals are just the same as food - they can either weaken, be neutral to, or strengthen the body. A number of people are seriously out-of-balance due to the crystals that they wear in order to 'strengthen' themselves!

This is one reason why kinesiology is such a boon to any type of health practitioner. As people get more and more specific communication back from their body, they usually begin to take responsibility for their own health and have more knowledge of how to do that. When a big, tough guy sees that a puny girl can easily push his arm down when she says "cigarettes" or "sugar", he often begins to think seriously about giving them up. Many people don't feel like giving up harmful habits because someone else has told them that they should - but when their own body starts telling them in no uncertain terms that those habits are weakening it, then that is another story.

Whether or not the cause of the imbalance is identified, the kinesiologist is able to ask the body which particular areas of the body should be touched in what particular way to correct the imbalance. The brain becomes aware of the problem and finds the electrical pathways which were blocked or forgotten about, and rectifies the situation. Typically people notice an immediate (and hopefully long-lasting) absence of pain in the troubled area and within a few days afterwards many of any other symptoms have often gone.

'Healing' is a biological process initiated and accomplished by the body and its inherent ability to eliminate and regenerate. No outside agent has the ability to heal or 'cure'. No drug, medicine, herb, food or therapy can actually 'heal'. However, they may assist in providing favourable conditions for healing to occur.

Drugs

Drugs fall into two main categories:

ALLOPATHY	HOMOEOPATHY
<p data-bbox="293 363 850 436">(‘conventional medicine’) "opposites cure opposites".</p> <p data-bbox="293 464 850 562">For example, if a person is constipated they are given a substance that in a healthy person would cause diarrhoea.</p> <p data-bbox="293 590 850 869">However, drugs are not active. They are passive. It is the body which is active. If the drugs did the work, then that drug would have little effect on a healthy person, more effect on a sick person, and cause the most amount of diarrhoea in a corpse. The opposite is what happens.</p>	<p data-bbox="850 363 1398 436">"like cures like"</p> <p data-bbox="850 464 1398 562">It stimulates a memory of what is happening to the body, and once reminded the body heals itself.</p> <p data-bbox="850 590 1398 646">It is possible that it also works by "as-ising" the substance.</p>

The disadvantage with both allopathic and homeopathic drugs is that neither address **the cause** of the problem.

The 'symptoms' we perceive as 'disease' are actually the very processes the body uses to restore balance, and thus health, to an out of balance system. What are the symptoms of 'disease' (dis - ease)? Amazingly they are few in number:

The only symptoms of disease

- 1) Pain
- 2) Hardening (sclerosis)
- 3) Discharge
- 4) Necrosis (tissue breakdown)
- 5) Swelling
- 6) Inflammation (redness)
- 7) Increased temperature
- 8) Nerve signalling problems

We are led to believe that there are many different diseases requiring many different treatments. The truth of the matter is that there are many different parts of the body with many and varied functions and if any of the above 'symptoms' occur in those parts the condition seems different only because that part or system has a different function.

For example, Bronchitis is an inflammation in the bronchial tubes. The symptoms are coughing, pain, discharge and temperature increase - but no bowel spasms, diarrhoea or intestinal bloating. Colitis is an inflammation of the colon. The symptoms are abdominal cramps, loose stools, discharge of mucus and some bloating - but no coughing, chest pain or breathing difficulties. Why? The bowels can't cough and the lungs don't pass stools.

This is why many different and apparently unrelated conditions in the body improve or disappear when we restore the structural, chemical and emotional contexts to balance.

WHAT HAPPENS IN ANY DISEASE - AND WHY ALL DISEASES ARE SIMILAR

The body has two responses to the introduction of a threat to its structural, chemical and emotional integrity. The first is **resistance** which is active and in many cases dramatic actions, such as rashes, swelling, fainting or vomiting.

As resistance is expensive of energy, and the body does not have a limitless supply, resistance cannot be maintained indefinitely. If the attack continues, the body's enthusiasm for resistance sadly gives way to the apathy of **toleration** or adaptation. The spirit of the fight is lost and acceptance of unsuitable things lays the foundation for chronic illness and inevitable death. The body degenerates in the following order (virtually all body problems can be located in the following eight steps):

- 1: **Enervation.** Lack of energy, locally or generally, due to going out of balance by exceeding the biological laws by having too much or too little oxygen, pure water, wholesome/unwholesome food, exercise, rest, sleep, sunshine, emotional poise or electrical disturbances.
- 2: **Toxaemia.** The lack of energy has reduced elimination of waste and thus toxins begin to build up. The person is tired and feels sluggish.
- 3: **Irritation.** Waste has reached irritant proportions. The body may initiate a resistance at this stage if there is some energy to do it with. Otherwise passive acceptance, stiffness, pains and deposits remind that all is not well.
- 4: **Inflammation.** Irritation and toxaemia have reached threatening levels, so energy must be mustered from within to activate the inflammation process, which means more blood (redness), more white cells (pus discharge) and more lubrication and neutralisation (mucous). That is, the immune response is in full swing, and the body is actively resisting and processing.

Depending on where the inflammation occurs, it is usually labelled as an "itis", eg appendicitis, colitis, tonsillitis.

Unfortunately, at this point the process may be suppressed with drugs (more toxemia), or the energy reserves may fail and the body changes out of desperation to an adaptation/toleration mode.

- 5: **Ulceration or necrosis.** There is even more tissue breakdown in whatever area of the body it begins. There is not enough energy or materials to repair with.
- 6: **Induration.** This is a hardening, thickening or toughening of tissue (eg arthritis). It is the body's desperate attempt to stop the extreme breakdown of cells. This is adaptation/toleration at its peak.
- 7: **Fungation.** The induration of tissue has reduced the oxygen to the tissues by reducing blood circulation. The resultant build up of waste causes this new stage. Organisms such as yeasts, fungi, bacteria and protozoa find the environment most favourable for feeding and production. They in turn create more toxins to the already overburdened system.
- 8: **Cancer.** The cells find themselves cut off from the oxygen they love, so in order to survive they must alter their function by becoming anaerobic, which leads to them becoming independent and cancerous. The immune system is too tired to deal with the situation, and the final take over of the body is beginning. And yet, this is still an intelligent process, designed to maintain life in a situation that is way from ideal.^{xv, xvi}

SOLUTION As our bodies replace and replenish themselves completely, atom by atom every 18 months, we do have the ability to reverse the above changes. One of the first steps that needs to be taken is to restore the energy in Step 1, by a kinesiology balance or other means that addresses the WHOLE body. Our responsibility is to study the laws and apply the conditions of health. If we fail at that, all else fails.

The Cloacals

The cloacals are an electrical system not known by conventional medicine. They are taught as one of the corrections in Applied Kinesiology.

One of the reasons why some types of alternative treatments do not work as well on some people as they do on others, or have lasting effects, is because the right treatment is not being done in the correct order of priorities. There are a few BASIC electrical systems which must be in balance if the body is to recover to full health. Unfortunately, it appears by simple observation that most people do not have all of these basic systems in place.

The most important system to have in place is the Cloacal System. The Cloacal System controls and regulates most if not all of the major fluctuating qualities and quantities in the body. When your Cloacals are not working you are like a 'leaf in the wind' and will be much more affected by different stresses.

The Cloacals seem to work by acting as a reference point for the Autonomic Nervous System, which has the main job of maintaining stability within your body. Therefore, with your Cloacals 'blown', as we say, you will be continually out of balance and the body will not be able to completely heal itself.

In addition, you may be operating on, say 30% to 70%, of your normal body energy level.

If the Cloacals are not working properly, a few of the things that will be affected are; body energy levels, bladder, bowels, reproductive organs, pregnancy, sexuality, hormone levels, body fat, metabolism, blood sugar levels, blood pressure, body temperature, speed of healing, immune efficiency, brain chemistry, learning abilities, coordination, emotional stability and allergic responses.^{xiii}

The good news is that it takes only a few minutes for a good Kinesiologist to put the Cloacal System back into balance. People typically notice an immediate improvement in their symptoms. In cases where people feel worse for a few days after having their Cloacals back in balance, it is a symptom of the body using the extra energy available to it to heal some major problems which until then the body has had the energy to attend to.

EXERCISE - NOT ALWAYS BENEFICIAL

A balance of rest and exercise is necessary to keep a body in optimum health. In particular, the body needs to exercise so as to drain the lymph fluid of the waste products from all its cells. People who don't exercise are virtually drowning in their own waste products. This is because, while the blood vessels which go to the cells have muscle cells and valves to move fluid through them, the lymph vessels which carry fluid away from the cells do not. They rely on the movement of muscles around them, through exercise, massage etc., to move fluid.

However, one of the main electrical centring systems in the body is called "Gaits". Walking is a very complex process that uses many electrical pathways. If the gaits are out of balance, then the simple act of taking just one step forward will weaken the body, as it 'switches' all of the muscles off. This can be easily demonstrated by any good kinesiologist. Again, it is a simple correction to make.

Another point to bear in mind is that some people get fit, taut bodies through exercise while others do not. This is because the people who are making gains are probably in balance, with most of their muscles in balance and therefore in good communication with their brain. However, say a person has their abdominals 'switched off' through some type of stress. They can do sit-ups all day long, but because the brain has lost the electrical communication with those muscles, the exercise will make very little difference to their appearance.

STRUCTURAL CORRECTIONS

It is the muscles which hold up the skeleton, not the other way around. Therefore, many structural problems are caused, not because the bones are doing anything, but because some of the muscles holding them up have gone weak - and so the muscles on the other side of the bone have pulled the bone over.

Therefore, if we want to make a permanent correction to a bone, we must locate which muscles went out of balance and rebalance them. Again, it would be preferable to find what type of stress caused the muscle to go weak in the first place, to prevent the problem from reoccurring.

ILEO-CAECAL VALVE

I have found that many people's physical problems start with something out of balance in the digestive system, which is hardly surprising when you see what most people consider to be food. (Muscle testing shows that many of the foods that we consider basic to our daily diet have negative effects on the body).

There is a small valve between the large and small intestines called the ileo-caecal valve, which is operated by two small muscles. It is relatively easy to knock the ileo-caecal muscles out of balance, with the result that the valve will then stay either open or closed. If it stays open, rotten material from the large intestine will flood back up into the small intestine and mix with fresh food coming in. If it stays closed, food will stay too long in the small intestine and start rotting, so that again toxins will flood back up through the body.

In either case just some of the 'symptoms' that the body may show are bad skin, bloated stomach, tiredness, sore back, headaches and in extreme cases, bowel cancer.^{xvii}

DYSLEXIA

Most people think that dyslexia is poor right-left brain integration. Kinesiologists have a totally different approach to dyslexia, using information which has been available and self-evident since Guyton's 'Physiology of the Human Body and Speech and Brain Mechanisms' (by Wilder Penfield/Lamar Roberts) in 1959. To quote from "One Brain" by Gordon Stokes and Daniel Whiteside:

"Why the medical establishment and the Wholistic movement haven't put the obvious 2 + 2 together escapes us entirely, because the answer to the problem of dyslexia appears so simple once a person understands the basic functions of the brain itself."

In almost every instance, "learning dysfunctions" (which almost all of us have to some degree) result from emotional stress at the time of learning, a stress so intense that the individual programs in a blind spot to a given learning skill due to fear, fear of pain or pain itself.

Dyslexia results from a denial that learning is possible in a specific area. This denial comes from a conscious choice made in a moment of intense emotional stress. It is a simple neurological function caused by a mis-communication between the fore and backbrain. In order to correct the dyslexia, it is necessary to defuse the emotional stress through a simple process that is taught by kinesiologists (and described earlier in this article).^{xviii}

HISTORY

The kind of kinesiology used in these sessions is called Wholistic Kinesiology. Wholistic Kinesiology incorporates much of the best of Touch for Health, Applied Kinesiology and Educational Kinesiology, as well as newly developed discoveries and corrections such as the Wernicke's Correction.

Two of the original developers of kinesiology were Dr John Thie DC and Dr Goodheart. Touch For Health was developed principally by John Thie to make Kinesiology easily taught to the general public so that **everyone** can learn about their own bodies, and be responsible for the health of themselves and their families, without having to rely on outside "professionals" or "experts."

The purpose (of Touch for Health) is to give to the general public some of the safe, simple, easy-to-use techniques which have been developed in the last 30 years in chiropractic, together with modern practice of ancient disciplines and knowledge in Oriental health management. These tools will enable people to be more creative with their own lives. They can be used without certification, and their existence does not require or impose any obligation to use them. The methods are so simple and so rewarding to use that we believe nearly everyone will want to use or be helped with these techniques when they seem appropriate."

Appendix IX: Biography of Stephanie Relfe

Stephanie Relfe graduated from Sydney University with a Bachelor of Science degree, majoring in Histology (the study of cells) and Zoology. After that her REAL education began. Over the next twenty odd years her learning included:
